Revised 7/13

WESTERN DEFENSE COMMAND AND FOURTH ARMY
OFFICE OF ASSISTANT CHIEF OF STAFF, CIVIL AFFAIRS DIVISION
WARTIME CIVIL CONTROL ADMINISTRATION

June 26, 1942

SUBJECT: Transfer Order No. 6.

TO: Chiefs, Evacuation Operations Division
Temporary Settlement Operations Division
Wartime Civil Control Administration

1. Pursuant to authority contained in letter of the Commanding General, Headquarters Western Defense Command and Fourth Army, May 23, 1942, subject, "Transfer of Japanese Evacuees from Wartime Civil Control Administration Assembly Centers to War Relocation Authority Relocation Centers", you are directed to make all necessary arrangements for the transfer indicated below.

2. The majority of the residents of Pinedale Assembly Center will be sent to Tule Lake War Relocation Project and the remainder, approximately 750 persons, will be sent to the Colorado River War Relocation Project. Those sent to the Colorado River War Relocation Project comprise two groups, namely, those evacuated under Exclusion Order No. 95 from Sacramento, El Dorado and Amador Counties, and six families evacuated under Exclusion Order No. 64 from Fresno. Details of Evacuation are listed below:

<u>Date</u>	<u>Approximate No. of Evacuees</u>	<u>From</u>	<u>To</u>
a. July 15 <i>to July 22 incl.</i>	approx. 4000	Pinedale, Calif.	Tule Lake War Relocation Project P. O. Box 813 Tule Lake, California

(1) Commencing July 15, transfer approximately 500 persons each day until the movement is completed.

b. July 23	750	Pinedale, Calif.	Colorado River War Relocation Project Poston, Arizona

2. It is directed that appropriate arrangements be made for the transfer of evacuees as indicated below:

<u>Approximate No. of Evacuees</u>	<u>From</u>	<u>To</u>
2200	Santa Anita Assembly Center	Gila River WRA Project, Arizona

- a. Movement will start on October 17, 1942 and will continue daily thereafter until completed.
- b. The number of evacuees moved each day will be approximately 525 persons and in no case will exceed 550 persons.
- c. This group of evacuees will be made up of families, originally evacuated from sections of Los Angeles and Pasadena, California, included in the following family numbers:

9,201	to	9,641
22,851	to	22,860
23,151	to	23,550
- d. The total number of evacuees moved under this order will not exceed 2200 individuals.
- e. Travel directed is necessary in the military service and payment when made is chargeable to Procurement Authority FD 32 P 432-02-03 A 0425-23; QM D-1 Funds when applicable.

3. Transportation and meals while enroute will be furnished for such medical attendants as may be prescribed by the United States Public Health Service from Arcadia, California, to Casa Grande, Arizona, and return. Travel directed is necessary in the military service and payment when made is chargeable to Procurement Authority FD 35 P 435-02 A 0425-23. The issue of meal tickets is authorized, and each medical attendant will be furnished three (3) meals enroute at a rate not to exceed 75¢ per meal or not to exceed \$1.00 per meal per individual when meals are taken in a dining car.

Transfer Order No. 26

October 3, 1942

4. A suitable military escort will be provided for each movement under this order. It being impracticable for the Government to furnish rations in kind, meals for each member of this escort will be furnished under the provisions of Paragraph 2, AR 30-2215 for three (3) meals enroute at a rate not to exceed 75¢ per meal, or not to exceed \$1.00 per meal per man when meals are taken in a dining car. Travel directed is necessary in the military service and payment when made is chargeable to Procurement Authority FD 34 P 434-02 A 0425-23. The issue of meal tickets is authorized.

5. The information contained herein will not be released to evacuees prior to October 7, 1942.

By Command of Lieutenant General DeWITT:

Hugh T. Fullerton

HEADQUARTERS WESTERN DEFENSE COMMAND AND FOURTH ARMY
OFFICE OF THE COMMANDING GENERAL
PRESIDIO OF SAN FRANCISCO, CALIFORNIA

October 12, 1942

SUBJECT: Transfer Order No. 27.

TO : Commanding General, Northern California Sector.
All Wartime Civil Control Administration Agencies Concerned.

1. Reference letter, this headquarters, June 26, 1942, subject, "Transfer of Evacuees of Wartime Civil Control Administration Assembly Centers to War Relocation Authority Relocation Projects," and Executive Order No. 9066.

2. It is directed that appropriate arrangements be made for the transfer of evacuees as indicated below:

<u>a.</u> <u>Approximate No. of Evacuees</u>	<u>From</u>	<u>To</u>
200	Stockton Assembly Center	Gila River WRA Project, Arizona

- (1) This group will consist of those individuals included on List "A", Inclosure No. 1.

<u>b.</u> <u>Approximate No. of Evacuees</u>	<u>From</u>	<u>To</u>
150	Fresno Assembly Center	Gila River WRA Project, Arizona

- (1) This group will consist of those individuals included on List "B", Inclosure No. 2.

c. Both above groups will move on October 16, 1942.

d. The increment from Stockton Assembly Center will be consolidated with the increment from the Fresno Assembly Center enroute to the indicated destination.

3. Transportation and meals while enroute will be furnished for such medical attendants as may be prescribed by the United States Public Health Service from Stockton, California to Casa Grande, Arizona, and return. Travel directed is necessary in the military service and payment when made is chargeable to Procurement Authority FD 35 P 435-02 A 0425-23. The issue of meal tickets is authorized, and each medical attendant will be furnished eight (8) meals enroute at a rate not to exceed 75¢ per meal or not to exceed \$1.00 per meal per individual when meals are taken in a dining car.

RECEIVED
OFFICE OF THE ATTORNEY GENERAL
WASHINGTON, D.C.

October 1, 1942

Transfer Order No. 27.

October 12, 1942

4. It being impracticable for the Government to furnish rations in kind, meals for each evacuee transferred under this order will be furnished under the provisions of Paragraph 2, AR 30-2215 for four (4) meals enroute at a rate not to exceed 75¢ per meal, or not to exceed \$1.00 per meal per individual when meals are taken in a dining car. Travel directed is necessary in the military service and payment when made is chargeable to Procurement Authority FD 32 P 432-02-03 A 0425-23; QM D-1 Funds when applicable. The issue of meal tickets is authorized.

5. A suitable military escort will be provided for each movement under this order. It being impracticable for the Government to furnish rations in kind, meals for each member of such escorts will be furnished under the provisions of Paragraph 2 AR 30-2215 for eight (8) meals enroute at a rate not to exceed 75¢ per meal, or not to exceed \$1.00 per meal per man when meals are taken in a dining car. Travel directed is necessary in the military service and payment when made is chargeable to Procurement Authority FD 34 P 434-02 A 0425-23. The issue of meal tickets is authorized.

October 15, 1942

SUBJECT: Transfer Order No. 28.

TO : Commanding General, Southern California Sector, WDC
All Wartime Civil Control Administration Agencies Concerned

1. Reference letter, this headquarters, June 26, 1942, subject:
"Transfer of Evacuees of Wartime Civil Control Administration Assembly Centers
to War Relocation Authority Relocation Projects," and Executive Order No. 9066.

2. It is directed that appropriate arrangements be made for the transfer of evacuees as indicated below:

a.

Approximate No.
of Evacuees

From

To

125	Santa Anita Assembly Center	Heart Mountain WRA Project, Wyoming
150	Santa Anita Assembly Center	Granada WRA Project, Colorado
200	Santa Anita Assembly Center	Rohwer WRA Project, Arkansas
100	Santa Anita Assembly Center	Jerome WRA Project, Arkansas

- (1) All above groups will depart on October 27, 1942.
- (2) Each group will be made up from those individuals who have been retained at the Santa Anita Assembly Center after completion of the main movements of evacuees to the WRA Projects indicated.

b.

Approximate No.
of Evacuees

From

To

150	Santa Anita Assembly Center	Jerome WRA Project, Arkansas
-----	--------------------------------	---------------------------------

- (1) Above group will depart October 27, 1942.
- (2) This group of evacuees will be included with those assigned to Jerome WRA Project above, and will be selected from families, originally evacuated from sections of Los Angeles and Pasadena, California, included in the following family numbers:

9,201	to	9,641
22,851	to	22,860
23,151	to	23,550

Transfer Order No. 28.

October 15, 1942

3. Transportation and meals while enroute for each movement under this order will be furnished for such medical attendants as may be prescribed by the United States Public Health Service from Arcadia, California to the appropriate destination, i.e., Vocation, Wyoming; Granada, Colorado; Rohwer, Arkansas, or Jerome, Arkansas, and return. Travel directed is necessary in the military service and payment when made is chargeable to Procurement Authority FD 35 P 435-02 A 0425-23. The issue of meal tickets is authorized, and each medical attendant will be furnished thirty (30) meals enroute at a rate not to exceed 75¢ per meal, or not to exceed \$1.00 per meal per individual when meals are taken in a dining car.

4. It being impracticable for the Government to furnish rations in kind, meals for each evacuee transferred under this order will be furnished under the provisions of Paragraph 2, AR 30-2215 for fifteen (15) meals enroute at a rate not to exceed 75¢ per meal, or not to exceed \$1.00 per meal per individual when meals are taken in a dining car. Travel directed is necessary in the military service and payment when made is chargeable to Procurement Authority FD 32 P 432-02-03 A 0425-23. The issue of meal tickets is authorized.

5. A suitable military escort will be provided for each movement under this order. It being impracticable for the Government to furnish rations in kind, meals for each member of such escorts will be furnished under the provisions of Paragraph 2, AR 30-2215 for thirty (30) meals enroute at a rate not to exceed 75¢ per meal, or not to exceed \$1.00 per meal per man when meals are taken in a dining car. Travel directed is necessary in the military service and payment when made is chargeable to Procurement Authority FD 34 P 434-02 A 0425-23. The issue of meal tickets is authorized.

June 26, 1942

SUBJECT: Transfer of Evacuees of Wartime Civil Control Administration
Assembly Centers to War Relocation Authority Relocation
Projects

TO: All Sector Commanders
All Wartime Civil Control Administration Civilian Agencies
Concerned

1. a. The removal of evacuees from assembly centers to relocation projects will be in accordance with the procedure outlined in this communication.

b. Letter of June 13, this Headquarters, is rescinded. It is noted, however, that the contents of this letter, with certain modifications, are incorporated in this communication.

c. As a means of identification, this communication will hereafter be referred to as "Wartime Civil Control Administration Evacuation Bulletin".

2. Transfer of evacuees will be as prescribed in numbered transfer orders which will set forth the date, approximate number of evacuees to be moved, the assembly center involved and the destination. Evacuees shall be transferred at the rate of approximately 500 each day until the evacuation for that assembly center is completed. In the case of evacuation of larger assembly centers such as Santa Anita, the number to be evacuated each day will be limited as prescribed in the transfer order.

3. The time of departure of evacuees from assembly centers to relocation projects will be coordinated by the rail transportation officer, Fourth Army, and the sector transportation officer concerned and the Operations Branch, Temporary Settlement Operations Division, Wartime Civil Control Administration, Western Defense Command, so that assembly center managers will be able to use the greater part of the daylight hours to prepare the evacuees for departure on that date. The time of departure should be so regulated that the evacuees will arrive at their destination as early in the day as practicable in order to insure a proper settlement at relocation projects.

4. a. The Wartime Civil Control Administration will notify the War

Relocation Authority, in writing, at least ten days in advance of a contemplated movement of evacuees from assembly centers to relocation projects.

b. Advance notice of fifteen days will be made in the case of advance detachments to relocation projects.

5. a. The advance detachment for a relocation project will be selected by the U. S. Employment Service, subject to the approval of the manager or managers of the assembly center or centers involved.

b. During the process of selecting personnel to form advance detachments, the following will be observed:

(1) The families of those persons composing the advance detachment will accompany them.

(2) All personal property and effects of the evacuees at the center will accompany the movement, either as freight or baggage.

(3) Doctors, nurses and dentists required for relocation projects will be selected by the U. S. Public Health Service from the assembly centers having such personnel available.

(4) Insofar as practicable and whenever possible, select two or more people in a family as members of the advance detachment. This will reduce the total number of people composing it.

(5) Personnel of the advance detachment, insofar as practicable, will consist of the following:

Dietitians	1	Store Managers	1
Pharmacists	1	Retail Clerks	2
Laboratory Technicians	1	Recreation leaders	4
X-Ray Technicians	1	Social workers	1
Hospital Attendants	10	Carpenters	2
Hospital Maids	15	Electricians	1
Hospital Sec'y	1	Plumbers	1
Hospital Clerks	2	Steno-Typists	10
Cooks	10	Clerks	5
Cooks' Helpers	10	Guides (preferably high	
Dishwashers	10	school or college men)	10
Waiters	20	Truck Drivers	10
Butchers	1	Laborers	<u>20</u>
Bakers	2		
		Total	152

6. Advance detachments will be selected from assembly centers designated by the Wartime Civil Control Administration.

7. The advance detachment will arrive at the designated relocation

project at least six days in advance of the first group of the main contingent.

8. a. For your information, War Relocation Authority will, within a reasonable time after arrival of the evacuees at relocation projects, arrange to have the household and personal effects of evacuees, now in storage outside of assembly centers, shipped to them at the relocation projects.

b. All costs pertaining to such shipments will be to the account of the War Relocation Authority.

c. Private automobiles of evacuees will not be included.

9. Except under circumstances over which there can be no control, members of a family will not be separated.

10. Insofar as practicable, those evacuees associated socially or forming a business community or colony within a definite locality prior to the evacuation to an assembly center will be kept together and transferred to the same relocation project.

11. Insofar as practicable and consistent with the provisions of paragraph 10, the transfer of the main contingent of the evacuees from the assembly centers will be made by blocks. This will facilitate the control and enable those responsible to have the evacuated area properly policed and closed off from further occupancy and the property cleaned, inspected, checked and stored.

12. A detailed record of all persons released will be maintained by the operations branch of the Temporary Settlement Operations Division, Wartime Civil Control Administration, and upon completion of the entire evacuation of assembly centers, all such records pertaining thereto shall be turned over to the Civil Affairs Division, Western Defense Command.

13. Each assembly center involved in an evacuation will furnish the following records, to be turned over to the train commander for delivery to the project director at destination:

a. A roster, in quadruplicate, of all evacuees to depart on a given train. Each individual on the list will be indicated by name and family case number assigned at the Civil Control Station and indicated on the Social Data Registration form. At the bottom of each train list there will be a form substantially as follows:

"I certify that all evacuees listed above have been turned over by me to the train commander on _____, 1942, at _____ M.

Assembly Center Manager

I acknowledge that all evacuees listed above were received by me on _____, 1942, at _____ M, for entrainment.

Train Commander

I acknowledge that all of the evacuees listed above arrived at _____ Relocation Project _____, 1942, at _____ M.

War Relocation Project Director

Train Commander

b. The following records will be prepared by the center manager to be turned over to the train commander for delivery to the project director at destination, provided such records are available:

(1) Final statements of all evacuees, showing obligations discharged.

(2) All other records pertaining to the evacuation, not mentioned above.

(3) If it is not possible to complete final statements and other records at time of evacuation, for delivery to the train commander, then such records shall be mailed directly to the project director at destination not later than five days after evacuation.

(4) With the exception of rosters, all records that are turned over to the train commander will be securely wrapped, tied and labeled to show the following: War Relocation Project Director
_____ War Relocation Project.

14. Personal effects of evacuees will be prepared as follows:

- a. All personal effects will be securely bundled.
- b. A shipping tag will be attached to each bundle.
- c. Each shipping tag will show the following:
 - (1) Name of the individual or family head.
 - (2) The family number (that is, the number assigned at the Civil Control Station)
 - (3) Bundle number.
 - (4) Total number of bundles per individual or family head.

15. a. Transportation necessary to move the evacuees and baggage under the provisions of each transfer order will be arranged for by the rail transportation officer, Fourth Army, in accordance with request forwarded to Assistant Chief of Staff, G-4, Western Defense Command and Fourth Army, by the Assistant Chief of Staff, Civil Affairs Division, Western Defense Command and Fourth Army. In cases where it is necessary to move individuals by ambulance, such transportation will be provided by the U. S. Public Health Service. In no instance will an evacuee be permitted to drive from an assembly center to a relocation project in his or her own conveyance.

b. Close liaison will be maintained between sector transportation officer and the rail transportation officer, Fourth Army, to insure in advance that an adequate amount of rail or bus equipment will be on hand at the time of each projected movement.

c. The sector transportation officer will, when so requested by the rail transportation officer, Fourth Army, arrange locally for the required rail or bus equipment.

16. a. In each movement the evacuees will be permitted to take with them on the same train only such personal effects and bedding as will be required by them en route or immediately upon arrival at the relocation project. Two baggage cars, each of approximately 3000 cubic feet capacity, will be provided for each train of 500 evacuees and the amount of personal effects will be limited to that which can be transported in these two cars.

b. Excess baggage, as reported in paragraph 24-d below, will be sent to the relocation project by freight. Assembly center managers will be responsible that all baggage is properly tagged, suitably packaged, and ready for shipment at the proper time. In any case where crating is necessary, the center managers will see that it is properly accomplished. All excess baggage will be released to the common carriers by the assembly center managers at the lowest released valuation. When practicable, these

freight movements will be by van, but whether by van or rail, the center managers must furnish the necessary transportation and details for loading each conveyance.

17. In connection with movements of evacuees from assembly centers to relocation projects, the sector commander concerned will furnish such military personnel as may be necessary for each movement. This personnel will include a sector transportation officer, train commander, and sufficient military personnel to insure the safe conduct of the evacuees from the assembly center to the relocation project.

18. a. Train commanders, as the representatives of the Sector Commander, will take delivery of and accept responsibility for the evacuees being moved at the exit gate of the assembly center or other designated, mutually agreed upon spot, after center managers have completed their checkout at the processing table.

b. The train commander and assembly center manager will each sign, in the appropriate space, all four copies of the Roster. The original and two copies will be retained by the train commander and one copy by the assembly center manager. The train commander will check evacuees into the train and, upon arrival at the destination, the train commander and the director of the relocation project will check the evacuees into the relocation project. The train commander and the relocation project director will then execute the appropriate form on each copy. One copy of the form will be delivered to the relocation project director. The original, duly endorsed as noted above, will be forwarded by the sector commander to the Assistant Chief of Staff, Civil Affairs Division, this Headquarters, 1231 Market Street, San Francisco, California, within seventy-two hours after the arrival of the evacuees at the relocation project. The remaining copy will be retained by the sector commander.

19. On rail movements, tourist Pullman cars as required, will be provided for each train.

20. On rail movements where spur tracks are outside the center area, the rail transportation officer will provide busses to move the evacuees from the assembly center to the train.

21. a. The U. S. Public Health Service will select the doctors and nurses to accompany train or bus movement as medical attendants, and will forward the names of such attendants, other than evacuees, in writing to the Transportation Officer, Evacuation Operations Division, Wartime Civil Control Administration, 1231 Market Street, San Francisco, California, so as to arrive thereat not less than forty-eight hours prior to each movement. If return transportation to the assembly center is desired for medical attendants, such fact will be definitely stated in the case of each person concerned.

b. Assembly center managers will make arrangements with the U. S. Public Health Service, so that assembly center hospitals will be evacuated at least two days prior to the departure of the last movement

of the main contingent from the assembly center to the relocation project.

22. When more than two meals are required enroute between an assembly center and a war relocation project, dining cars will be included in the train equipment by the rail transportation officer, Fourth Army, and all meals will be served therein. For those moves involving only one or two meals, lunches will be provided for the evacuees by the manager of the assembly center concerned.

23. a. Sector Commanders will inform other sector commanders concerned whenever the route of a movement of evacuees from their sector to a war relocation project requires the crossing of, or movement into, another sector.

b. Sector Commanders will also inform corps area commanders concerned whenever the route of a movement of evacuees from their sector to a war relocation project requires the crossing of, or movement into, another corps area.

c. This notification will include the place from which the movement originates, time of departure, probable route and destination, together with approximate number of persons involved.

d. This action is designed to obviate tactical complications and the possibility of rail or highway congestion.

24. The assembly center manager concerned will make the following reports by teletype to the Wartime Civil Control Administration, 1231 Market Street, San Francisco, California, so that each such report will arrive thereat not later than the time indicated.

a. At least five days prior to each departure date, a statement showing the number of full fares, half fares, and infants for whom transportation will be required for each day of movement. In this connection, children from five to twelve years of age inclusive will be counted as half fares. This count will not include those individuals reported under "b" below.

b. At least five days prior to each departure date, a statement showing the number of full fares, half fares and infants who, because of their age, state of health, physical condition or other reason, will require tourist sleep accommodations. This information will be obtained from the U. S. Public Health Service, and will be finally supported by a certificate as described in paragraph "f" below. It is contemplated that such persons will be moved in a tourist sleeper attached to each train.

c. At least five days in advance of each movement of evacuees from the assembly center, a statement to the effect that the amount of personal baggage to be carried by the evacuees on that train will not exceed that which can be transported in the two baggage cars provided under the provision of paragraph 16-a above.

d. At least five days prior to the initial movement under any Transfer Order, a statement as to the amount of freight, other than personal baggage referred to in "c" above, that it will be necessary to transport on each day of movement. This report will indicate the daily cubic footage of freight involved. Conveyances for the transportation of freight will normally be spotted the day prior to each movement; however, where the shipments are not heavy, sufficient accommodations for several days may be spotted and loaded ahead of the scheduled movement of the evacuees.

e. Upon departure of each group of evacuees, a statement indicating the exact number of evacuees who departed.

f. Upon the departure of each group of evacuees, a certificate obtained from and signed by an officer of the U. S. Public Health Service, stating that the tourist sleeper accommodations as furnished were necessary, and listing the names of the evacuees so transported, together with the reasons therefor in each individual case.

25. At the time of departure, the train commander concerned will make the following reports by the most expeditious means to the director of the relocation project at the destination:

a. A statement showing the number of adults, children, and infants who actually departed from the assembly center, together with the expected date and hour of arrival at destination.

b. A statement showing the amount of baggage on the train.

c. When additional baggage is shipped by freight, the assembly center manager will notify the relocation project director, by the most expeditious means, the following:

(1) The date of departure.

(2) The originating railroad.

(3) The car numbers.

26. a. As each assembly center is evacuated, the center manager will require the Japanese evacuating a particular area to do all policing of barracks, latrines and the areas immediately surrounding the barracks.

b. All shelving, wiring and other conveniences that may have been installed by evacuees will be removed from all barracks and deposited at a point designated by the center manager. Windows will be washed and closed; doors will be securely closed.

c. The mess hall of the block involved in the day's movement, including equipment therein, will be properly cleaned and the equipment

stored, as directed by the center manager, by individuals from other blocks. However, on the day the last contingent departs, the hour of feeding must necessarily be advanced in order that the work detail operating the mess hall will have sufficient time to clean and close it prior to train departure.

d. It is not intended that any evacuees will be retained at a center for the purpose of cleaning up. However, should the center manager be confronted with a situation which would preclude complete evacuation unless a work detail was retained, permission for such work detail to remain will be obtained from this headquarters.

27. a. Each assembly center manager will have prepared a change of address card for each evacuee who is to be transferred from an assembly center to a relocation project.

b. It is recommended that the assembly center manager secure from the postal authorities in his locality a sufficient number of change of address cards, so that evacuees can prepare these cards as soon as they definitely know the relocation area to which they are to be transferred. After preparation, the center manager will collect the cards and turn them over to the postal authorities.

28. a. Disposal of Army equipment at assembly centers will be as prescribed by the Quartermaster, Western Defense Command and Fourth Army, in undated memorandum entitled, "Operating Procedure for Disposition of Property and Subsistence on Closing of Japanese Assembly Camps", copy attached.

b. Settlement of property accounts of center managers will be in accordance with letter of Wartime Civil Control Administration to assembly center managers, dated June 25, 1942, under the subject, "Disposition of Property Incidental to the Closing of Assembly Centers".

29. Plans for the utilization of buildings and utilities erected at assembly centers, after the removal of the evacuees to relocation projects, will be determined.

By Command of Lieutenant General DeWITT:

Hugh T. Fullerton
Captain A. G. D.
Assistant Adjutant General

Memo: Operating Proced. for
Disposi. of Prop.

HEADQUARTERS WESTERN DEFENSE COMMAND AND FOURTH ARMY
Office of the Quartermaster
Presidio of San Francisco, California

OPERATING PROCEDURE FOR DISPOSITION OF PROPERTY AND
SUBSISTENCE ON CLOSING OF W.C.C.A. ASSEMBLY CENTERS

1. Immediately upon the receipt of advice that a War Relocation Project is ready for occupancy and decision is made which assembly center, or centers, will be closed, Civil Affairs Division will give G-4 a warning. G-4 will in turn warn the Quartermaster that the closing of the Assembly Center (or centers) NAME is imminent, and give tentative date last group of evacuees will clear.

2. When definite advice is available as to actual date of complete evacuation, G-4 will be so informed by Civil Affairs Division, and in turn will inform the Quartermaster so that the latter may take proper steps to place a supply team in the center to coordinate the shipment of all Army property.

3. In conformity with policy decided on at a conference in G-4's office, May 19, 1942, at 9:00 A.M., the following pertinent points are outlined:

a. The Army recognizes the fact that accountability is vested in the center manager, and the duty of the commanding officer of the supply team will be to assist the center manager in completing shipment of all Army property with which he is charged in accordance with standing regulations so that proper credit will be given the accountable officer (center manager) and his account eventually closed.

b. It is contemplated that the following classes of property will be shipped under this plan:

(1) All equipment furnished by the Army, whether issued from Regular Army stocks, purchased or issued from CCC excess stocks.

(2) All equipment purchased by WPA for center use for which reimbursement has been, or is being made from Army funds, including office labor saving devices, desks, kitchen-ware, etc.

(3) Motor vehicles furnished by the Army whether newly purchased for center use or transferred to the center from other sources.

(4) Subsistence, which has all been chargeable to Army funds.

(5) Center exchange property which has been purchased from government funds.

(6) Medical property and supplies furnished by the Army.

(7) Excepted from the above are items loaned by the WPA to center managers which it is expected will be returned to WPA supply points by the center managers.

b. The commanding officer of the supply team will submit directly to the Quartermaster, Western Defense Command and Fourth Army, the complete inventory of all serviceable Army property in center.

d. Supply team commander works directly under the Quartermaster, Western Defense Command and Fourth Army, who directs disposition of Army property at each center to be evacuated.

e. It is the responsibility of the supply team commander to see that contracts for packing and crating are fulfilled, and he will act as a representative of the Purchasing and Contracting Officer in such cases. Action is being taken by this office through various government agencies to have in force a contract for each assembly center for the packing and crating of all Army property at the centersite, except cots, steel, folding. It is proposed that these contracts will provide that blankets will be in bundles of 20 each, mattress covers or bedsacks in bundles of 50 each, all tableware to be packed in such a manner so as to prevent breakage or damage, and cots, canvas, folding, to be in bundles of 4 each. Boxes, bundles, barrels, etc., to be marked clearly with the contents therein. The contractor will be required to furnish itemized packing slips; one copy of which will be turned over to the commanding officer of the supply team.

f. Further, the supply team commander will ascertain that all Army property, after being packed and crated, is properly marked for shipment as designated by the Army Quartermaster, and delivered to the carrier making the shipment. He will also ascertain that bills of lading as prepared by the center manager are properly accomplished. It is expected that the center manager will furnish labor to assist in assembling all Army property at such point, or points, within the centersite as the commanding officer of the supply team may determine as the most logical point for the inventory and preparation of the shipment.

g. The following is a general plan to be followed in the shipment of Army property from assembly centers:

(1) Blankets are to be returned to a supply point which will be designated later for laundering, except those from center infirmaries which will be bundled separately and clearly marked "To Be Sterilized -- used in hospital."

(2) Mattress covers or bedsacks will also be returned to a supply point for laundering, except those used in center infirmaries which will be handled as above.

(3) Mattresses used in center infirmaries, when bundled, will be marked "To be sterilized - used in hospital," and shipped to supply point designated for sterilization.

(4) All subsistence stores remaining in center stock will be returned to the supply point from whence they were forwarded to the centers, except broken lots, broken packages and/or containers. In the case of broken packages and/or containers, it is supposed that the Center Manager will make arrangements to ship such items to the nearest Wartime Civil Control Administration Center, still in operation, for its use.

(5) Cots, steel; cots, canvas, folding; mattresses (other than those used in hospitals - see paragraph 4, above), and kitchen and tableware will be packed and crated for shipment, and shipped as directed by the Quartermaster, Western Defense Command and Fourth Army.

(6) Desks, typewriters and other office equipment or machines will be disposed of as may be directed by the Quartermaster, Western Defense Command and Fourth Army.

(7) Equipment presently in use in the various center exchanges will be disposed of as directed by the Quartermaster, Western Defense Command and Fourth Army, when advice is received from higher authority as to proper disposition of this class of equipment.

h. The center manager will make available to the commanding officer of the supply team such transportation as is available to assist in the transportation of all Army supplies to the railhead from whence they are to be shipped.

i. All articles of kitchen and tableware are to be turned over to the commanding officer of the supply team in a clean condition suitable for reissue.

j. The matter of unserviceable property and salvage is one for the decision of Wartime Civil Control Administration and camp manager, and the Army will not take steps to dispose of same.

k. Army vehicles which have been shipped to the center manager will be turned over to the commanding officer of the supply team upon closing of the center for such disposition as may be decided on by the Quartermaster, Western Defense Command and Fourth Army. However, all gasoline and oil used in these vehicles to transport equipment to the railhead will be a responsibility of the center manager to furnish.

1. Medical property belonging to the Army will be packed and crated in accordance with such specifications and shipped to such points as the Surgeon, Western Defense Command and Fourth Army may desire. Advice will be given to the Quartermaster, Western Defense Command and Fourth Army, so concurrent packing, crating and shipping may be effected. Any medical property other than Army, such as United States Public Health Service, will be handled in such a manner as may be agreed upon by Wartime Civil Control Administration and the loaning agency.

4. In the event of any difference of opinion between the center manager and the commanding officer of the supply team the matter will be referred to the WCCA-WPA Liaison Officer, who it is understood will accompany the supply team. In the event the decision of the Liaison Officer is considered by the commanding officer of the supply team as biased, he will promptly report the matter to the Quartermaster, Western Defense Command and Fourth Army, for decision as to action to be followed.

HEADQUARTERS WESTERN DEFENSE COMMAND AND FOURTH ARMY
OFFICE OF ASSISTANT CHIEF OF STAFF, CIVIL AFFAIRS DIVISION
WARTIME CIVIL CONTROL ADMINISTRATION
San Francisco, California

WCCA

June 26, 1942

SUBJECT: Japanese Evacuation Operations, Military Area No. 2

TO: All Civilian Agencies
Wartime Civil Control Administration

1. The procedure for the evacuation of all persons of Japanese ancestry, both aliens and non-alien, from the California portion of Military Area No. 2 will follow the operations procedure utilized for the evacuation of Military Area No. 1 under instructions contained in the letter, this Headquarters, dated April 23, 1942, except as hereinafter provided.

2. All persons of Japanese ancestry residing in the California portion of Military Area No. 2 will be evacuated to Relocation Projects and are to be advised to take with them on departure, in addition to bedding, linens, toilet articles and clothing, personal property essential for housekeeping, but not to exceed 150 pounds for persons over 11 years of age, and not to exceed 75 pounds for children under 12 years of age. Substantial household items, such as refrigerators, washing machines, pianos and heavy furniture will be temporarily stored, to be shipped to Relocation Projects at a later date. However, smaller items of personal property may be shipped by the evacuees at their own expense, by parcel post or express, to the Relocation Project.

For the Assistant Chief of Staff, Civil Affairs Division:

Ira K. Evans
