VI. GENERAL COMMENT: (Give a brief report on any unusual and significant problems or incidents which have arisen in the fields of employment, placement, labor relations, work incentives, working conditions, accident prevention, etc.)

Due to our inability to secure WRA Forms, it has not been possible to complete setting up the records of the Division of Employment and Housing.

Our principal problem has been the tendency on the part of youths in the 18-22 age group to request frequent shifts in assignment. There has been a marked decrease in transfer requests in the past week.

VI. GENERAL COMMENT: (Give a brief report on any unusual and significant problems or incidents which have arisen in the fields of employment, placement, labor relations, work incentives, working conditions, accident prevention, etc.)

The major activity this month has been the taking of applications for leave on a wholesale basis. There have been no internal employment problems other than the complaint over the wage classification schedule that has existed from the beginning, i.e., the complaint against lack of differentiation between unskilled and skilled workers.

Outside employment has been very favorable this month and indefinite leaves have materially affected the supply of skilled employment within the center.

With reference to the estimated<sup>ur</sup> employed for the sixth month, it is believed that a ~~substantial~~ substantial portion of these will have left the center within a few months.

VI. GENERAL COMMENT: (Give a brief report on any unusual and significant problems or incidents which have arisen in the fields of employment, placement, labor relations, work incentives, working conditions, accident prevention, etc.)

Departures on indefinite leave have continued at a steady average of sixty or more each week. With a dearth of offers for wage earners with families, it is probable that the number of indefinite leaves will decline in June unless offers for family men begin to come in from the Relocation Offices.

The relocation program so far has resulted in a shortage of persons qualified to fill professional, sub-professional and skilled jobs on the project.

The persons listed as unemployed are, in the main, housewives who can be used primarily in unskilled jobs near their homes. Some of these women have been placed in farm work this month.

VI. GENERAL COMMENT: (Give a brief report on any unusual and significant problems or incidents which have arisen in the fields of employment, placement, labor relations, work incentives, working conditions, accident prevention, etc.)

It is becoming increasingly difficult to fill project requisitions for skilled and professional positions. Greater emphasis is being placed on in-service training and vocational re-training.

Relocation has slackened materially. The housing problem and the family situation are the deterrent factors. It is interesting to note that over 60 of those who did not answer Question 28 on Forms 126-Rev. or 304-A affirmatively are anxious to relocate.
