VI. GENERAL COMMENT: (Give a brief report on any unusual and significant problems or incidents which have arisen in the fields of employment, placement, labor relations, work incentives, working conditions, accident prevention, etc.)

In IV: Unable to obtain breakdown by sex.

Have difficulty obtaining workers for the harder types of work, such as garbage collection and coal shovelling. However since payment of Unemployment Compensation has become possible we are receiving more registrations for employment, but need more specific instructions as to eligibility of persons applying.

VI. GENERAL COMMENT: (Give a brief report on any unusual and significant problems or incidents which have arisen in the fields of employment, placement, labor relations, work incentives, working conditions, accident prevention, etc.)

It is noted that a great number of elderly persons, some between 65 and 70 are rejecting employment with unemployment compensation in mind, and when called upon for employment are either rejected by activity supervisors due to age or they themselves refuse to accept jobs. It is also noted that the majority of married women register for employment with receipt of unemployment compensation in mind and when offered employment refuse to accept, especially those with small children. It is also noted that persons with what appears to be slight illness are remaining off job 15 days or more and are not experiencing any difficulty in obtaining doctor's certificates from the resident doctors substantiating their claims to illness.

*needs checking into!*

VI. GENERAL COMMENT: (Give a brief report on any unusual and significant problems or incidents which have arisen in the fields of employment, placement, labor relations, work incentives, working conditions, accident prevention, etc.)

Regulations providing for payment of unemployment compensation after 15 days seems to be quite lax inasmuch as there is no maximum amount established that can be paid or time limit. A worker can draw payments for illness, and it seems ill workers experience no difficulty in obtaining certificates in substantiating their claims of illness.

VI. GENERAL COMMENT: (Give a brief report on any unusual and significant problems or incidents which have arisen in the fields of employment, placement, labor relations, work incentives, working conditions, accident prevention, etc.)

In view of the great turn over in project employment, due to workers resigning their employment with the promise from Division heads that it will be possible to be rehired in their divisions it is suggested that regulations require that workers remain in one assignment unless a transfer is for the benefit of the project or to place a worker in his or her ordinary work classification. In cases where workers leave their project employment without cause such as outside employment or illness or reason acceptable to Employment Officer some penalty such as to make them ineligible for reemployment for a period of sixty or ninety days should be applied.
