FINAL REPORT
STATISTICS SECTION

With the establishment of Utah Center Sept. 11, 1942, Project Director Charles F. Ernst quickly sensed the need for a Central Statistics Section to care for the daily population report and other statistical data required by the Washington office of the WRA. A Statistics Section was accordingly organized Sept. 21, 1942. Under Project Director Ernst's stimulus Miss Chiyoko Yoshii took the initiative in setting up an embryo organization in which she and three other resident personnel processed all daily records pertinent to evacuee population, its ingress and egress, and furnished this information daily to center officials and the Washington office. In this they enjoyed considerable latitude of judgment and exercise of initiative in establishing procedures and techniques for collecting, analyzing, and interpreting quantitative data pertaining to center operations and evacuee population. With the publication of the official Statistics Handbook in March 1943 the Statistical work was coordinated to meet requirements as outlined in the Handbook.

Master card files 5" X 8" set up by Miss Yoshii, in Sept. 1942 of evacuee residents were established to make analyses of resident population. These analyses were used to supply pertinent data for use in center operations and also for controlled data in making up daily population reports for Washington. These card files were for the purpose of identification of center residents but in addition contained information on leave status, registration answers, repatriation, alien registration number, address prior to evacuation, age, sex, marital status, citizenship, center address, family composition, date of entry into Central Utah and complete control of family and identification numbers assigned.

An individual record file card 3" X 5" was established in November 1942 and this file was correlated to other center files such as internal security and welfare.

Daily Evacuee Population was originally under the Employment Division - (Housing Section) and reports were received in the Statistics Section from the Housing Section. However, from Sept. 11, 1942, Daily Population reports were computed and submitted by the Statistics Section to the WRA Washington office. On February 1, 1943 the leave section was authorized by Assistant Project Director, James F. Hughes to handle the Daily Population on the WRA 176. Effective April 28, 1943, the Daily Population reporting system was again transferred back to the Statistics Section by Project Director Charles F. Ernst.

In October and November, 1942, a survey of all residents was taken on form WRA 26 (Individual Record). This survey was under the personal supervision of Mrs. Fern E. French of the WRA Washington office. The camp-wide mass survey was implemented as follows:

Interviewers—Approximately 50

Typists—All night workers approximately 50

Coders—under the supervision of the Employment division, approximately 25.

Difficulty in securing the needed typists slowed up the work. Also it was often difficult to secure complete information. On Nov. 15, special groups organized to handle the survey was unexpectedly dissolved after having completed approximately 75% of the assignment. The residue was taken over by Statistics and completed in December, 1942 through the use of a special crew of 20 high school typists who, because of the continued shortage in typewriters, worked outside of regular hours.

As a result of this survey new card indexes were established to tabulate and analyze evacuee statistical data covering such items as sex, age, marital status, citizenship, educational background, kibel group of evacuees etc. With the completion of the WRA 26 survey the official Topaz seal was made by Statistics. The survey included all evacuees assigned from Santa Anita and Tanforan and the seal reflected a most interesting age and sex distribution as indicated in the accompanying graph.

In February, 1943, registration of all residents 17 years of age and older was undertaken. At this time the Statistics Section was required to type an original and 5 copies of WRA 26 for all persons to be registered and submit by blocks the names of all persons required to register. Actual registration was handled by the Leave Office which tabulated and recorded the answers and later turned these over to the Statistics Section, but since the recordings were rather incomplete considerable checking against Leave Office records and the Washington WRA office followed.

Due to inadequate leave reports and gate controls complete recapitulation of evacuee population was submitted by the Statistics Section as of May 22, 1943. The Leave Section made constant use of the data supplied to revise their figures.

From July 21 to Sept. 29, 1943, Statistics assumed responsibility for the complete statistical report, analyses, and train lists of segregees to Tule Lake.

With the increasing emphasis on relocation a survey of Relocation prospects was begun January 2, 1944 by the Welfare Section. For the survey this Section was designated to submit to the Welfare Section the names and addresses of all families to be contacted by the Leave Section and to this end card files were established. However, the analyses of the data became the responsibility of the Welfare Section. Later under instructions from the Washington office regarding the summary of relocation interviews, the Statistics Section was again made responsible for submission of names of Relocation Prospects.

Although an appointive Statistician at a grade P-3 was authorized for each relocation center as of May 1943 it was not until July 1944, that this position was filled at Utah Center. Miss Chiyoko Yoshii served as head of the Statistics Section from Sept. 1942 to July 1944; during the next six months Miss Yoshii worked with the Appointive Statistician, Grant R. Bowen. She resigned in December 1944 when she went to Washington D. C. to work in the Statistics Section there.

The Statistics Section became responsible for gate control June 26, 1944. The procedure was outlined under Manual Release No. 67. Office letters No. 42 and 43, written by Gilbert L. Niesse, Asst. Project Director, Adm. Management Division with the assistance of Miss Eudora Reed, Gate Clerk, covered local requirements. Gate Control was initiated through the use of female clerks. The chief difficulty was the tendency of all parties (Military Police and Internal Security) to slide over their functions and let the gate clerk do the entire job. This was due to the location of the gatehouse immediately to the rear of the M. P. house and Internal Security house set off to one side.

The second quarterly Census for June 30, 1944 was taken by the Block Managers. The same procedure for taking the census as that for taking the regular Monday night count was used. The records were loaned to the Statistics Section for purposes of harmonizing population records and tabulating information on age and marital status.

July 5, 1944 the Project received by transfer its first appointed Statistician. He came from the Clearfield Naval Supply Depot. The first job for him was smoothing out the operation of the gate. A new gatehouse layout was designed by him and procedure for its operation developed using all forces designated for gate control. Office letters No. 46 and 47 covered the procedure.

June 26, 1944 the Washington office called for a list of all Japanese Nationals and asked for a monthly report thereafter of changes in Center residence. The inquiry included information on "Next of Kin" residing in Japan. The Block Managers undertook the query survey, when better than 80% of the nationals filled in their forms.

The section was handicapped in its operation because of the system that was employed in sorting information. Each count was a long process of turning cards noting the count and summing up the results to form an array or frequency table. Steps were taken to set up a more modern system through the use of E-Z sort cards. The card, a copy of which is attached with code, was designed, drafted and multigraphed by the Statistician. Blank patented cards were purchased together with sorting needles and punches. The section was starting the typing of cards preparatory to coding and punching when the exclusion order was lifted by W. D. C. The urgency of that work side-tracked the setting up of the card system.

Sufficient help to operate the section did not become available until the latter part of November 1944. The Project adopted a priority method for assignment of personnel. Two classes were used (1) Essential and (2) Desirable. When the Statistical Laboratory of the Washington Office closed Nov. 26, 1944 six members of the evacuee staff was assigned to the section. The assignment almost filled the section to meet its essential requirements. The strength of the section was increased from 8 to 26 employees between July 1944 and July 1945. A section chart is attached.

September 30, 1944 the third Quarterly Census was made using the system outlined by the Statistician. This consisted of an actual count of evacuees on the job, count of individual movements at the gate after the hour of census taking, evacuees in the hospital, farm quarters and those in barracks. The check was made on Census Form WRA-cu-156. The filled out form remained as a record for reference purposes in the section. It was possible to tabulate directly from the census form after filling in age and marital status. A check of block totals against the daily population WRA 176

rev. and Block card file which was balanced weekly with WRA 176 rev. acted as a control for accuracy of count and adjustment of discrepancies. This system worked so well that it was used for Quarterly Census work afterwards.

October 1944 the section received advice to increase its staff so as to absorb the work connected with compiling the Dec. 31, 1944 Roster and accounting. The section assigned Mrs. Kodama, Asst. Statistician to the work with plans for adding five more employees. Mrs. Kodama relocated shortly afterwards and we were unable to secure replacement or additions before Nov. 26, 1944. Mrs. Yano (the former Miss Yoshii) did some work on the roster along with her other duties. Soon after receiving additional personnel Mrs. Yano relocated to Washington (Dec. 14, 1944). The evacuee supervision fell upon Miss Tomi Hino. It developed that Miss Hino was an excellent supervisor. She was well acquainted with the work of the section since she was one of the three original employees. Work on the roster progressed rapidly thereafter. By January 15, 1945 typing began and February 20th it was completed. A copy of the balance sheet summarizing the name by name accounting is attached.

December 17, 1944 the exclusion order was lifted. The section was assigned the work of assembling files for military inspection, maintaining records on excludee status, summoning individuals for interview and finally keeping current a record of changes to the MAU list published by W. D. C. April 12, 1945. The work was a terrific strain on the personnel of the section. It fell at the same time that the Dec. 31, 1944 roster was being prepared. Military Personnel required prompt service and the affected evacuees "milled" through the process were continually making inquiry on their status. The announcement of changes to the MAU list covering all centers in a single publication without segregation by center required the service of two evacuee clerks to separate information pertaining to center residents. There were a little more than 2000 errors in the list covering evacuees belonging to this center alone. A copy of the control list of excludees and segregees as it stood when all restrictions were lifted by W. D. C. Sept. 4, 1945 is attached.

Preparatory to the visit of the Spanish Delegate and Representative of the Department of State in August 1944 and February 1945 the section assembled the information and prepared the 16 page legal size report for the Spanish Delegate. The report covered all center activities that affected the welfare of Japanese subjects as well as population statistics.

The section performed innumerable special services to Division and Section heads and residents in the form of graphs, tables, addresses of center residents and relocatees verification of age and sex and marital status, residential status of individuals and visitors entering and leaving the center. Samples are attached.

Reports were prepared for the Project Director on repatriation, parolees, excludees and segregees. A study on occupation, religion and education divided into relocatees and residents was made for the Issei population of 3356 evacuees. These reports were in addition to the regular ones required for the daily population control and monthly reports on Vital Statistics outlined in the Manual and Handbooks.

In March 1945 steps were taken to consolidate all files of individual and family records. (Office letter No. 48 is attached). A system was outlined and in April the files were transferred to a central location near the Relocation offices. The assembly of all the files under a single jacket was attempted - working on families who had completely relocated. Later the Washington Office came out with a system somewhat the same. Much work had been accomplished toward record assembly prior to the Washington release. The purpose of the central file was to serve the relocation officers with a center history of all relocatees. Files were moved from Relocation, Leave, Welfare and Statistics to form the Central File. A Statistical appointed clerk took charge of the work. She was assisted at first by 6 evacuee clerks which were later replaced by three appointive staff assignments.

The section published a weekly Block Census report showing Block strength, number on leave, number in hospital, and number of visitors, together with totals. The report was a by-product in the maintenance of the block census account used in checking the Quarterly Census. The weekly census became the basis for closing dining halls. When the block population fell below 125 the dining hall was subject to closure. A Sample copy is attached.

The evacuee personnel performed the bulk of the clerical work of the section until the month of June 1945. From that time on relocation became so rapid that it became necessary to make replacements with appointive staff. The section has been very fortunate in securing the services and interest of all its members. The evacuees maintained a high degree of morale. This has carried over to the appointive staff so that during the transition period there has been a mutual understanding and feeling of good will.

Much of the work connected with population control was shifted to the Gate Clerks. The clerks were furnished with a copy of the Dec. 31, 1944 roster. All advices were typed by the clerks after the middle of July 1945. The Gate Slips (Form 339) were checked against the roster before the advice was typed. Beginning the first part of September the Gate Clerks began to assist in the preparation of the Daily transmittal sheet (Form 176 a rev.). This relieved the Chief Statistical Clerk of much work so that posting of data to the master relocater card and preparation of the daily summary of population (Form 176 rev.) could be kept on a current basis.

The Statistician, Grant R. Bowen, resigned to accept a permanent position with the Salt Lake Country Club Sept. 15, 1945 after the death of his wife Aug. 24, 1945. His work was assumed by the asst. Statistician, Mr. Clarence Ostlund.

Mr. Ostlund resigned on September 29 and Mr. David E. Davis was assigned as Acting Statistician until the work of the section was completed.

On October 31, 1945, the center was officially closed and the last evacuee residents were relocated. The Statistics Section had 14 persons unaccounted for on this date; these cases were traced and reconciled.

After October 31, the efforts of the section were directed toward the completion of the final closing roster as prescribed in Handbook Release 199, and in the collection and disposition of records for transmittal to Washington in accordance with Manual Release 194 and revisions and additions thereto.

The work of the Section was completed and the necessary reports transmitted to Washington as of *January 23, 1946.*

ADJUSTMENTS MADE ON REVISED BALANCE SHEET SUMMARIZING
DECEMBER 31, 1944 NAME BY NAME ACCOUNTING

ADMISSIONS:

1. Direct Evacuation.

226 persons who were directly evacuated from Hawaii to this center are now placed in this category. They were previously counted under "Other".

2. Voluntary Evacuation.

2 persons who came from Hawaii on a voluntary basis to join their families in this center have been added to this category. They had been counted under "Other" in the first report.

3. Assembly Centers.

2 persons (Morita, Fred Osamu and Ota, Hide) were previously counted in this category but are now removed to be placed in "Institutions" since both had arrived from institutions and not on regularly scheduled train trips from Assembly centers.

6 persons who were inducted into this center via leaves from Assembly Centers are now being taken out of this category and placed in "Released from Assembly Centers".

4. Released from Assembly Centers.

No change is made in "The Seasonal releases from Assembly Centers" but a new category under "Other Releases from Assembly Centers" is added. The 6 persons are those who were released from Assembly Centers on leaves other than Seasonals and were subsequently inducted into this center.

5. Transfers from Other Centers.

Births

Parolees

No changes in the above categories.

6. DETENTIONS

This is a new category of person who were in detention previous to being inducted into this center and were formerly placed in "Others".

7. Institutions.

2 persons (Morita, Fred Osamu and Ota, Hide) who were previously counted in "Assembly Centers" are now added to this category since both had arrived from institutions. 1 person who was previously in the "Other" category is added here since he had arrived from a penal institution.

8. Other

The entire number of 241 persons were taken out and placed in other categories in the following breakdown, thus leaving a balance of None:

| | | |
|-------|-----------|------------------------|
| 226 | placed in | Direct Evacuation |
| 2 | " | " Voluntary Evacuation |
| 12 | " | " Detention |
| 1 | " | " Institution |
| <hr/> | | |
| 241 | Total | |

9. Assignment.

As per your letter of March 22, 1945, seasonal assignment of Nakata, Fred to this center was cancelled, decreasing the total number of "Seasonal assignment from Assembly Center".

10. Total Admission is decreased by the count of one due to the cancellation of a seasonal assignment.

DEPARTURES.

1. The only change made is in the "Assignment Indefinite" category where one decrease is made due to the cancellation of a seasonal assignment from an Assembly Center (Nakata, Fred). Conversion to Indefinite Leave had been issued for this person previous to your letter of March 22, 1945.
2. Total Departure is decreased by the count of one due to the cancellation of an assignment from an Assembly Center.

June 27, 1944

OFFICE LETTER NO. 43

SUBJECT: Entrance Into and Departure from Center by Residents on Leave
and by Persons Visiting Residents

1. Purpose

WRA Administrative Manual, Sections 50.1.12 to 50.1.25 prescribe the procedures governing the entrance of visitors and new residents into the Center and the departure of visitors and residents leaving the Center on indefinite, seasonal, and short term leaves. In conformity with the Manual sections, the following procedures will be effective on and after June 27, 1944.

2. Definition of Visitors and Residents for Purposes of Entrance and Departure

Residents: Persons returning from short term leave; persons returning from seasonal or indefinite leave trial-period upon the expiration of such leave; persons on seasonal leave whose leave permits have not expired but who are in possession of written cancellation of leave by a Relocation Officer; persons returning from indefinite leave in possession of a Residence Permit issued by the Center, or for whom a Residence Permit is on file at the Gate House; transfers from other Centers who are in possession of a Residence Permit, or for whom such a permit is on file at the Gate House.

Visitors: Persons on indefinite leave; persons from other Centers unless in possession of a Residence Permit; persons on seasonal leave whose leave has not expired or been terminated by a Relocation Officer; applicants for reinduction from indefinite leave who are not in possession of a Residence Permit; members of the Armed Forces; new residents; representatives of church, social, business, and other organizations and friends and relatives of residents.

3. Entrance to the Center

- A. Residents will surrender their leave permits, ration books, reinduction permits to the Gate Clerk who will forward such documents to the Leave Office, Welfare Section, or Statistics Section whichever is proper. WRA-338, Incoming Gate Slip, will be prepared in the original only, dated and time stamped, and forwarded to the Statistical Section.
- B. All visitors, except visitors from other Centers and certain authorized visitors, will be required to pay in advance for meals and lodging. Based upon the estimated length of the visit, a charge of 20¢ per meal and 20¢ per night will be made. If housing is furnished in the apartments of friends and relatives, no charge for housing will be made. (See Office Letter No. 35.)
- C. An Incoming Gate Slip, WRA-338, authorizing entrance into the Center will be prepared by the Gate Clerk for each visitor entering the Center. The original will be retained at the Gate House in a tickler file until the visitor departs. A copy will be given to the visitor as a receipt for advance payment of meal and lodging charges.
- D. Visitors on leave status from this or other Centers will surrender their leave permits and ration books to the Gate Clerk who will retain them until the departure of the visitor.
- E. Visitors desiring to apply for reinduction from indefinite leave or reinstatement from seasonal leave will be directed to the Leave Office. Visitors from other Centers requesting transfer will be directed to the Welfare Section. In each case, they will remain as visitors until such applications are approved.
- F. Residents desiring to secure passes for expected visitors should notify the Gate Clerk who will prepare and hold the Incoming Gate Slip, WRA-338, pending the visitor's arrival. Unexpected visitors will not be admitted until the persons they desire to visit have been notified (by Carrier Service, Internal Security, or other expeditious means) and approval obtained for their visit.
- G. To extend the period of a visit, a visitor from another Center will apply to the Welfare Section. An authorized visitor from seasonal leave will apply for extension at the Leave Office. If extension is granted, visitor will report to Gate House and make additional payment of subsistence and housing charges.

- H. A commercial visitor will be issued a pass, WRA-38, by the Internal Security Section upon verbal or written clearance from the office or persons he desires to contact.

Semi-permanent passes of a restricted nature may be obtained from the Internal Security Section for individuals making regular calls or deliveries to the Center.

- I. Automobiles of visitors must be parked outside the gate unless special permission to bring them into the Center is obtained from the Internal Security Section. All vehicles entering the Center are subject to inspection by the Military Police and/or Internal Security. Carrier Service is available to destinations within the Center for persons leaving their automobiles outside the Gate. (See Office Letter No. 36.)

4. Departure from Center

- A. Visitors leaving the Center will present to the Gate Clerk their copy of the Incoming Gate Slip, WRA-338, which was issued them when first entering the Center. Final settlement of charges for meals and lodging will be made. WRA-339, Outgoing Gate Slip, will be issued, time stamped, and forwarded with the receipted WRA-338 to Statistics so that the conclusion of the visit can be recorded.
- B. Residents leaving the Center on short term, seasonal, indefinite, or trial leave will be issued WRA-339 by the Leave Office when project clearance for such leave have been completed. Upon departure, the resident will present to the Gate Clerk this WRA-339 and receive in exchange an envelope containing his leave permit and other necessary documents. A tickler file of WRA-339's will be maintained for short term, seasonal, and trial leaves so that the status of a person returning from such leave may be immediately determined. No tickler file will be maintained for indefinite leaves.

A person departing on indefinite leave will surrender his Center Identification Card to the Gate Clerk.

- C. Transfers to other Centers (Crystal City, etc.) will be handled by the Welfare Section. This section will issue WRA-339 to each person departing on transfer. The form will be presented to the Gate Clerk upon departure.

Orders
Royal Commission
Out 15th
5:00 PM

Departures in custody of Government officials will be issued
WRA-339 by the Leave Office upon request from Internal Security.

Topaz, Utah

October 12, 1944

OFFICE LETTER NO. 46

SUBJECT: Authority for Entering and Leaving the Center

The following is a summary of present project regulations which govern the leaving and entering the Central Utah Relocation Center.

The Project Director is charged with the responsibility "for determining those persons, both evacuee and non-evacuee, who are authorized to enter or leave the center, other than those granted such authority by the Director." Adm. Instruction No. 50.1.12A.

The Military Police are charged with the duty of allowing "no persons to pass the center gates without proper authority from the Project Director." Adm. Instruction No. 50.1.12B.

A. The Project Director will provide proper authority for entering and leaving the center as follows:

1. Members of the Appointive Staff and their families, and regular visitors (individuals whose relations with the center require numerous visits during a monthly period) by means of passes bearing the signature of the Project Director.
2. Casual visitors, by means of passes signed by an Appointive member of the Internal Security staff on duty at the No. 1 Gate.
3. Evacuee workers traveling within the project boundaries, by means of monthly work passes signed by the Chief of Internal Security. These will clear through Gate No. 11 on week days between the hours of 8:00 A.M. and 7:00 P.M. On Sundays all such passes are cleared through Gate No. 1.
4. Evacuee workers, traveling outside the project boundaries, off-project shoppers, hikers, and/or those on officially approved recreational activities, by means of a Blue Badge. Off-project workers shall exchange their monthly work pass for a Blue Badge at the main Gate House when leaving Project. This work pass will be signed by the Chief of Internal Security.
Office Letter No. 43.

5. Evacuees on project hikes, and/or other recreational activities, by means of a Red Badge. Red Badges may be obtained at the Main Gate House by presentation of I.D. cards; after community activity lists prepared by Block or other committees have been approved by Internal Security at least one day prior to leaving the center. Office Letter No. 42 & 43.
6. Evacuees going out on leave or returning from leave, by means of leave papers and inclusion on a carrier list (when leaving) which has been prepared by the Gate Clerk for outgoing passengers.
7. Evacuee visitors by means of an Incoming Gate Slip (Form 338) prepared and stamped by the Gate Clerk.

B. No individual is authorized to enter or leave the Center until he or she complies with the following instructions:

1. When coming into the Center, if in a car, come to a complete stop and display proper credentials at the gate to the Military Police. Evacuees and Casual Visitors will stop at the Gatehouse for clearance with the Gate Clerks (Statistics or Internal Security) before proceeding into the Center. The clearance will consist of securing: (1) an Incoming Gate Slip (Form 338) if an Evacuee visitor; (2) securing a temporary pass from Internal Security if a casual visitor (Caucasian or Japanese); or (3) checking in a badge, terminated leave paper, or work pass if a resident. After the Gatehouse is closed, sufficient evidence will be presented to the Military Police so as to assure them that clearance will be made the first order of business the following morning. This will consist of surrendering leave and/or identification papers and indicating Center address (Block, barrack & apartment). The Gate Clerk will check each morning with the Military Police for these bits of evidence.
2. When going out of Center, make proper clearance with the Gate Clerk (vehicles carrying evacuees will first stop opposite the Main Gate House). This includes the securing of badges, leave papers, settling of accounts by evacuee visitors, and other pertinent information as required by the Project Director. After clearance with Gate Clerk, vehicles will stop at painted line opposite Military Police and display or surrender credentials.
3. No evacuee or casual visitor may drive a privately owned vehicle into the center without permission from Internal Security and under their escort. No escort required for Caucasian visitors.

4. Visitors without proper pass, identification card or other WRA credentials will be referred by the Military Police to Internal Security Gate House for proper pass. Internal Security in turn will make check with person whom visitor wishes to see for confirmation as to such visit.

5. Only those not having passes, badges, leave papers, or other proper credentials as outlined above, will stop at Internal Security Gate House so as to secure proper credentials for entering or leaving the center. All persons with or without passes will stop at sign marked "STOP MILITARY POLICE".

Project Director

WAR RELOCATION AUTHORITY
Central Utah Project
Topaz, Utah

January 3, 1945

OFFICE LETTER NO. 47

SUBJECT: Gate Control

General

Effective January 4, 1945, all traffic entering or leaving the Center will use Gate No. 1, except for occasions when group activities warrant the opening of one of the minor gates by special arrangement.

The personnel and equipment from the Office of the Chief of Internal Security, Internal Security Gate House and Statistical Gate House will move to the newly constructed Gate House in preparation for the carrying out of this instruction. Personnel engaged in gate control procedure will occupy space behind the counters. The Gate Clerks will occupy the west portion of the building, and Internal Security Personnel will occupy the east portion. The Chief of Internal Security will occupy the office space on the east end of the building.

Gate control responsibilities will be divided as follows:

Military Police

A. The Military Police is charged with the responsibility of allowing "no persons to pass the center gates without proper authority from the Project Director". (Adm. Manual 50.1.12B)

Internal Security

B. Internal Security is charged with collaborating with the Military Police to insure that no person, evacuee or non-evacuee, enters or leaves the center without presenting properly executed credentials. (Adm. Manual 50.1.12C)

Gate Clerks

C. The Gate Clerk is charged with the clearing of forms "for the entrance or exit of an evacuee from the center".

(Adm. Manual 50.1.13B) In addition he is charged with the collection of subsistence fees from evacuees.

Procedure for Entering and Leaving the Center

D. The procedure for entering and leaving the center is revised according to the following instructions so as to make use of all gate control personnel housed in the new structure. Wherever there is a conflict with previous instructions on gate control, the following outline will govern:

Off-Project Travel

1. Off-project workers, block shoppers going to Delta, hikers and/or other residents leaving project area for a period less than 24 hours will secure a blue badge from the Gate Clerk prior to leaving the center. The individual securing the badge will return the same in person upon return. The badge will be obtained as outlined in previous instructions. (Office Letter #42 & #43) Evacuees wearing blue badges are authorized to leave the center for off-project purposes as outlined in their pass request.

Within Project Boundary Recreation Travel

2. Hikers and other individuals leaving the center area on recreational activities but still within the outer project boundaries shall secure a red badge. The same individual securing the badge is responsible for returning it in person. The badge will be obtained as outlined in previous instructions. Evacuees on recreational activities may leave the center for movement within the project boundaries when wearing a red badge.

On-Project Workers

3. On-project workers who are authorized to work outside the center area but within the project boundaries shall secure a white badge for a period limited to number of the days remaining within the particular calendar month. This badge will be secured from the Gate Clerk by the worker surrendering his (her) monthly pass. All Section Heads should request worker passes in sufficient time before the close of the month to allow the gate personnel to check the outstanding badges against work pass requests. All badges not covered by a pass request for the next succeeding month will be collected by the Internal Security forces not later than the last day of the expiring month; the

Gate Clerk will inform the Internal Security Officer of the badge number, name and address of the individual to whom issued and the employing Section. Any individual worker wearing a white badge has authority to leave and enter the center for work within the Project Boundaries.

Outgoing Passengers on Carrier

4. Outgoing passengers on Public or Government carriers will check through the checking shelter on the west side of the new Gate House. The checking will be performed by the Internal Security forces to insure previous clearance by the Gate Clerks. The resident will show a Blue Badge, or surrender a Blue Gate Pass to the Gate Checker. The Blue Gate Pass together with other necessary papers will be supplied residents who are leaving the project. Outgoing evacuee visitors will surrender their Incoming Gate Slip (Form WRA-338) to the Gate Clerk in exchange for the Blue Gate Pass. Casual Visitors will surrender their Visitor's Pass for a Blue Gate Pass. The Gate Checker will secure Military Police approval prior to the release of the carrier. The surrendered Blue Gate Slips will be turned over to the Gate Clerk by the Gate Checker.

Outgoing Individuals by Private Car

5. Residents leaving the center by private car will clear their credentials with the Gate Clerk. Individuals planning to return who have received Blue Badges are authorized to pass through the gate. Individuals not eligible for badges but who are authorized to leave the center will be supplied with a Blue Gate Pass. The Blue Gate Pass will be surrendered to the Military Police at the gate when the resident leaves the center. The surrendered Gate Passes will be returned to the Gate Clerk by the Military Police.

Outgoing Evacuees Terminating Residence Without Financial Assistance

6. Outgoing evacuees who are discontinuing their residence at the center and who are not relocating with the financial assistance of WRA will secure project clearance on Form WRA-cu-162-rev. (Relocation Check-Out Card). The procedure for project clearance will start with the Leave Officer who will check the Restriction Lists for determination of eligibility for relocation. Property, Finance, Block Manager and Section Heads will then be contacted for necessary

clearance and signatures on the Check-Out Card obtained.

The signed Relocation Check-Out Card will be presented to the Chief of Internal Security for approval. The Check-Out Card will be given to the Gate Clerk from which an Outgoing Gate Slip (Form WRA-339) will be prepared. This form will be stamped out and forwarded to Statistics as authority for issuing a departure advice. The Gate Clerk will issue a Blue Gate Pass to the terminating resident. The Blue Gate Pass will be authority to pass out the gate. It will be surrendered to the Military Police. The Military Police will return the Blue Gate Slip to the Gate Clerk. The Check-Out Card will be forwarded to the Finance Section; then to the Leave Officer who will use it as a tickler for forwarding the Leave File of the individual to the Statistics Section.

Incoming Evacuee Passengers by Carrier

7. Incoming evacuee passengers from Public or Government carriers will leave the conveyance at the Gate House and exchange their Blue Badges for a Blue Gate Pass. If a visitor, they will be counted into the center by the Gate Clerk and supplied a Blue Gate Pass with their receipted copy of Form WRA-338 (Incoming Gate Slip). Evacuees returning from leave will surrender their leave papers and receive a Blue Gate Pass. Transferees, parolees, or Caucasian or evacuee temporary visitors will be checked by Internal Security forces and receive a casual visitor's pass together with a Blue Gate Pass from the Gate Clerk. The Blue Gate Pass will be surrendered to the Military Police.

Incoming Evacuees by Private Car

8. Incoming evacuees by private conveyance will clear their forms through the Gate Clerk who will issue a Blue Gate Pass and the necessary papers. The Blue Gate Pass will be surrendered to the Military Police when the evacuee enters the gate.

Appointive Staff

E. It is the duty of all members of the appointive staff to assist in the operation of these instructions. Residents who appear to be using badges for unauthorized purposes shall be requested to show the badge and if the use is determined to be unauthorized the case will be reported to the Chief of Internal Security for appropriate action.

The appointive staff will pass in and out of the center by means of their I.D. Card bearing the signature of the Project Director.

OFFICE LETTER NO. 48

SUBJECT: Central Individual Reference File

1. A central reference file of individual and family records is now established as a part of the functions of the Statistics Section. (Manual 20.8.51)
2. Sections maintaining individual and family records will transfer their files as soon as practical to the Statistics Section, with the following exceptions:
 - a. Individual Records of a recurring nature in which new entries are made on preciously opened forms.
 - b. Records of a confidential nature when the processing Section determines the advisability of holding the file until the confidential circumstances subside.
3. New individual and family records will be routed to the Statistics Section as soon as the record is completed and ready for filing.
4. Correspondence pertaining to evacuee individuals or families will be forwarded to the Statistics Section for filing.
5. Individual and family records that are retained by the processing Section under 2-a. and b. above will be inventoried on the attached file jacket (copies can be secured from the Statistics Section). The file jacket of such inventories will be forwarded to the Statistics Section who will note the existence of the records and include a charge-out slip to the Section retaining the files for the records so retained.
6. New individual and family records which are retained by the processing Section will be covered by a charge-out slip which will be forwarded to the Statistics Section by the processing Section retaining file.

7. Files are to be forwarded to the Statistics Section according to the following plan:
The processing Section will notify the Statistics Section of the number of file cases that are to be forwarded. The Statistics Section will determine the date when the files can be received.
8. Sections may use the central reference file as a library on individual and family records by requesting and receipting for the particular file they desire.

E-Z SORT SYSTEMS WASH. D.C. - S.F. CALIF.
U.S. PAT. 2,198,127 - A.A. REMBOLD & CO. S.F. CALIF.

CENTRAL UTAH RELOCATION CENTER

WRA-CU 177

APP'D. *G. F. Hines*
DESIGNED BY G.R. BOWEN

TO ALPHABETIZE CODED LETTER ON E-Z SORT CARD

In order to put the first letter of the last names of persons in the E-Z Sort Card File in alphabetical order, follow the instructions outlined below. This assumes the code given under "NAME" on the Code-Sheet has been used to punch the letters. The resulting groups after each sort are listed below.

Sort on 1, put cards on needle in front of remaining cards.

B D F G I K M O Q S T V X Z
A C E H J L N P R U W Y

Sort on 2, put cards on needle in front of remaining cards.

D G K M Q T X
A E H L N R U Y
B F I O S V Z
C J P W

Sort on 4, put cards on needle in front of remaining cards.

G M T
A H N U
B I O V
C J P W
D K Q X
E L R Y
F S Z

Sort on 7, put cards on needle in front of remaining cards.

M
A N
B O
C P
D Q
E R
F S
G T
H U
I V
J W
K X
L Y
Z

Sort on M, put cards on needle in front of remaining cards.

A B C D E F G H I J K L M N O P Q R S T U V W X Y Z

If the cards are sorted on the X hole before this process is begun, then each letter will be divided into two parts alphabetically.

E - Z SORT CARD CODE

| | | | |
|-----------------|-----------|-----------|-------------|
| ALPHABET - Code | 1 = A | 4,2 = F | 7,4 = K |
| | 2 = B | 7 = G | 7,4,1 = L |
| | 2,1 = C | 7,1 = H | 7,4,2 = Mc |
| | 4 = D | 7,2 = I | |
| | 4,1 = E | 7,2,1 = J | |
| | M = M | M,4,1 = R | M,7,2,1 = W |
| | M,1 = N | M,4,2 = S | M,7,4 = X |
| | M,2 = O | M,7 = T | M,7,4,1 = Y |
| | M,2,1 = P | M,7,1 = U | M,7,4,2 = Z |
| | M,4 = Q | M,7,2 = V | |

- NAME:
1. 4th letter of last name for 5 or more letter names.
 2. Next to last letter of last name.
 3. 1st letter of first name.
 4. Punch "Dup" when there is a duplication of letters.

Special Cases:

1. 2nd letter of last name for 2 letter names.
2. 3rd letter of last name for 3 or 4 letter names.

ALPHA CONTROL:

1. If 2nd letter of last name falls within M to Z of the alphabet, punch the X hole.
2. Punch 1st letter of last name.

CITIZENSHIP: C - Citizen (Nisei)
 K - " (Kibei)
 A - Alien

SEX: M - Male (Head of family).
 Unpunched cards are female.

YEAR BIRTH: Code of Digits

| | | |
|---------|---------|---------|
| 1 = 1,V | 5 = 4,1 | 9 = 7,2 |
| 2 = 2,V | 6 = 4,2 | 0 = 4,7 |
| 3 = 1,2 | 7 = 7,V | |
| 4 = 4,V | 8 = 7,1 | |

Punch Code of Digits for Units and Tens Column.

Example: (7,2) - (7,1) = 98 = 1898
 (Tens) (Units)
 (4,V) - (2,V) = 42 = 1942
 (Tens) (Units)
 98 = 1898
 42 = 1942

LEAVE: I = Indefinite Leave
 T = " " (Trial Period)
 S = Seasonal Leave

DEPENDENTS UNDER 16 = D

MEMBERS IN MILITARY SERVICE = Mi

SEGREGATED MEMBERS = S

| DATE OF ARRIVAL: | <u>Month</u> | <u>Year</u> | |
|------------------|--------------|-------------|------|
| 1. | Jan. = 1,V | 1942 = 2 | |
| 2. | Feb. = 2,V | 1943 = 3 | |
| 3. | Mar. = 1,2 | 1944 = 4 | |
| 4. | April = 4,V | 1945 =) | oth. |
| 5. | May = 4,1 | 1946 =) | |
| 6. | June = 4,2 | | |
| 7. | July = 7,V | | |
| 8. | Aug. = 7,1 | | |
| 9. | Sept. = 7,2 | | |
| 10. | Oct. = 10,V | | |
| 11. | Nov. = 10,1 | | |
| 12. | Dec. = 10,2 | | |

KEY TO INITIAL ENTRY:

| | | |
|----|--|-----|
| 1. | Direct Evacuation | 1,V |
| 2. | Assembly Center | 2,V |
| 3. | Parolee | 2,1 |
| 4. | Release from Institution | 4,V |
| 5. | Voluntary Evacuation | 4,1 |
| 6. | Birth | 4,2 |
| 7. | Transfer from other Center | 7,V |
| 8. | Transfer for Segregation from other Center | 7,1 |

BLOCK ADDRESS: Units = 1,2,4,7,V
 Tens = 1,2,3,4

FAMILY SIZE: (Includes Parents & Absent Children)

| | | | |
|---------|---------|---------|-----------|
| 1 = 1,V | 4 = 4,V | 7 = 7,V | 10 = 10,V |
| 2 = 2,V | 5 = 4,1 | 8 = 7,1 | 11 = 10,1 |
| 3 = 1,2 | 6 = 4,2 | 9 = 7,2 | 12 = 10,2 |

URBAN - RURAL FAMILY:

- U = Urban occupation and residence
- UR = Urban occupation and Rural Residence
- R = Rural occupation and residence
- RU = Rural occupation and Urban Residence

URBAN - RURAL OCCUPATIONS

A. Urban:

1. Clerical
2. Professional & Kindred Occupations
3. Industrial
4. Transportation
5. Domestic
6. Mining
7. Education
8. Governmental Services
9. Personal Services
10. Real Estate Operators & Promoters
11. Wholesale & Retail Trades
12. Amusement & Recreation

B. Rural:

1. Agriculture
2. Agricultural & Horticultural Services

URBAN - RURAL RESIDENCE

C. Urban:

1. With Street address in cities 2500 or more.
2. With P.O. Box address in city 2500 or more with urban occupations.

D. Rural:

1. With Route #, R.F.D., address.
2. With P.O. Box Nos. with rural occupation.
3. With Street address in towns less than 2500.
4. P.O. Box Nos. in cities under 2500 with urban occupations.

PROCEDURE FOR HANDLING DEPARTURES
FOR SPECIAL TRAINS AND COACHES

1. Scheduling of Departures for Special Trains

The scheduling of departures for Special Trains will close at least three days prior to the train departure date. The Relocation Division will determine the date when dockets for Special Trains will cease to be written, and notification concerning the docket "deadline" date will be sent to the following:

Gate House
Motor Transport & Maintenance Section (3 copies)
Property Control & Warehousing Unit
Engineering Section
Leave Office (2 copies)
Evacuee Property Section

2. Alphabetical Departure Lists

The Leave Office will prepare an alphabetical departure list for each group departure of residents scheduled for a Special Train. This list will include (1) residents departing on terminal leave, and (2) residents departing on short term leave. The list will be prepared as promptly as possible after the "deadline" date has been determined for writing dockets. Copies of the alphabetical list will be sent to the sections and units indicated under paragraph 1 (one) above.

3. Visitors Departing On Special Trains

Visitors desiring reservations on a Special Train will make their request for reservations at the Gate House. All such requests must be made at least three days before the train departure date. Two days before the train departure date the Gate House will prepare a list of visitors scheduled for departure and forward one copy to each the Motor Transport & Maintenance Section and the Leave Office.

4. Application for Relocation Assistance

Transportation Requests

At the time a resident makes application for a relocation grant at the Leave Office, he will sign the following (in addition to any other forms required):

Application For Relocation Assistance (WRA-303) (Original & 2 copies)
Transportation Request (to be signed in blank) (Standard Form 1030) (Orig.
& 1 copy)

The Application For Relocation Assistance will be prepared in the original and two copies. The Voucher For Public Assistance Grant (WRA-77) will be prepared in original and two copies (from information contained on Form WRA-303).

The following forms will be dispatched by the Leave Office to the Finance Office on the day after the relocation grant is approved by the Leave Office:

Application For Relocation Assistance -- original and one copy.
Voucher For Public Assistance Grant -- original and one copy.
Transportation Request -- original and one copy.
(One copy of each Form WRA-303 and WRA-77 will be retained by the Leave Office).

At the time the resident makes application for his relocation grant he will be advised by the Leave Office that he must go to the Finance Office on the day designated on the "docket" (Relocation Check Out Card, WRA-cu-162) to obtain his cash grant.

The Agent Cashier will complete the preparation of the Transportation Request and will turn it over to a designated employee of the Motor Transport & Maintenance Section who will procure the railroad ticket from the Union Pacific Railroad Station in Delta. The railroad ticket will be retained by the WRA Baggage Checkers until the baggage has been checked; railroad tickets and baggage claim checks will be given to the Gate House and they will be placed in the resident's Relocation Envelope.

5. Relocation Envelope

Relocation Envelopes will be prepared by the Leave Office and will show the following on the face of the envelope:

- (1) Family Name
- (2) Block and apartment numbers
- (3) Family Number

6. The Leave Office will prepare Outgoing Gate Slips (WRA-339) as follows:

- (a) One original for each member of family departing on terminal leave.
- (b) Original and two copies for each member of family departing on short-term leave.

The original of Form WRA-339 will be stapled to the Relocation Envelope. After all papers, such as ration books, change of address card, etc. have been placed in the Envelope, it will not be given to the resident, but will be sent immediately to the Gate House.

7. Purchase of Railroad Tickets by Visitors and Residents Departing on Short Term Leave

All visitors and residents departing on short term leave on Special Trains will be responsible for purchasing their own railroad tickets. No WRA employee will purchase any tickets for visitors and short term leave departures.

8. Pick Up of Checkable Baggage

Two days before the scheduled departure of a Special Train the Motor Transport & Maintenance Section will start the pick up of checkable baggage (baggage which is

to be checked on railroad tickets) for residents departing on terminal leave. Notices will be sent to the Block Managers' Headquarters informing them of the schedule of pick up by blocks. Pick up of baggage will be made in accordance with the "Alphabetical Departure List" prepared by the Leave Office.

Each piece of baggage must have securely attached a shipping tag showing owner's name and city address of destination. If any baggage does not have tags, the truck driver will not pick it up.

If at time of scheduled pick up of checkable baggage at the apartment of a resident departing on terminal leave, the resident advises the truck driver that checkable baggage is not to be picked up, this information will be conveyed immediately to the Leave Office (see attached form of notification). If it is determined by the Leave Office that the resident will not actually leave on the scheduled date, the Leave Office will notify immediately the following so that corrections can be made to the "Alphabetical Departure List":

Gate House
Motor Transport & Maintenance Section
Property Control & Warehousing Unit
Evacuee Property Section

After all checkable baggage belonging to residents departing on terminal leave has been picked up from the apartments, it will be weighed and then transferred from the WRA trucks to Salt Lake-Delta Freight Line trucks and it will then be transported to the Railroad Station at Delta. The U.P.R.R. Co. will attach rail baggage tags to each piece of baggage and will show the name of owner on the claim check. Claim checks will be given to the Gate House and they will be placed in the Relocation Envelopes.

A separate pick up will be made by Motor Transport & Maintenance Section of checkable baggage belonging to visitors and residents departing on short term leave. This baggage will be transferred to Salt Lake-Delta Freight Line trucks and will be transported to the U.P.R.R. Station in Delta. Charges for transportation of baggage belonging to visitors and residents departing on short term leave will not be paid by the WRA; such charges are payable to the Salt Lake-Delta Freight Line.

9. Pick Up of Freight and Express at Apartments

At the time a resident visits the Evacuee Property Office to make arrangements for shipping his freight and express, he will sign an original and two copies of "Request for Transportation of Property", Form WRA-156. The original and one copy of the form will be transmitted on the same day it is signed to the Property Control and Warehousing Unit. Form WRA-cu-205, (revised) "Request To Pick Up Evacuee Property" will be attached in the original and two copies to Form WRA-156 at time of transmittal.

The Evacuee Property Office will advise the resident that all boxes must be marked legibly with owner's name and destination and that boxes should not be numbered, since they will be numbered by the Warehouse.

The Property Control & Warehousing Unit will schedule the pick up of freight and express, and will give to the truck driver two copies of Form WRA-cu-205. At the

time property is picked up at the apartment the truck driver will show on the original and copy of Form WRA-cu-205, the number of boxes received from the resident, will sign his name as to receipt and give one copy to the resident. The original will be returned by the truck driver to the warehouse where a check will be made with Form WRA-156 as to number of pieces of property.

10. Relocation Envelopes

The day before the train departure, the Gate House will remove the Outgoing Gate Slips from the Relocation Envelopes and will sort the Envelopes (which will contain railroad tickets, ration books, etc.) according to each bus pick up schedule. Envelopes will be given to each of the Bus Captains.

11. Pick Up of Residents Departing On Terminal Leave

Buses will be used in picking up residents departing on terminal leave. Buses will be numbered from #2 upwards. (Bus #1 will pick up visitors and residents departing on short term leave). The Gate House will prepare lists showing the names of residents who will be picked up by each bus. A representative of the Relocation Division, who will be known as the Bus Captain, will be in charge of each bus.

Bus Captains, buses, and pick-up trucks will assemble at the main Gate House at 5:00 A.M. for the 4:56 A.M. train and at 12:30 P.M. for the 2:33 P.M. train on the day of the train departure and will depart from that point on their respective pick up schedules. Stops will be made at the dining halls. The check list will be used by the Bus Captain in checking residents on to the bus. As each resident is checked off the list, he will be given his Relocation Envelope. The Bus Captain will collect from each resident his Relocation Check-Out Card (WRA-cu-162, Revised). A resident will not be permitted to board a bus unless he has a Check-Out Card.

After all residents have boarded the bus it will proceed to the main gate and will stop at the north side of the Gate House. Bus Captains will give the Relocation Check Out Cards to the Gate Clerk and will make a final check with the Clerk before the bus departs for Delta.

12. Pick Up of Hand Baggage

A truck will accompany each bus on its scheduled run and will pick up hand baggage at the dining halls. After all baggage has been picked up, the truck will proceed to Delta and will park alongside the bus to which it is assigned. As residents leave the bus at the railroad station platform, they will claim their hand baggage from the truck driver.

13. Pick Up of Visitors and Residents Departing on Short Term Leave

The Gate House will schedule the pick up of visitors and residents departing on short term leave and Bus #1 (Salt Lake-Delta Freight Line Bus) will be used for this purpose. In order that these individuals may have sufficient time to purchase tickets and check their baggage at the Delta railroad station, Bus #1 will start picking up passengers at least one hour before the other buses start their pick up of residents departing on terminal leave.

14. Notices to Residents

Notices will be sent by the Gate House to the Block Managers advising them the number of the bus that will pick up departing residents at his block.

Supplement #1

to

Procedure For Handling Departures
(Dated Sept. 8, 1945)

September 24, 1945

In order to eliminate the necessity of departees standing in the cold on Thursday mornings and to eliminate the hazard of outdoor fires, the following new pick-up procedure will go into effect Thursday, September 27th:

Dining halls 9, 10, 11, 12, 13, 14, 29, 30, 31, 33, 34, 35 will be designated as "waiting stations" where departees will assemble between 3:00 and 3:30 a.m. to be picked up by the bus.

The blocks listed below are assigned to the waiting station indicated:

| <u>Blocks</u> | <u>Dining Hall</u> | <u>Waiting Station</u> |
|----------------|--------------------|------------------------|
| 1 - 8 - 9 - 16 | - - - - - | 9 |
| 3 - 10 | - - - - - | 10 |
| 4 - 11 | - - - - - | 11 |
| 5 - 12 - 19 | - - - - - | 12 |
| 6 - 13 - 20 | - - - - - | 13 |
| 7 - 14 | - - - - - | 14 |
| 22 - 29 - 36 | - - - - - | 29 |
| 23 - 30 - 37 | - - - - - | 30 |
| 31 - 38 - 39 | - - - - - | 31 |
| 26 - 33 - 40 | - - - - - | 33 |
| 27 - 34 - 41 | - - - - - | 34 |
| 28 - 35 - 42 | - - - - - | 35 |

Passengers should take their hand luggage with them to the dining halls but should keep it separated by blocks. Each block should have it placed outside the dining hall near the door designated as exit below.

The buses will stop on the road behind the dining hall near the NORTHLAST DOOR for 9 - 10 - 11 - 12 - 13 - 14 and on the road nearest the SOUTHWEST DOOR for 29 - 30 - 31 - 33 - 34 - 35.

The bus captain can do his checking from within the dining halls near the doors indicated above which are "exit" doors only. Block Manager will instruct their people that this door is to be an EXIT ONLY FOR DEPARTees. From the door departees will walk directly to the bus and board it. Only departees are to board the bus.

In some cases the bus captain will want the people from only one block although passengers from other blocks may also be waiting in the dining halls. He will have to announce this (in both language as he enters the dining hall. In the meantime bus drivers should allow no passengers to get off the bus.

Baggage trucks will stop at the dining halls to collect the baggage of the people from the blocks shown on their list.

FOR EARLY MORNING DEPARTURES OTHER THAN ON THURSDAYS.

Persons departing in the early morning on days other than Thursdays will gather at the outside rear of their dining halls with their hand luggage and will be called for either by the Salt Lake - Delta bus or by a WRA vehicle driven by a member of the Internal Security Section. Departees should be ready with their hand luggage at 3:00 a.m.

A list of persons with block addresses scheduled for the early morning train will be furnished to the Internal Security Section by the Leave Office at the close of business on the day preceding the departure. Based on the number of persons scheduled for departure on both the Leave list and the Visitors' list, Internal Security will make the determination of whether it or the Salt Lake - Delta bus will call for the passengers. If the number of persons registered with the Gate Clerk as visitors and on the list furnished by the Leave Office is 18 or more, the Internal Security Section will inform the Salt Lake - Delta bus driver that he is to make the run. They will also see that he is awake on time. If the total of the lists is less than 18, the Internal Security Section will call for the passengers and transport them to Delta.

CHECKABLE BAGGAGE. The Motor Pool will secure lists of departees from the Leave Office and visitors from the Gatehouse the previous afternoon. The checkable baggage for these will be collected the afternoon before departure and will go to Delta with the mail truck driver, who will deposit it on a baggage wagon at the railroad station. Passengers will check their own baggage when they arrive in Delta the next morning.

FOR NOON DEPARTURES ON DAYS OTHER THAN TUESDAYS:

Persons leaving on the noon bus on days other than Tuesdays will gather at the gate with their hand luggage and board the bus there.

Supplement #2
to
Procedure For Handling Departures
(Dated Sept. 8, 1945.)

Instructions on Checkable Baggage

Only such items as clothing, toilet articles and personal needs are checkable as baggage. You cannot check dishes, cooking utensils, food of any kind, fragile articles, etc.

Items not checkable sent in with baggage will be sent to the owner by express collect.

Any items sent in by baggage, truck or any other conveyance and shipped by express collect without authorization from the Evacuee Property Office, will not be paid for by the WRA, regardless of who else makes the authorization. Therefore, be sure shipping arrangements have been made at the Evacuee Property Office for shipment of your property before releasing it to anybody, and be sure it is handled as you are told at the office. No truck driver or baggage collector is authorized to take your property and ship it at WRA's expense.

All visitors and people going on short term leave will be responsible for checking their own baggage.
