News Release

PROJECT NEWSPAPERS

FOR RELEASE ON RECEIPT:

Kansas City, Missouri -- (Special) -- The following news story appeared in the July 25, 1944 issue of the Evening World-Herald, Omaha, Nebraska. Approximately the same story was broadcast on the air by the World-Herald news commentator from station KOWH. This article may be of interest for direct quotation or for editorial comment.

Japanese-Americans from the west coast who have been relocated in the midwest "feel they are getting an awfully square deal," Leo T. Simmons, Kansas City, acting war relocation authority supervisor for the central area, asserted in Omaha Tuesday.

As a result, Simmons added, many of the 1,400 now living in the five-state area may locate permanently in the midwest after the war. Although the postwar plans of many are not yet settled, he said, as many as 40 per cent may decide not to return to the west coast.

Here for an inspection visit to the Omaha WRA office, Simmons denied reports that the evacuees are coddled in the relocation camps.

"Anyone who feels that the evacuees are coddled should live at one of the centers for a short time," he added. It's true that healthful conditions are maintained. The over-all cost of maintaining the centers, including food, education, administrative work and all other necessities runs only \$1.15 per day per capita, perhaps the lowest cost of any activity of its kind in history."

Explaining that WRA has 10 times as many job offers as it can fill, Simmons said most middleaged and elderly evacuees decline relocation offers because they fear unfavorable sentiment and dread the thought of beginning life anew in strange surroundings.

The Lincoln Star, Lincoln, Nebraska, carried a shorter version of this story in its evening edition, Wednesday, July 26, 1944.

COMFORT BAGS TO FRONTS

P.1 ✓ 5

As the day passes by there are many families within this center whose sons and husbands and brothers are serving in foreign lands, receiving heavy news continuously enclosed in a yellow envelope.

Within this center, there are many who voiced voluntarily, sending a comfort bag to the front. This gives courage to ^{Enelyn} Mrs. E. Miyake and ~~five other ladies~~ ^{who} who are the earnest sponsors to send comfort bags to the boys.

she (Mrs. Miyake)

~~The group~~ went to see Mr. Lindley, Project Director, and discussed the purpose. However, the meeting was concluded with a 100% result. Mr. Lindley expressed his hearty approval concerning the discussion, and ~~the group~~ ^{she} was taken to the Social Welfare Department where ~~they~~ ^{she} met Mr. Johnson, who also gave his thorough consent on the subject, and he will introduce the matter at the regular meeting which will be held on Thursday.

Recently we were told that a certain Nisei organization in New York sent out Christmas packages to the Nisei Service Men at the front. We, the residents of Amache are solemnly impressed by the action taken by the group to extend the comfort to the soldiers.

This action and interest should be taken by every individual within the center.

Certainly, the homes of the service men are the first to join the action and friends and others ought to send their share, *too.*

GOOD NEWS FOR FARM WORKERS

Pv (3)

Amache Relocation Information received good news from the south eastern states. According to the letters received from Louisiana, New Orleans, Georgia and Savanna.

There are about 100,000 acres of uncultivated land in New Orleans waiting for farm workers. The climate is suitable for vegetables all year round and its marketing is still a problem, it was said.

Regarding the report from Louisiana, the racial problem is very comfortable, and the housing is also completed for any people. But the only problem confronting is how to prepare this district as a permanent residence.

According to the American Geological Survey's report, these sections are very favorable in natural resources. The land is very productive; the abundant rain; and the products long period of growth: moreover, the means of transportation is very conveniently connected which gives the planters and shippers less worry.

The introduction of these new fields to the relocators gives the new interest of Relocation Information, Concerning the relocation of the six families to these regions.

A meeting was held and last Tuesday's problems were discussed among the executive committee of Relocation and many farm workers. It was decided at this meeting to send one or two representatives from this center to investigate the region thoroughly and make a report on the condition.

There are many other opportunities around New Orleans beside farming, there is a business opportunity for fishing which is said to be very prosperous.

The Relocation Information is collecting much information regarding the regions, and any persons who are interested in these regions are asked to inquire to Mr. Tajima or advisor, Dr. Okubo in the office.

The following eight items were asked by the Spanish Consul, Mr. Mott, at New Orleans, who represented the Japanese Government, visited Rohwer Relocation Center:

1. In the past, was there any friction of opinions between center authoritatives and the Japanese subjects? If any, what is the result?
2. Again, any physical punishment, if any, what is the reason?
3. Is there any demands, complaints or dissatisfactions made by the Japanese subjects in the center, if any, what are the contents?
4. With the above statements presented by the Japanese subjects to the authorities. Is there any action of threatening toward the residents.
5. Is there any action of insult caused by the administratives toward the Japanese subjects. Or is there any mistreatment received by the said subjects in order to satisfy the public opinion?
6. Is there any compulsory work enforced by the authorities of engineering work including repairment and recognized as dangerously poisonous work?

Compulsorily

7. It is the wish of your government to investigate thoroughly regarding the health, food and sanitation.
8. Present any report which calls the attention of the Spanish Consul, beside the above clauses given.

PLAN TO SEND COMMITTEE OF INSPECTION TO
SOUTHEASTERN STATES

Aug 5, 1944

P. I. V. (1)

The agricultural project areas in Louisiana and Georgia have already been mentioned in our last issue. However, on July 31 Mr. Tajima, Manager of the Relocation Information, called a meeting concerning the discussion on this favorable invitation from the mentioned states. Those who were present at the said meeting were Messrs. Knodel, McClelland, and Dr. Hoebel from the Social Analysis Department.

The area of cultivation is along the great Mississippi River about 100,000 acres, and after thorough investigation about the district resulted the most fertilized land; moreover, the all-year round vegetables can be produced.

The land will be more productive with the application of the special Japanese technique in regard to the cultivation and irrigation of these virgin lands which is promised by an experts comment on agricultural development. Furthermore, the transportation facilities are much more conveniently furnished to Chicago and New York and is much shorter than that of California, hence, the freight expense would be omitted in great amounts.

The representatives of the said meeting gave their full support and unanimously consented to the above suggestion. There was also a discussion regarding the offices in Chicago and New York respectively and the managing of the

~~of the~~ distribution of the products.

Mr. Lindley, our Project Director, was also very en-
appointed
thusiastic concerning the problem, and he named represen-
tatives in this group as a committee on this project, and
they will present the problem to the next Council and Block
Managers meetings and will proceed on the purpose of this
meeting immediately.

The committee has decided to send two or three persons
to inspect the region thoroughly, and have them make a re-
port for the further relocation of agricultural workers.

Soldier Regains Citizenship Through Service in U. S. Army

Sworn In as Citizen Despite Protest of Fellow Petitioner

ST. PAUL, Minn.—Cpl. Tech. Terry T. Toi, who once served for 11 months in the Japanese army and is now a member of the U. S. Army, was sworn in as a citizen of the United States on July 26 despite protests from a fellow petitioner for citizenship who refused to be sworn in alongside him.

Cpl. Toi was born in California and taken back to Japan with his parents when he was 17 years old. He married there, refused to stay and came back to America, but was forced to return again by his parents. While there he was drafted in the Japanese army.

Capt. Walter T. Tsukamoto of the judge advocate general department, who represented Cpl. Toi, told the court that Toi had joined the U. S. army 6 months before Pearl Harbor and is now engaged in deciphering Japanese documents.

Toi told Judge Robert C. Bell that he didn't want to be a Japanese.

"I can't be sent out of America to fight the Japs unless I get

my citizenship papers," he said. "All I want is to prove that I really mean what I say."

When Judge Bell had satisfied himself, he ordered a clerk to administer the oath and asked Audrey Miller, known as "Mimi" in a Chicago ice follies show, to come up and be sworn in at the same time. Miss Miller protested that she couldn't be sworn in as a citizen alongside "a man who belonged to an army that now is killing American boys."

After the oath was administered to Cpl. Toi, Miss Miller rushed from the courtroom. Whether she can be sworn in later was not determined. She was too overwrought to say anything more and court attaches were too amazed to comment.

Cpl. Toi said he expects to be shipped to the south Pacific soon.

 eight brought to trial
Five of the/~~nine~~ local youths/charged with petty larceny were found
guilty by the center Judicial committee Friday morning, July 28, stated
Harlow Tomlinson, chief of internal security, Monday. Three were
acquitted when they satisfied the committee that they had no knowledge of
the crime.

Five who were found guilty were listed as Art Maruyama, Ben Morikawa,
Herb Nakano, George Shoji Masuda and Tom Sugamura. They will be denied
gate passes for 90 days and must report to the internal security ~~with~~
department every week with their parents. While William Koseki, also
said to be implicated in the case, is in Denver, Colo., and will be tried

Letter TO THE EDITOR

THE WASHINGTON POST
July 28, 1944

TO THE POST EDITOR:

As a schoolman for many years on the Pacific Coast and in Hawaii, I have had a great deal of experience with Japanese young people. I therefore read your editorial "Law and Order" with great interest and approval. I would not be writing you but for the letter in the morning Post signed "D. D."

What he says of the Japanese people in the Japanese homeland is true. They have been thoroughly indoctrinated in the religion of Shintoism for generations. What he says of the American-born Japanese is entirely in error. I have had many opportunities to note their loyalty to America. I have seen that loyalty, and their attitude toward things American, create a cleavage between them and their parents. This revolt against their elders is in effect a revolt against their civilization. I have known young college trained Japanese who returned to Japan, thinking to help weld the two civilizations. Almost without exception they have found themselves profoundly unhappy and disillusioned.

I have heard Japanese children of all ages refer to "our ancestors" who fought the Revolutionary War, who wrote the Declaration of Independence, and the Constitution. Washington, Jefferson and Lincoln are their heroes. Democracy is their religion. In short, American-born Japanese, like the second and third generation Irish, Germans, Italians, and Greeks, consider themselves Americans. Furthermore, I have found that these young people of foreign parentages are, as a rule, more jealously American and more enthusiastically democratic than the descendants of the American Revolution who have come to take their nation for granted, and to be more complacent than formal in their attitude toward democracy.

Reports from Hawaii indicate that the American-born Japanese have been singularly loyal and clear of any implication in the Pearl Harbor tragedy. Since there are now no Japanese at liberty on the West Coast, it is hard to understand how they could be involved in the Port Chicago catastrophe. "D.D." argues entirely from supposition and inference. He indicates no evidence to support his assertions of Japanese disloyalty.

Furthermore, he forgets that the Americans interned in Japan are American citizens and that the young Japanese in American relocation centers are likewise American citizens.

Our racial discrimination against American citizens of Japanese parentage is all one morally with our discrimination against American citizens who are Negroes

continued from page 1

or Mexicans and Hitler's discrimination against the Jews. These young people are devoted democrats, idealistic and eager to dedicate themselves to America. It would be a tragedy for them to discover that their loyalty is spurned, their idealism mocked. It would be a greater tragedy to American democracy were we to create a Japanese ghetto. Justice and liberty are safe for any of us only when they are safe for all of us.

Lately many young boys and girls have been trekking out to Hide-away Lake for picnics, hikes, and swimming. The farm section heads are in favor of the young folks having their fun, stated Roy Nakatani, of the farm section, but he asks them to refrain from bothering unripened or ripened watermelons. Many melons have been cut open and left to rot; if this keeps up, the supply for this center will be greatly curtailed. Cooperation of parents and older folks are asked by the farm section in this matter before more drastic steps are taken.

After an over-all check-up by the farm office, they found only 181 regular farm workers including ± sixteen vocational ag. students.

These are tending approximately 2,600 acres of vegetables and feed crops in addition to ± 750 hogs, 900 heads of cattle, 11,000 chickens, and the slaughterhouse. Further boiling down of figures showed the following:

- 123 men on crop production
- 8 men on hog production
- 12 men on poultry farm
- 8 men on cattle production
- 9 men at slaughter house.
- 21 men on other details

WAR RELOCATION AUTHORITY

Release to AMs Wednesday, July 26, 1944 W

Secretary of the Interior Harold L. Ickes announced today that preparations have been completed by the War Relocation Authority at Fort Ontario in Oswego, New York, for receiving the group of nearly 1,000 European refugees who are being brought to the United States in accordance with the plan announced by President Roosevelt on June 9.

The group will be housed at the historic fort, the Secretary explained, for the wartime period in two-story barracks which have been remodelled into family apartments. Thirty barrack buildings have now been divided by partitions so that each contains eight apartments of varying size. These have been equipped with running water and supplied with cots, tables, chairs, and clothing lockers. Dormitory space has also been prepared for the individual refugees who are not attached to family groups, WRA officials said.

The War Relocation Authority, which was made responsible by the President for administration of the Emergency Refugee Shelter, will take over custody of the grounds at the Fort from the Army on July 28. A staff of approximately 40 WRA employees -- some detailed from the Washington office of the agency and others recruited for full-time work at the shelter -- is now stationed at the Fort making final arrangements for the refugees' arrival. Director of the Shelter is Joseph H. Smart, former field assistant director for WRA in Denver, and more recently stationed in Peru with the Office of the Coordinator of Inter-American Affairs.

Secretary Ickes said that during the first few weeks after arrival of the refugees, while WRA is registering them and completing the necessary health and security checks, visiting at the shelter will be permitted only by authorized representatives of the press and cooperating agencies. The group is being brought to this country outside regular immigration quotas and will be given sanctuary, according to the President's announcement, for the duration of the war.

At the shelter, the refugees will be provided with food, housing, and medical care. Small cash grants will also be made on the basis of individual need to cover minimum clothing essentials and personal requirements such as soap and tooth paste.

The War Relocation Authority is planning to rely on the refugees to the greatest possible extent for the performance of tasks incident to the operation and maintenance of the shelter and expects to have only a small staff of appointed personnel stationed at the Fort after the initial period of operations.

(over)

Information received from a WRA representative who is returning from Europe with the refugees indicates, it was announced, that most of the refugee group are Jewish with small contingents of Roman Catholics, Greek Orthodox, and Protestants. The principal nationalities represented are Austrian, Yugoslav, Polish, German, Russian, and Czech. The group is expected to arrive some time after August 1.

SPECIAL JOB OFFERS IN LINCOLN, NEBRASKA.

Food distribution is necessary war work. Therefore, the following positions should be of interest to persons wishing to relocate.

The Granger Brothers Wholesale Company in Lincoln, Nebraska, is one of the oldest and best established firms of its type in the state. They are in urgent need of ten men either Issei or Nisei.

The duties will consist of assisting with the unloading of cars of produce and other general work incidental to the operation of the fruit and vegetable warehouse. No tools are necessary and, of course, there are no machines to be operated. No physical examination is required. The business is partially unionized with the AFL, but joining the union is left to the choice of the employee. The rate of pay is 60¢ per hour with time and a half over forty hours with 10 to 15 hours per week overtime guaranteed. Men from twenty to fifty years old will be hired.

Trial Indefinite Leave is in effect in the eastern half of Nebraska. Mr. William L. Holland, Relocation Officer, has known Mr. Harry K. Granger for the past five years and personally recommends this offer.

YARD MAN WANTED

Mr. Harry K. Granger, Manager of the Granger Brothers Wholesale Company, Lincoln, Nebraska, wishes a yard man to take care of the yard at his residence which is located in a very exclusive neighborhood in Lincoln. An Issei is preferred and the salary will be \$100 per month. Temporary housing can be arranged with Mr. Frank Kuwahara, a Nisei resident of Lincoln who owns his own home not far from this neighborhood.

DOMESTIC COUPLE WANTED

Mr. Al Du Teau, manager of the largest Chevrolet sales and accessory firm in the Nebraska capital city wishes to secure the services of a domestic couple for his home. The duties for the husband would consist of yard work and general household duties for the wife. She would be expected to assist with the cooking and do some light laundry. The heavy laundry is sent out. The family is composed of Mr. and Mrs. Du Teau, a daughter age 10 and a son age 8. There are no other employees in the household. Mr. Du Teau's home is located in a very fine residential section of the city. The living quarters consist of a suite of two rooms with the private bath on the second floor. The large recreation room in the basement would be available for the use of the employees. The salary will be \$150 per month plus complete maintenance. Miss Mine Matsumoto is employed at the Chevrolet Company as a bookkeeper.

SENTIMENT AND HOUSING

Approximately 100 resettlers are living in Lincoln, Nebraska, many of whom are students. The sentiment in this city is very good, and all of the folks are getting along fine. Housing is relatively tight, but the Citizens Committee in Lincoln will assist anyone coming in Lincoln to find satisfactory living quarters.

Minority Group Problem Declared Acute

America can no longer postpone the problem of its racial and minority group attitudes, Alain Locke, Negro educator, declared to a Town Hall luncheon at the Biltmore Hotel yesterday.

"It is no longer a backyard question, nor a Southern question, nor a national question, but an international question," he stated.

Dr. Locke, a Harvard graduate, a Rhodes scholar at Oxford, and since 1912 on the Howard University staff, Washington, D. C., as a philosophy professor, maintained that continuance of present prejudices would present this nation to the world at "below its par."

He pointed out that Latin-America will judge us by our treatment of Indians, who form a large percentage of their populations, and Africa and the Caribbean—the latter with 26 Negro per cent—by our attitude toward Negroes.

This will become more important, he continued, as the power of the Spanish descendants gives way to up and coming young native engineers, technicians and the like, in the process of postwar industrialization.

Among such peoples as the Hindoos, probably the Chinese, and many other peoples of the Pacific, Russia "which has convince dall people that the theory of man being created equal can be carried out in modern social

practice," will exert far more influence than the United States if, according to the doctor, "we do not become truly democratic."

He attributed the faster spread of Mohammedanism as compared to Christianity to the fact that "color has no place" in the former in practice as well as in its tenets.

The key, Dr. Locke concluded, is not good will alone, but rather "free and equal access to equal opportunity," both in earning and spending.

S.O.S. TO RESIDENTS FROM AGRICULTURAL DEPT.

The following is the statement sent by Mr. Nakatani, manager of the farm work. The great sacrifice is rendered by the farm workers in every season. However, the critical condition is increasing at present time because of shortage of workers.

The farm workers are putting in everything in order to meet the demand of the residents, and produce everything they can ~~hold~~^{HOLD} on in the field.

We are asking the residents for volunteers to help in harvest.

The following sections need the people immediately:

Squash	30

HONOR ROLL OF AMACHE SOLDIERS

P. 1
3

In answer to the emergency call of Uncle Sam many of the Nisei evacuees volunteered their services and are still waiting for the next call. The soldiers who have already given their lives to protect the nation's worst crisis were deeply remembered and honored. Their sacrifices along the Italian fronts and in the Pacific, their actions have been magnificently merited by the ~~the~~ followers of the younger generation as well as the Issei parents. For the memory of the protectors of these soldiers, there stood a brilliant bulletin board decorated with electric lights which was erected for twenty-four hours, attracting visitors. The board is located on the eastern side of the Farm Division.

The board is decorated with the brilliant blue stars, and under it is scribed "Amache Japanese-American Service Men, 585." Its height is about 12 feet and the electric decorated part is about 3 feet in width.

Furthermore, the board is furnished by the cooperation of the Silk Screen, Carpenters and Electric Engineer Departments. Here again, we find the cooperative spirit among them.

GEN. DE WITT GETS SECRET ASSIGNMENT

Army Veteran Who Organized Defense of West Coast Undertakes Important Job in Europe In Replacing McNair.

Washington, Aug. 7.—(A. P.)—Lieut. Gen. John L. De Witt, who organized the west coast against the possibility of a Japanese invasion, is off to undertake an important job in the invasion of Hitler's Europe. Exactly what he is to do is a secret. The war department

assignment Sunday night said only: "Lieut. Gen. John L. De Witt has been ordered to the European theater to replace Lieut. Gen. Lesley J. McNair."

McNair was accidentally killed in France July 25. His assignment was never disclosed, but was known to be one of great importance.

General De Witt.

De Witt, who has been in the army since he left Princeton university for the Spanish-American war, is 64 years old—retirement age if the army did not want to keep him for his worth.

His most controversial job in his forty-six years of army service was in removing persons of Japanese citizenship or ancestry from the west coast following Pearl Harbor.

Some persons said he was too harsh, others said he was too lenient. But for his services as western defense commander the army gave him a bronze Oak Leaf Cluster to add to the Distinguished Service Medal he won in the World war.

In his personal relations, De Witt shows an air of quiet self confidence, that of a man who knows his job and means business.

A letter written by Pfc. Edwin Oki to his parents in Amache, explained his light casualty he received at the Italian front. He was wounded on his right arm extending to his right part of the chest, and also his right thigh has been shot through.

Thus was the condition which was reported in the casualty list, but the parents have been told that Pfc. Edwin's explanation regarding the wound seemed light because of his using the right arm to write the letter.

It must be quite a shock to Pfc. Edwin if he learns of his brother's death on the front.

HOPELESS TO RETURN TO HAWAII

Aug 16

There were several Japanese living in Hawaii who were interned immediately after the War, and have been conveyed to the states, learned it was hopeless to return to their homes in Hawaii. This was announced by Lt. Gen. Richardson.

Among the above internees there were few who have been granted relocation in Granada, on the basis of sons in the armed forces and became parolees.

However, some of the students who came to the states to study before the war were granted to return, and left in May.

Again, the permit was issued to Mr. S. Matsunaga of this center, who left in June. The ~~father~~ fathers of sons in the armed forces have applied for permission to return to Hawaii, but it is impossible to secure this permission. Mr. Konno from Hawaii has stated--since he interviewed W. R. A. officials regarding his application.

The reason is very clear that, unless there is a change in military regulations none of the parolees can be granted permission to return otherwise.

The following persons have requested the permission:

Miyata, Kyoichi	Yamada Tomokichi
Toyama, Tetsuo	Hayashi, Meijiro
Sato, Taichi	Nakatsu, Tsunaji
Iwasa, Sueji	Konno, Ichiro

Dear Mr. Konno:

We quote from a letter of July 29 which we have just received from Colonel A. M. Tollefson, Assistant Director, Prisoner of War Division, Headquarters Army Service Forces, Office of the Provost Marshal General, Washington 25, D. C.:

"The Provost Marshal General has directed that I communicate with you concerning a petition to return to the Territory of Hawaii which was submitted to this office on 25 April 1944 by the following ten Japanese aliens from that territory who presently reside at the Jerome Relocation Center: Taichi Sato, Kyoichi Miyata, Sueji Iwasa, Shozaemon Masaki, Koichiro Nakamura, Tetsuo Toyama, Tomokichi Yamada, Tsunazo Nakatsu, Meijiyo Hayashi, and Ichiro Konno.

"The petition of the above-named parolees was forwarded to the Commanding General, U. S. Army forces, Central Pacific Area, for his consideration and recommendation. A reply was received from the Commanding General dated 12 June 1944 stating that there is no change in the present policy prohibiting the return, for the duration of the War, of civilian aliens from the Territory of Hawaii who were evacuated to the Mainland of the United States for internment or to relocation centers. Accordingly, the petition was denied.

"It has been the policy of the military authorities in Hawaii to give every consideration to fathers of American soldiers, and on several occasions they have been paroled from internment when otherwise such parole would not have been granted. On the other hand, however, it has been their policy to permit no person who has been evacuated from Hawaii for internment, or relocation on the mainland, to return to Hawaii."

Bryan Stearns

Project Director Lindley in project instruction no. 4, supplement no. 2, effective September 1, 1944, to all project personnel stated that hours of duty for employees of this center will vary slightly from those previously made and were established as follows:

Appointed personnel: 8:00 a.m. to ~~12:00~~ noon, and 12:30 p.m. to ~~4:30~~ 4:30 p.m., Monday through Saturday.

Evacuee personnel: 8:00 a.m. to 12:00 noon, and 12:30 p.m. to 4:30 p.m., Monday through Friday. 8:00 a.m. to 12:00 noon on Saturdays.

These hours apply to all personnel, except in cases where a different schedule of hours has been established and approved by the project Director. Any schedule of hours varying from those outlined above, must be reported to and approved by the project director in advance.

It is expected that all employees will report for work at the established hours and will be on their jobs during their regular established work schedule. This is necessary, more so now than before, because of the additional work load brought about by the demands of selective service and the acceleration of the relocation program, stated Lindley.

A WORD OF REV. BABA'S 90th BIRTHDAY

Since entering this center Rev. Baba has been recuperating at the local hospital. He reached the age of 90 on August 11.

Rev. Baba was born in Kumamoto Prefecture on 3rd year of Ansei. During the first of Meiji to 14th year of Meiji, he spent most of his youth in militaristic activities in Tokyo. He returned to his native village after unsuccessful achievement in Tokyo, and opened a village School. Later he went to Korea to build his future foundation of activity, unfortunately he failed and decided to come to America in the 15th year of Meiji at the age of 32.

Since arriving in California, Rev. Baba was very active among the Japanese problems, especially the labor problems. After residing in Oxnard for 27 years he exterminated the gambling houses in that vicinity.

His religious interest occurred during the time when he was in Watsonville. He acted as a minister at the churches of San Diego, Oxnard, and Plowley counties. He also came to Denver.

At the age of 66, he entered Ohio Theological School and after graduation returned to Oxnard and continued his

The Human Cost of War

**Normandy Casualties 115,665;
Post Employe Dies on Saipan**

**U. S. Dead, 11,156;
Americans 60% of
Forces in France**

Supreme Headquarters, Allied Expeditionary Force, Aug. 5 (AP).—The Allies have suffered a total of 115,665 casualties in killed, wounded or missing in France from D-Day on June 6 through July 20, it was announced today.

Of these, United States casualties were 11,026 killed, 52,669 wounded, and 5831 missing, a total of 69,526. In addition, 130 were killed, 41 wounded and 312 missing in a prelanding exercise last April, when German motorboats attacked a convoy, it was disclosed. Thus the American casualties directly connected with the campaign totaled 70,009.

British losses were 5646 killed, 27,766 wounded and 6182 missing, a total of 39,594.

Canadian casualties were 919 killed, 4354 wounded and 1272 missing, a total of 6545.

Prime Minister Churchill, addressing the House of Commons Wednesday, said that when the invasion began the American and British forces were about equal in strength, but that now the American forces were large. He made a point that the losses of the British and Canadians were proportionately about the same as those of the Americans, saying, "It has been share and share alike all along the front."

On the basis of the casualty announcement, this would indicate that Americans composed 60 per cent of the forces in France, the British 34.4 and the Canadians 5.6.
