NARRATIVE REPORT:

Industries in Operation: Discuss any unusual or significant developments this month; current problems; plans for next month; production schedules; orders on hand; price changes; problems in connection with labor, materials, tools, equipment, housing, etc., etc.

Please note that our total on reverse side of sheet is estimated at minimum retail prices charged by commercial silk screen shops. Our cost was, labor, \$507.68, and materials, \$155.00 - a total of \$662.68 cost for July. Labor costs will be reduced slightly as we will now have only 3 artists at "C" rating where we did carry 8. The others have been reduced to "B" in accordance with our percentage allowed.

The workers show great interest and ability in this work, and have progressed more rapidly than any other I have worked with.

Industries in Process of Development: Present status of such industries; progress this month; problems and difficulties involved; when operations expected to begin; expected volume of production; outlets for products; number to be employed; training programs; problems of supply and equipment, etc., etc.

Just a line in this caption because we are training and developing as well as we are in operation for the center. Our total cost for July not only includes all work on the front side of this sheet, but also materials used for the sole purpose of training.

Our first request for a poster design has come from the Navy. We are now working on this, but do not know number to be printed. However, it will, undoubtedly, be a substantial order, as they will distribute it all over the country.

Under no circumstance should we reduce our number of workers, but rather we should build in anticipation of a volume of work from the navy. Supplies and equipment are at present available on the markets. A larger building with steam

~~Industries Proposed: XXXXXXXX Indicate kind of industry, facilities available, estimate number to be employed, outlet for products, suggestions and recommendations.~~

heat will be necessary this fall, as some materials we use are inflammable and cannot be used near stoves, and our space is not large enough to produce any great volume of work.

WAR RELOCATION AUTHORITY

GRANADA PROJECT

OFFICE MEMORANDUM

To: Maida Campbell

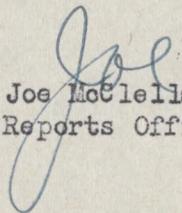

Date: July 23, 1943

From: Joe McClelland

Subject: MONTHLY REPORTS

Our new project monthly reports include project industries. Attached are two copies of the Industries' report (WRA - 119 Rev.). Will you please return to the Reports Office in the Pioneer Building one copy completely filled out, not later than Tuesday, August 3.

These report forms constitute the project report to the Washington Office. They are sent in by Mr. Lindley after being assembled in the Reports Office. If there is any assistance that the Reports Officer can give you in connection with these reports, please let me know.

NARRATIVE REPORT:

Industries in Operation: Discuss any unusual or significant developments this month; current problems; plans for next month; production schedules; orders on hand; changes; problems in connection with labor, materials, tools, equipment, housing, etc., etc.

The end of August finds the silk screen unit well into its training in transparent color printing. Each person has averaged about two transparent training prints each. Some extremely delicate work has been turned out - both in line and colors.

The Navy has requested that we print a series of fifty posters averaging 1,000 or more each poster. This will probably total 50,000 to 100,000 posters. We have received approval on a poster on saluting, though the number to be printed, is not known as yet. We also have a chart to print in 6 colors - about 5,000 prints. All of this is Navy work, over and above regular Center work.

Our space is extremely limited, and some workers are leaving for outside employment, but we are planning to carry on a continuous training program which will permit us to keep up the quality of our work. At the present time, Mr. Lindley, project director, is making arrangements for a larger space.

Our equipment is good, and though our orders on materials are slow in being delivered, we do eventually receive all things we need.

NARRATIVE REPORT:

Industries in Operation: Discuss any unusual or significant developments this current problems; plans for next month; production schedules; orders on hand; changes; problems in connection with labor, materials, tools, equipment, housing, etc., etc.

The end of September finds the silk screen with the new workers mostly transferred from Tule Lake Project replacing the old workers who have left to resettle outside.

Two Navy orders came in and we have sent out proofs of one of the orders. The crew is still working very earnestly on the proofs of the second one. The workers show great interest and ability in the Navy work.

The new workers are progressing rapidly.

We now have an additional forty feet, on the end of our present building, but are still crowded for more space.

Industries in Process of Development: Present status of such industries; progress this month; problems and difficulties involved; when operations expected to begin; expected volume of production; outlets for products; number to be employed; training programs; problems of supply and equipment, etc., etc.

Industries Proposed: Indicate kind of industry; facilities available; estimate number to be employed; outlet for products; suggestions and recommendations.

Industries in Operation: Discuss any unusual or significant developments this month; current problems; plans for next month; production schedules; orders on hand; price changes; problems in connection with labor, materials, tools, equipment, housing, etc., etc. (Front) See Statistic sheet

The Silk Screen Shop lost several of its good workers, but there have been replaced by others and our training program continues. Replacements will not be difficult as we have a standing waiting list.

Proofs were submitted on Navy posters, and they have been accepted. At present we have about 40,000 sheets of poster board size 22" x 28" on the way from them for use in these and other posters which they will request. This poster board is furnished by the Navy. Materials (ie paints, etc.) are to be purchased by W.R.A. and then W.R.A. is to be reimbursed by the Navy.

Additional space is to be furnished shortly to accommodate additional equipment, workers, and materials coming in on the Navy orders.

NARRATIVE REPORT:

Industries in Operation: Discuss any unusual or significant developments this month; current problems; plans for next month; production schedules; orders on hand; price changes; problems in connection with labor, materials, tools, equipment, housing, etc., etc.

The Silk Screen Shop, ~~this month~~, is in full production on Navy contracts and ~~is making an excellent showing~~. All of the Navy production has been over and above the training program which includes work for the center. The large percentage of older workers who are relocating on the strength of their silk screen training makes it extremely important that our training program be continued, ~~at top speed or even increased~~.

At present we have Navy orders on hand which will cover six months work and we expect more in shortly.

NARRATIVE REPORT:

Industries in Operation: Discuss any unusual or significant developments this month; current problems; plans for next month; production schedules; orders on hand; production changes; problems in connection with labor, materials, tools, equipment, housing, etc., etc.

The month of January shows a sharp decrease in production due to the shifting of the crew and the necessity of a training program for the numerous new members. Proofs of several new Navy posters were made and sent to Washington for approval. Next month will show large production as we now have large orders and a trained crew on hand.

**OFFICE FOR EMERGENCY MANAGEMENT**

**OFFICE MEMORANDUM**

TO: Miss Maida G. Campbell; Manufacturing Superintendent      DATE: Feb. 22, 1944

FROM: Joe McClelland; Reports Officer

SUBJECT: Monthly Report Notice

**NOTICE: CHANGE IN PROCEDURE**

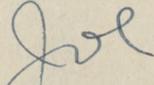

In order to further expedite our reporting procedure, it will be necessary for you to furnish the Reports Office with 5 (five) completed copies of your monthly reports from now on.

The Reports Office will continue to assemble the reports and prepare the letter of transmittal for the Project Director. A brief summary of the Project reports is also prepared by the Reports Office. Three copies of the completed report for the entire project will be submitted to the Washington Office by Project Director James G. Lindley, and one copy will be sent to the Denver Office. The fifth copy will be for the project file. If you desire file copies or additional copies for your division head, please retain them, but be sure that all 5 of the other copies reach the Reports Office.

Seven copies of the report form for the month of February are enclosed for your use. Five completed copies are due in the Reports Office not later than Friday, March 3.

The Granada Project has had a very good record in being prompt with its reports. The change in procedure is being initiated because of reduced staff personnel in order that there will be no duplication of effort and loss of time in reporting.

Remember, be sure to include five copies of any narrative report or other extra sheets as well as the printed statistical forms.

  
Joe McClelland  
Reports Officer

Enc. - 7

WAR RELOCATION AUTHORITY

WASHINGTON

March 17, 1944

Mr. J. G. Lindley  
Project Director  
Granada Relocation Center  
Amache, Colorado

Dear Mr. Lindley:

A compliment is very much in order for the members of your staff on the outstandingly fine job they have been doing in compiling their monthly reports. We are particularly well pleased with the reports covering the month of February, and also that so many members of the staff submitted narrative reports to supplement the information on the statistical forms.

I know that I speak for others of the Washington staff in saying that these monthly reports have been most helpful. The information contained in them has been of great value not only from the standpoint of keeping us currently abreast of your progress and problems at the center, but also as a reference source in compiling information for Members of Congress, the Bureau of the Budget and in answering inquiries from other individuals and organizations.

I hope at your next staff meeting you will take the opportunity to commend the divisional and sectional heads responsible for these reports on the excellent job they have done. It has not been accomplished without a good deal of time and effort on their part, and we want them to know that members of the Washington staff appreciate that effort.

Sincerely yours,

John C. Baker  
Chief, Office of Reports

NARRATIVE REPORT:

Industries in Operation: Discuss any unusual or significant developments this current problems; plans for next month; production schedules; orders on hand; changes; problems in connection with labor, materials, tools, equipment, housing, etc., etc.

Work is progressing about the same. Production is steady, though it fluctuates in our reports due to the fact that we report only those completed, and not those in process. The coming of summer with the dust storms may cut our production slightly as extra care must be taken not to cut out the silk with dust.

Industries in Process of Development: Present status of such industries; progress this month; problems and difficulties involved; when operations expected to begin; expected volume of production; outlets for products; number to be employed; training programs; problems of supply and equipment, etc., etc.

NARRATIVE REPORT:

Industries in Operation: Discuss any unusual or significant developments this current problems; plans for next month; production schedules; orders on hand; changes; problems in connection with labor, materials, tools, equipment, housing, etc., etc.

You will note that monthly total for production is lower. This is due to lack of space and the fact that a large number of the better workers have been leaving on seasonal or indefinite leave.

Industries in Process of Development: Present status of such industries; progress this month; problems and difficulties involved; when operations expected to begin; expected volume of production; outlets for products; number to be employed; training programs; problems of supply and equipment, etc., etc.

Industries Proposed: Indicate kind of industry; facilities available; estimate number to be employed; outlet for products; suggestions and recommendations.

NARRATIVE REPORT:

Industries in Operation: Discuss any unusual or significant developments this current problems; plans for next month; production schedules; orders on hand; changes; problems in connection with labor, materials, tools, equipment, housing, etc., etc.

We have been working on overlapping double shift from 8:00 a.m. to 4:30 p.m. and from 1:00 p.m. to 10:00 p.m. This was done in order to speed up Navy production. Although we have been ahead on all printing schedules given the Navy, we have delayed shipments due to lack of paper and bills of lading which are provided by the Navy.

Night shifts will continue only as long as necessary.

Industries in Process of Development: Present status of such industries; progress this month; problems and difficulties involved; when operations expected to begin; expected volume of production; outlets for products; number to be employed; training programs; problems of supply and equipment, etc., etc.

It will be noted that our production has been reduced for the past month. There has been a lull in Navy production. However, we have used this period for much needed training and conversion to winter shop. At present, we have on hand six tons of Navy poster paper which will go into posters now on order.

NARRATIVE REPORT:

Industries in Operation: Discuss any unusual or significant developments this month; current problems; plans for next month; production schedules; orders on hand; changes; problems in connection with labor, materials, tools, equipment, housing, etc., etc.

Work in the shop is progressing smoothly. As our figures show, we did quite a number of Navy posters.

We received notice from the Navy, a week or so ago, that they had been in error on the designs of five of the Signal Flag Cards. We are prepared to re-run these 10,000 cards as soon as we receive official notice to proceed.

NARRATIVE REPORT:

Industries in Operation: Discuss any unusual or significant developments this month; current problems; plans for next month; production schedules; orders on hand; changes; problems in connection with labor, materials, tools, equipment, housing, etc., etc.

Shop work is progressing well. We are holding an exhibition of Silk Screen Prints done in the past on January 12th, 13th and 14th.

We have an order of Navy work coming up for approximately 150,000 posters averaging 5 colors each, in 58 different designs.

Industries in Process of Development: Present status of such industries; progress this month; problems and difficulties involved; when operations expected to begin; expected volume of production; outlets for products; number to be employed; training programs; problems of supply and equipment, etc., etc.

Industries Proposed: Indicate kind of industry; facilities available; estimate number to be employed; outlet for products; suggestions and recommendations.
