November 30, 1942

Memo To: Susumu Takao, Coordinator
Community Activities
Poston 3

From: George Wada, M. D.
Public Health Officer, Poston 3

Subject: Tackle Football

Several cases of severe injuries resulting from boys playing tackle football have been treated at the Medical Clinic and the Base Hospital recently.

Since adequate facilities are not available either in Poston 3 or at the Base Hospital, we request the discontinuance of such activities and all other violent sports. The Medical Clinic is, of course, equipped to handle minor injuries, but such injuries should be kept at a minimum and the present facilities be reserved for the treatment of illnesses occurring in Poston 3.

We know you readily realize our position in desiring to extend the best possible service to the community but we must have a certain amount of preventive cooperation from all departments.

Public Health Officer
Poston 3

GW/ys

December 1, 1942

To: All Block Managers
From: Public Health Department, Camp 3 Medical Clinic
Subject: Small pox Immunization Certificates.

In checking over the certificates on hand, we find that many people are still in possession of their certificates.

If these people do not turn in their certificates, we shall assume that they have not been immunized since 1940 and will therefore immunize them with the other people.

Please collect the certificates immediately and bring them to the Clinic.

Date _____

Memo To:: Police Department, Camp 3
From: Public Health Department, Camp 3 Medical Clinic
Subject: Chickenpox Quarantine

Chickenpox quarantine for two weeks, starting today, has
been imposed upon:

List of names

Date _____

Memo To: _____

From: George Wada, M. D.
Public Health Officer
Medical Clinic, Poston 3

Subject: Sterilization of Eating Utensils

You are hereby informed that _____
of your family is ill with _____.
All dishes used by this patient should be washed in a
separate container with BOILING HOT WATER AND SOAP for
sterilization.

We recommend the use of one set of dishes for the
patient until his recovery from his illness. This set
of dishes should be washed by you and kept at home.
Bring them to the mess hall only when you are going to
get meals for the patient.

If you have CLOROX or PHEX or some disinfectant
of similar nature, the use of the same in washing the
dishes is highly recommended.

Your cooperation in this matter is most desirable
for the welfare of the community.

George Wada, M. D.
Public Health Officer
Poston 3

GW/ys

December 2, 1942

Memo To: Department of Education
Poston 3

From: George Wada, M. D.
Department of Public Health
Medical Clinic, Poston 3

Subject: Chickenpox Quarantine for Contacts

Effective today all Chickenpox contacts
will be quarantined at the end of the first week
instead of the former second week.

I feel this action necessary in order to control
the disease more effectively.

We thank you for your cooperation in this present
e p idemic.

George Wada, M. D.
Public Health Officer
Poston 3

GW/ys

Date _____

Memo To: _____

From: Public Health Department, Boston 3

Subject: Quarantine for Chickenpox Contacts

The Public Health Department requests your cooperation in enforcing a Quarantine on children who have not had Chickenpox. The period of Quarantine is to be two (2) weeks, starting today, during which time the children should be kept at home under close observation. If a child should break out with Chickenpox a report must be made to the Clinic immediately.

December 8, 1942

Memo To: All Kitchen Stewards and Chefs
From: Public Health Department, Poston 3
Subject: Pot Holders

The Public Health Department of Camp 3 would like to suggest that each Kitchen acquire at least two (2) dozen pot holders. The size recommended is 10" x 10" square with at least $\frac{3}{8}$ " thickness padding.

We recommend this in order to give better protection to the Kitchen Crews against burns and scaldings of which there have been numerous cases. It is to the interest and safety of the Kitchen crews to be provided with as much protection as possible.

Public Health Department
Poston 3

TT/ys

December 14, 1942

Memo To: All Block Managers
From: George Wada, M. D.
Public Health Officer, Camp 3 Medical Clinic
Subject: Daily Survey of Vomiting and Diarrhea

There has been a preponderance of vomiting and Diarrhea or both for the past few weeks.

The Public Health Department needs your cooperation in making a daily survey of these cases. We are enclosing a sample form which we would like you to follow.

The period for the daily survey is to be from December 14th to December 20th. Please turn in a daily survey to the Clinic starting December 15th. Thank you.

George Wada, M. D.
Public Health Officer,
Camp 3

GW/ys

December 21, 1942

MEMO TO: ALL KITCHEN STEWARDS

FROM: GEORGE WADA, M. D.
Public Health Officer
Poston 3

SUBJECT: Communicable Disease Quarantine

All kitchen employees, regardless of age, who have children, brothers or sisters at home with any infectious diseases (refer to attached list) are ordered to stay at home until such quarantine is lifted by the Public Health Officer.

Too many cases of Chickenpox have occurred in Camp 3 because the children were not isolated properly and many cases not reported. Several adults have contracted Chickenpox so that extra care must be observed in the future for the welfare of the entire community.

When the Doctor finds a communicable disease present in a family, the family will be informed by him of the nature of the disease and a quarantine enforced.

The cooperation of all kitchen employees is necessary as each contact is a potential carrier of all communicable diseases.

All kitchen stewards will please explain this memo to all Issei employees so that they will understand clearly what is desired.

George Wada, M. D.
Public Health Officer
Poston 3

J. E. L. Burdick
Chief Steward

Mumps	Chaneroid
Opthalmia neonatrum	Whooping Cough

December 21, 1942

MEMO TO: ALL DEPARTMENT HEADS

FROM: George Wada, M. D.
Public Health Officer
Poston 3

SUBJECT: Small pox Vaccination

Smallpox vaccinations will be given to the residents of Poston 3 on Wednesday, December 23rd and Thursday December 24th.

Please release all workers who need vaccination on these two days from the hours of 2 to 4 p.m. People from Roku 1 will be vaccinated on Wednesday and people from Roku 2 on Thursday.

Your cooperation will be appreciated.

George Wada, M. D.
Public Health Officer
Poston 3

December 29, 1942

MEMO TO: ALL DEPARTMENT HEADS
FROM: George Wada, M. D.
PUBLIC HEALTH OFFICER
POSTON 3
SUBJECT: SMALLPOX VACCINATION READING

Smallpox Vaccination reading will be given to the residents of Poston 3 on Wednesday Dec. 30th and Thursday Dec. 31st.

Please release all workers who were vaccinated from 1 to 3 p.m. on the above dates.

People from Roku 1 are to come on Wednesday afternoon and people from Roku 2 on Thursday afternoon.

Your cooperation will be appreciated.

George Wada, M. D.
Public Health Officer
Poston 3

December 30, 1942

MEMO TO: BLOCK MANAGER

FROM: GEORGE WADA, M. D.
 PUBLIC HEALTH OFFICER
 POSTON 3

SUBJECT: SMALLPOX V ACCINATION READING

All people who were vaccinated on Thursday, December 24th, are to report outside the Medical clinic on Thursday, December 31st from 1p.m. to 3p.m. for Smallpox vaccination reading.

George Wade, M. D.
Public Health Officer
Poston 3

GW/ys/as

December 30, 1942

Memo To: Charles Nakamura
Transportation Office, Poston 3

From: George Wada, M. D.
Public Health Officer, Poston 3

Subject: Public Safety and Accident Prevention

Please caution all Truck, Tractor, and etc drivers and the fore we assigned to them to use all precautions for the safety of the Public.

This applies especially to the Garbage Truck and the Rubbish Tractors as they operate off the roads into the blocks. It has been noticed that the rubbish drows drop the rubbish containers without looking. This practice may and will lead to accidents which could be prevented by a few seconds of observation.

Please use your discretion in setting up Public Safety regulations and enforce them from your office.

George Wada, M. D.
Public Health Officer
Poston , 3
