Project Director  
Gila River Relocation Center  
Rivers, Arizona

WASHINGTON

NOV 4 1943

Teletype Message No. \_\_\_\_\_

Please refer to your telegraphic reports on Leaves and Population Remaining for weeks ending October 23 and October 30, and our teletypes of October 30 and November 4 requesting corrections on leave figures for October 23. The same error was made on October 30 report.

Our teletype of May 12 requesting these reports reads as follows:

Quote

Beginning Monday, May 17 and weekly thereafter until further notice each project will wire me total number persons away from project at close of preceding Saturday by following categories:

1. Seasonal leave, formerly group leave.
2. Short-term leave.
3. Indefinite leaves.
4. Total leaves (sum of above items).
5. Project Population.

The above information is same as reported daily by mail on Daily Evacuee Population Summary but is hereafter temporarily required weekly by wire in addition.

Unquote

On telegraphic reports received for October 23 and October 30, figures for seasonal, short-term, and indefinite leaves are not total number of persons out on leave as they should be; also, seasonal, short-term, and indefinite

leave figures do not add to the total leave figures as they should.

Please submit corrected reports for both October 23 and October 30.
