Employment offers for the month of March 1943, was considerably greater than for any preceding period. There were a total of some 340 job offers compared to some 650 offers for the entire preceding period from last fall

until Feb. 28, 1943.

The range of employment is still narrow, most of the offers being in the field of general farm and domestic work. However, there is a noticeable increase in the scope and number of employment offers in the skilled field.

The wage rates vary from \$10. a week for domestic work to \$1.50 an hour for a drill press operators and \$200-\$300 a month for a mechanical draftsman. Generally speaking, wages offered are fair to good.

The most noticeable and encouraging development this month was the increase in the employment offers, particularly in the skilled

field. The job offers totaled 867 of which 198 were in the skilled or semi-skilled field. This compares with the totals of 340 and 38 respectively for the month of March. The domestic and farm offers are still relatively high --- the percentage being 25% and 22% respectively of the total; but there is a trend downward, the percentages for the preceding month being 25% and 58% respectively.
