**PROCEEDINGS**  
of the  
**1976 Pre-Primary Election Convention**  
of the  
**California Labor Federation, AFL-CIO**  
**(COPE)**

Wednesday, April 14, 1976  
The Orpheum Theater  
San Francisco, California

**Call to Order**

The convention was called to order by President Albin J. Gruhn at 10:30 a.m. in the Orpheum Theater:

"The Pre-Primary Election Convention of the California Labor Federation, AFL-CIO, is now called to order to transact such business as may legally come before it."

He then led the delegates in the pledge of allegiance to the flag of the United States of America.

**Invocation**

**Rabbi Saul E. White**  
**Congregation Beth Sholom**  
**San Francisco**

President Gruhn introduced Rabbi Saul E. White of Congregation Beth Sholom, San Francisco, who gave the invocation as follows:

"Our God and God of our Fathers, Americans in all walks of life observe this year this bicentennial of American independence. We reflect upon the glories of our past and with it the anxieties for the future.

"That the American experience has heretofore been a success cannot be doubted. Immigrants from every part of the world have built a society which has provided for the highest standard of living of any community in history. We have produced a science, technology and labor force unmatched by any other people. With infringements now and then upon individual rights and liberties, it has nonetheless been the most successful democratic society mankind has known. Our Constitution and Bill of Rights, continued to be protect-

ed by a Supreme Court, has challenged popular bigotries and prejudices.

"The American people, rooted in religious and humanistic traditions of concern for the welfare of their fellow man, have been generous and noble in helping to rebuild a devastated Europe and extending aid to the backward and underdeveloped countries of the world. In this we take pride and joy. But what of the present and what of the future?

"It is obvious that the resources of America's greatness in the past have not vanished in our day. We can build a future as great and noble as the past we celebrate. Our most valued resource is the American labor force, which is willing and able to move our economy forward.

"We hope and pray O God, from the deliberations of this assembly will emerge a strategy and plan that will put Americans back to work.

"O Lord our God that has been with us in generations past, be with us now and in the days to come."

**Welcome to Delegates and Guests**

**Albin J. Gruhn**  
**President**

**California Labor Federation, AFL-CIO**

President Gruhn then addressed the convention:

"In welcoming the delegates and guests to this 1976 Pre-Primary Election Convention of the California Labor Federation, AFL-CIO, I would remind you that I do so in the year of our nation's bicentennial celebration.

"As we review the history of our nation

over the past two hundred years, we find without exception that our free trade union movement has been in the forefront of the economic and political struggle to improve the conditions of life and labor for all workers irrespective of their national origin, race, color, creed, sex, or age.

"Let us pause for a moment in our deliberations in this bicentennial year and reflect on those pioneers of the labor movement who gave their lives and their treasure unselfishly, in unselfish devotion to the cause of organized labor's unending struggle for the dignity of the human individual, for freedom, for democracy on the industrial and political scene, for equal rights and equal opportunity for all citizens.

"Yes, we have come a long way; yet there are too many within our ranks who take for granted organized labor's accomplishments in the past two hundred years for a better life for the workers and their families of this great country of ours. A reading of organized labor's bicentennial history as published by the AFL-CIO would be beneficial to all. It will serve as a constant reminder of where we came from and how we got where we are today.

#### **Rededicate Ourselves**

"Let us, therefore, at this Pre-Primary Endorsement Convention, rededicate ourselves to the work that has been so nobly carried on by organized labor's pioneers before us. Yes, much has been accomplished, but much yet remains to be done in this ever-changing, complex society and world we live in.

"In a democracy, in the free trade union movement, our work is never done. Free choice elections of our local, state, and national government leaders are a continual periodic happening. New election victories for organized labor must be continually won if organized labor's legislative, administrative, and executive goals in government are to be advanced and secured. This convention is an integral part of this process, which must be supplemented by a grassroots local union, local council program of voter registration of their members and their families, issue education of their members and their families, and get-out-the-vote of the members and their families for labor-endorsed candidates on election day.

"Let us therefore resolve in this bicentennial year of 1976 that we will unflinchingly continue organized labor's role as the force for progress in the years ahead. Let us never be satisfied with the status quo. Like the first President of the AFL, Sam-

uel Gompers, who when asked the question—What does labor want?—he said: 'More; more jobs with good pay and decent working conditions, more and better schools to educate our children, more and better housing for the workers and their families, and more of everything that enhances freedom and democracy and the human dignity of all who toil.'

#### **What Labor Wants**

"In this year of 1976, organized labor continues to want more; more jobs, not more Presidential vetoes and so-called environmental roadblocks; more collective bargaining rights for all workers, not repressive legislation; more social insurance benefits, not roadblocks of the benefits already attained; more real tax reform, not more loopholes for those who can more easily afford to pay their fair share; more housing for low and middle income workers, not more de facto segregated housing that can only be afforded by the wealthy; more educational opportunities for all of the people, not blockaded by tuition fees, large classroom sizes, poorly paid teachers, and a lack of academic freedom; more effective enforcement and implementation of the civil rights and equal rights of all Americans, regardless of race, color, creed, sex, or age; more concern for the general welfare of our beloved country, not the dollar sign that guides the multinational corporations who care less about the economic, social, and democratic institutions of the United States of America; more concern about human rights and freedom in all parts of the world, not appeasers who negotiate to the advantage of communist and fascist dictatorships, who would destroy the last bastion of freedom, the free trade union movement.

"I could go on and on with regard to organized labor's checklist of unmet needs, but all will be for naught unless we register, educate, and vote. We have a great responsibility for the future destiny of our nation and for those who love and yearn for democracy, freedom, and individual human dignity in all parts of this small planet earth.

"Lest we forget, Abraham Lincoln said, 'Labor is prior to capital . . .' Without labor, capital is nothing. Theodore Roosevelt said, 'Speak softly, but carry a big stick.' Franklin D. Roosevelt said, 'The only thing we have to fear is fear itself.' And John F. Kennedy said, '. . . ask not what your country can do for you; ask what you can do for your country.'

"With these thoughts in mind, let us con-

duct ourselves as free trade unionists should, in unity of purpose, for this gives us strength. United we shall overcome, divided we shall fail. Let the union—yes, let the union and our country, not the politicians, be uppermost in our minds and thoughts as we proceed with the business before us today.

"Thank you. God bless you."

## **Report to the Convention**

**John F. Henning**

**Executive Secretary-Treasurer  
California Labor Federation, AFL-CIO**

Chairman Gruhn then called upon John F. Henning, Secretary-Treasurer of the California Labor Federation, AFL-CIO, for his report to the convention.

Secretary-Treasurer Henning spoke as follows:

"Thank you, very much, Al, Delegates.

"The essentials of the Secretary-Treasurer's Report required by the constitution are in the program. I would speak just briefly to the major points.

"But before doing that, I wish to announce that following the adjournment of this convention, we would ask all of you to join in a march, which the Executive Council will lead, together with the officials of the San Francisco Labor Council and the Joint Strike Committee, from this theater to the city hall, where we will have a rally on the city hall steps. We have a permit for the demonstration, a peaceful demonstration at the city hall, where we will rally in support in defense of the strikers of San Francisco.

"Never in forty years in this city—those of us who were born and reared here can testify to this—has there been such violent attack upon the very existence of trade union freedom as there has been in the past two weeks by the Board of Supervisors of this city. And it's a reminder to all of us what we are here for today. We are not here to endorse political street-walkers; we are here to endorse people who stand with us when the chips are down.

"There is not one member of the Board of Supervisors of this city who has come out for labor in this crisis, not one.

### **Enemies of Labor**

"They not only supped at labor's table in the past in this city, they came as young political candidates to have their careers fostered by the trade union movement. And where are they today? They

are the enemies of the San Francisco labor movement, which means they are the enemies of the state labor movement and the national labor government. And never forget their names, because many of them have political ambitions; many of them aspire to state office and national office. And if we ever forget what they have done to malign the leadership of this movement in this city, to speak with contempt of the aspirations of the working people, then we don't deserve to have any kind of conditions that are proper and adequate in San Francisco.

"Al Gruhn mentioned Gompers' doctrine of more, applying it to the social area as well as immediate wages, hours and conditions of work, more of the good things of life. The President of the Board of Supervisors ridiculed that doctrine in a public statement two or three days ago, and he said labor must negotiate down.

"Well, we can remember when many of these members of the Board came with their two-bit resolutions to some labor testimonial. They ought to keep them. We don't want them. They run around with those little framed resolutions and think they have the labor vote. They come to labor luncheons, banquets, labor halls. Where are they when the rights of the city employees are on the line?

"The President of the Board of Supervisors of this city is an enemy of the labor movement, and so is every Supervisor who stood with him. Let's remember that.

### **1974 Election Results Reviewed**

"Now on a more encouraging side, a quick review of what happened two years ago as a result of the endorsements of State COPE, the State AFL-CIO:

"The United States Senator seeking office, endorsed by us, won. Every statewide office was carried by the State AFL-CIO endorsements. That is, all of the statewide officers—Governor, right through the line, down to Secretary of State. We won 30 of the 43 congressional seats. We won 55 out of the 80 assembly seats. We won 25 out of the 40 state senate seats. We won all of the Board of Equalization seats.

"We are realistic. We know that time was going with us. We know that the filth and corruption of conservative America made it possible for liberal America to win great victories two years ago. That's another lesson. Conservatism has nothing to offer unionism, nothing to offer this country, only the corruption of the ideals of the American people, the corruption of

the ideals of the youth and when they can try, the corruption of the principles of the trade union movement.

"Liberalism is our only road. It's a hard road at times. It's difficult, but it's the only way forward for all of us.

"Thank you, very much."

### **Partial Report of Committee on Credentials**

**Loretta Riley, Chairwoman**

Chairwoman Riley reported that the committee recommended that the delegates listed in the Preliminary Roll of Delegates, as printed and presented to the convention, be seated according to the constitution of the California Labor Fed-

eration, AFL-CIO.

She then read the additions to and deletions from the Preliminary Roll of Delegates. (See completed Roll of Delegates.)

Chairwoman Riley then moved adoption of the committee's report.

The motion was seconded.

At this point, Delegate Tony Hoffman (Machinists Lodge No. 68, Burlingame) asked why Machinists Lodge No. 68 had not been listed in the convention program booklet in the roll of delegates.

Chairwoman Riley explained that this was merely a *preliminary* roll of delegates to which a partial report had been made and that Lodge No. 68 should appear in later additions and deletions to the roll.

Delegate Frank Souza (Automotive Machinists No. 1305, San Francisco) noted that in announcing the additions and deletions concerning Automotive Machinists No. 1305, J. B. Martin had been replaced by Gerald Hiner, when it was intended that Gerald Hiner should be replaced by J. B. Martin.

Chairwoman Riley requested Delegate Souza to meet with the committee later and the adjustment would then be made.

### **Report Adopted**

Thereupon, the motion to adopt the committee's report was carried.

## **Report of Committee on Rules and Order of Business**

#### **Report Adopted**

Chairman Edney's motion to adopt the committee's report was seconded and carried.

## **Report of Standing Committee on Political Education and Endorsements by the Convention**

**John F. Henning, Executive Secretary-Treasurer**

Secretary-Treasurer Henning was next called upon by Chairman Gruhn for a report of the Standing Committee on Political Education.

Secretary-Treasurer Henning spoke as follows:

"Mr. Chairman and Delegates, the Executive Council of the California Labor Federation, AFL-CIO, met at the TowneHouse Hotel, San Francisco, Tuesday, April 13, 1976, to consider candidates for election to the United States Senate, positions on the fifteen (15) ballot propositions, and local COPE recommendations for election to the House of Representatives, State Senate, and State Assembly on the June 8, 1976, primary election ballot.

"In certain instances where no recommendation was received for the office in a party from the local COPE or from the appropriate area or district political organization in such area, a recommendation has been made by the Executive Council,

which recommendations are preceded by an asterisk, referring now to our program.

"In certain instances, recommendations of the local COPE or the appropriate area or district political organization were rejected by the Executive Council by at least a vote of two-thirds of the membership eligible to vote of said Executive Council and recommendations were then made by the Executive Council. These recommendations are preceded by a double asterisk.

"The following recommendations are accordingly submitted by the Executive Council for the designated offices in your program:"

#### **United States Senate**

The Executive Council recommended:

Democratic: **John V. Tunney**

Republican: **No Endorsement**

Secretary-Treasurer Henning's motion to adopt the Executive Council's recommendation was seconded and carried.

### Procedure Explained

Before going into the recommendations for the offices of Representatives in Congress, the State Senate, and the State Assembly, President Gruhn explained the procedure to be used in determining the endorsements by the convention.

The Secretary-Treasurer would read the list of the Executive Council's recommended endorsements. Should a question arise

concerning any recommendation for any district, the delegate objecting should request recognition from the Chair and ask that the recommended endorsement in question be set aside, to be taken up separately after the other recommended endorsements are acted upon.

Secretary-Treasurer Henning then read the list of recommendations submitted by the Executive Council for Representatives in Congress.

Speaking in opposition to the Executive Council's recommendation were Delegates Jesse Bernard (Hod Carriers and Common Laborers No. 294, Fresno), James Lee (State Building and Construction Trades Council of California, Sacramento), and William Parker (Tulare - Kings Counties Central Labor Council, Lemoore).

Delegate Hal Shean (Machinists and Aerospace Workers No. 727-A, Burbank) spoke in support of the Executive Council's recommendation.

The Chair ruled that the motion to adopt the Executive Council's recommendation failed to receive the necessary two-thirds vote and then called for a Division of the House.

#### **Division of the House**

Delegate Robert Gilmore (San Mateo Building and Construction Trades Council, San Mateo) requested a Division of the House.

#### **Recommendation Adopted**

Based on the results of the Division of the House, Chairman Gruhn ruled that the motion to adopt the Executive Council's recommendation for Congressional District No. 17 was carried by the necessary two-thirds vote.

#### **DISTRICT NO. 18**

Secretary-Treasurer Henning moved the adoption of the Executive Council's recommendation for Congressional District No. 18. His motion was seconded.

Delegate Aggie Mears (Hotel, Restaurant Employees No. 550, Bakersfield) spoke in opposition to the Executive Council's recommendation.

The Chair called upon Secretary-Treasurer Henning who explained that the Executive Council had no information from the three trade union jurisdictions involved in Congressional District No. 18 and stated that there would be no objection to overturning the Executive Council's recommendation and someone making a new recommendation by a motion put before the convention.

Following this, Delegate Raoul Teilhet (California Federation of Teachers, Burbank) spoke in opposition to the Executive Council's recommendation.

Delegate Tony Ramirez (Plumbers and Steamfitters No. 467, Burlingame) asked for clarification on the meaning of the two-thirds vote.

Chairman Gruhn, in response, cited Sec-

tion 5 of Article XV, F, of the Constitution of the California Labor Federation, AFL-CIO:

"With respect to convention action, all endorsements shall be by at least a two-thirds majority vote of the delegates present and voting, in accordance with the per capita formula specified in this constitution."

Having explained that the vote would now be on the motion to adopt the Executive Council's recommendation for Congressional District No. 18, the vote was called for and the motion lost, failing to receive the necessary two-thirds majority.

Delegate Aggie Mears (Hotel, Restaurant Employees No. 550, Bakersfield) moved that Democrat Dean Close be endorsed and "No Endorsement" on the Republican ticket. Her motion was seconded.

Delegate Dale Marr (Operating Engineers No. 3, San Francisco) spoke in opposition to the motion and Delegate Raoul Teilhet (California Federation of Teachers, Burbank) spoke in support of the motion.

#### **Dean Close (D) Endorsed**

The motion to endorse Dean Close, Democrat in the 18th Congressional District, was carried.

#### **DISTRICT NO. 19**

Secretary-Treasurer Henning moved the adoption of the Executive Council's recommendation for Congressional District No. 19. His motion was seconded.

Delegates Mike Weimer (Ventura Federation of Teachers No. 1981, Ojai) and Ed Lacey (Santa Paula Federation of Teachers No. 2071, Santa Paula) spoke in opposition to the Executive Council's recommendation.

Delegate William Palm (Carpenters & Joiners No. 1913, Van Nuys) asked why the Executive Council did not endorse a candidate in the 19th Congressional District.

Secretary-Treasurer Henning responded by stating that the Executive Council "received no recommendation from the Tri-Counties central body. . . ."

Delegate Bud Harr (Painters No. 741, Martinez) suggested that the delegates be given more background on candidates seeking endorsement.

Delegate Ian McIntyre (Communications Workers No. 11504, Ventura) asked what information was available to the Executive Council regarding any Democratic

candidates running in the 19th Congressional District.

Delegate Ed Lacey then explained that due to a bureaucratic mixup in the Tri-Counties Central Labor Council, a letter from that organization to the Executive Council did not get out in time.

Secretary-Treasurer Henning referred to a letter dated April 1st, unsigned, and in the name of Patrick Riley, Secretary-Treasurer. He read from the letter as follows:

"'In any of the Congressional Districts of the Tri-Counties, we are not making any recommendation for the primaries.'"

Secretary-Treasurer Henning then urged adoption of the Executive Council's recommendation.

#### **Recommendation Adopted**

The motion to adopt the Executive Council's recommendation for the 19th Congressional District was carried.

#### **DISTRICT NO. 40**

Secretary-Treasurer Henning moved that the Executive Council's recommendation for Congressional District No. 40 be adopted. The motion was seconded.

Delegate Pete Rimmel (Orange County Central Labor Council, Garden Grove) spoke in support of the Executive Council's recommendation.

Delegate Raoul Teilhet (California Federation of Teachers, Burbank) spoke in opposition to the Executive Council's recommendation.

At this time, Delegate Pete Rimmel commenced to speak again but Delegate William Finley (Communications Workers No. 9423, San Jose) raised a point of order, indicating that no one should speak twice on the same motion until everyone had had an opportunity to speak.

Chairman Gruhn confirmed this by citing Rule 14(f) of Roberts Rules of Order:

"No delegate shall speak more than once on the same subject until all who desire to speak shall have had an opportunity to do so; nor more than twice on the same subject without permission by a majority vote of the delegates present and voting; . . ."

Following this, Delegate David Barreira (Orange County Central Labor Council, Garden Grove) spoke in support of the Executive Council's recommendation.

The previous question was moved by Delegate Z. L. Huggins (Electrical Workers No. 441, Santa Ana).

His motion was seconded and carried, thereby closing debate.

Secretary-Treasurer Henning then spoke in support of the Executive Council's recommendation.

### **Recommendation Adopted**

The motion to adopt the Executive Council's recommendation for the 40th Congressional District was carried.

Secretary-Treasurer Henning moved adoption of the Executive Council's recommendations for the U.S. House of Representatives as amended and as a whole.

The motion was seconded and carried.

### **Introduction of**

### **U.S. Senator John V. Tunney**

Chairman Gruhn next introduced the endorsed candidate for U.S. Senator, John V. Tunney, for his remarks:

"Delegates, it is now a privilege for me to present to you for some remarks, the endorsed candidate for the United States Senate, State of California, the man who has a splendid record in the United States Congress in support of labor's position and who took an active part when the chips were down, when we had that guy in the White House, Richard Nixon; one of the first members of Congress who called for the impeachment of President Richard Nixon; our United States Senator, John Tunney."

The Escort Committee led U.S. Senator Tunney to the platform for his remarks.

### **Remarks**

### **The Honorable John V. Tunney**

### **United States Senator**

"Thank you.

"President Gruhn, Secretary-Treasurer Henning, convention delegates, I stand before you humbly to thank you for the endorsement that you have just given to me. I can assure you that it is an endorsement of which I am very proud. I think that it is an endorsement which is reflective of the fact that for the past five years that I have been in the Senate, I have seen eye to eye with the AFL-CIO on practically every major issue. We have had some very good fights together that we have won; we have had some fights that we have lost and that we are going to have to go back and win again. But I would like to say the best way to assure that we can win these fights is to elect a Democrat to be President of the United States.

"Now we hear an awful lot today about what we can't do. And recent polls show that the people think that the past is better than the present and the present is better than the future. I don't think there has ever been a time when institutions are at such a low level of disrespect. Labor leaders and politicians are at the bottom of the heap. And we know that we have done our best to help our constituents, we have done our best to improve the lot of men and women, and yet our best efforts are not rewarded with respect. We feel hurt; we feel rejected; we feel disbelieving.

"My only advice is to persevere with beliefs and programs that will make this society a better place in which to live, to work and to create. We are as a country reacting with disgust to the lies of Vietnam and Watergate, to the evils of the CIA and FBI excesses, to a decade of inflation and the cruel hardships of recession, to a climate of fear inspired by a national crime wave, to the disintegration of traditional values and to the pardoning of an ex-President before he had a chance to stand before the bar of justice.

### **Problems Can Be Solved**

"I'm here to say that all this spiritual discontent, all the problems facing our country and the world are people-made problems; and being people-made, they can be corrected by people. We can have a better life in this country if we have the guts to fight for it and if we demand that our leaders tell us the truth, not just some of the time, but all of the time.

"I, for one, reject out of hand the trendy new concept that a limit must be placed on our economic growth. If we put a limit on economic growth, we are going to have to put a dictator into the White House to enforce it, and we are going to have to tell millions of Americans that they are destined permanently to be unemployed; that there are no jobs for them now or ever in the future.

"What we need is a government that has the wit and the will to design an economic system that puts people to work and not on the dole. We need jobs, jobs, and more jobs.

"I fought for that kind of an economic system since I came to the Congress 12 years ago. In the Senate I support the Humphrey-Hawkins Bill, and I support the Tunney Bill, which will create one million jobs in the private and public sectors. I'm proud of the Tunney Amendment, which passed the Senate just yes-

terday. And it's going to provide \$30 million more to California and is going to create at least six thousand more jobs in this state that, if it hadn't been for that amendment, would have gone to other states in the country.

"I have said that it costs as much to keep a person on welfare as it does to give them a job. And it's criminal negligence not to provide a job for every man and woman in this country who is able-bodied and who wants to work.

### **Energy Sources**

"I have said that we must spend money on research and development to develop all energy sources in this country and to break the back of OPEC control over this economy. And that includes nuclear energy.

"In the Senate I have been against the involvement of this country in a civil war in Angola, 10,000 miles from our shores. I have said that the place to stand up to the Russians is in Moscow, not in Luanda.

"I have introduced legislation to prevent this country from ever getting involved in another foreign war without approval of the Congress first.

"I fought for a strong defense. I have said that a B-1 Bomber is part of that defense. I have for four years struggled to get legislation through the Congress which will protect the workers and the society from toxic substances, and I have resisted the chemical industries lobby to water down the bill. I'm proud to say that my bill, in an unwatered-down form, passed the Senate last month, and it is now in the House of Representatives. And it can pass the House this year, and it can go through conference this year, and it can be signed into law this year. And maybe in the future years we'll prevent millions of Americans from dying of cancer.

"I have worked hard for antitrust legislation that is going to make this economy truly free and truly competitive. My bill on anticompetitive activity was the first bill to pass the Congress in twenty-five years on the antitrust laws, and I'm co-sponsor of two other bills, one which would break up the oil companies and make them competitive, and the other would give the U. S. Attorney General the power to enforce the antitrust laws against the monopolistic behavior on the part of large corporations.

"I have exerted efforts to preserve the

Bill of Rights, to protect individual freedom.

"I have told Kleindienst and Patrick Gray, 'No,' when Richard Nixon wanted them to be Attorney General and head of the FBI. I called on Richard Nixon to resign a year before he did. I was one of three Senators to help draft the charter for the special prosecutor, which gave to Leon Jaworski and to Archibald Cox the freedom to rout out the septic evil called Watergate. And I oppose S.1, a back door attempt to restrict civil liberties under the guise of reforming the Federal Criminal Code. I believe, however, that our criminal laws ought to be overhauled and the punishment ought to fit the crime. People who commit major crimes should know that they are going to go to jail if they are convicted.

### **Uniform Sentences**

"Committing a crime with a gun is a major crime in my book. And sentences ought to be uniform. People who steal \$28 million, as someone did recently down in San Diego, instead of getting a \$30,000 fine ought to go to jail.

"Appeals ought to expedited. In other words, what I am saying, we ought to make the cost of criminal conduct such that criminals are going to realize that the benefits do not outweigh those costs.

"Taxes must be reformed. Everyone ought to pay his or her fair share. I don't object to private capital; I applaud it. But I say that we ought to have a tax system that is equitable in this country.

"Every person in America ought to have decent health care as quickly as this country can find the resources to provide it, and we ought to provide those resources soon.

"I think that farm workers must receive justice not only in California, but throughout the country.

"The inspirational leadership of Cesar Chavez should be extended beyond the borders of California.

### **Faith in Government**

"Finally, we must restore trust in government. The struggle is going to be long and it's going to be difficult, and it's not certain that the struggle can be won. But it's too important a fight to turn away from, because on the outcome rests the kind of a country that we are going to leave to our children. I know that you want to leave to your children the same kind of a land that our parents left to us,

a country that is free, a country in which a person has an opportunity to work at the job that he wants or she wants, and a country in which every person has an opportunity for upward mobility. That's the kind of a country that we all want.

"But it depends upon honesty, integrity, and upon returning our institutions to the people. That's what I want to be part of, and that's why I'm honored by your endorsement.

"Thank you very much."

The Escort Committee was requested by Chairman Gruhn to lead the Senator from the convention floor.

### **Partial Report of Committee on Credentials**

**Loretta Riley, Chairwoman**

The Chair then called upon Loretta Riley, chairwoman of the Committee on Credentials, for a further report.

Chairwoman Riley read the additions and deletions to the Preliminary Roll of Delegates. (See completed Roll of Delegates.)

She next moved that the report be accepted and her motion was seconded.

In the following order, delegates Tony Hoffman (Machinists Lodge No. 68, Burlingame), James Powers (Carpenters & Joiners No. 668, Palo Alto), Roger Stinson (San Diego City Fire Fighters No. 145, San Diego), L. J. Bruce (United Cement, Lime and Gypsum Workers No. 349, Tehachapi) and James Wheeler (Woodworkers No. 3-64, McCloud) noted that the names of their respective organizations had not been read in the additions and deletions to the Roll of Delegates.

Chairman Gruhn indicated that these matters would be looked into. In the case of the Woodworkers No. 3-64, that particular local had been listed in the program booklet.

### **Report Adopted**

The motion to accept the partial report of the Committee on Credentials was then carried.

### **Report of General Counsel**

**Charles P. Scully**

The Chair next called upon Charles P. Scully, General Counsel of the California

Labor Federation, AFL-CIO for a report.

Mr. Scully commenced his report:

"Mr. President and Delegates, with respect to action to be taken on the next two groups, State Senate and State Assembly, but not on ballot propositions, I should advise you that a ruling was issued by the California Fair Political Practices Commission, which in essence stated that those that were registered as lobbyists, to wit: The President, the Executive Secretary-Treasurer, and Vice President Finks could in no way become involved in any COPE activity.

"We subsequently, with the permission of President Meany, submitted a proposed amendment to the Constitution, which was approved for recommendation to the next regular Convention of the Federation in September, which would amend Article I, Section 1, by adding to Section F a new section reading in part as follows:

'Officers of the Federation, members of the Executive Council, and delegates to a special Pre-Primary Election Convention and/or a Pre-General Election Convention who are lobbyists within the meaning of the State of California Political Reform Act of 1974 shall have voice but no vote in the political recommendations and endorsement process relating to candidates for State and local office outlined in this article.'

"If there are any other delegates who are registered lobbyists under the Act, they fall within the same area. So on the next two categories, the record should indicate that with respect to State Senate and State Assembly, the individuals mentioned will not be voting, although they will be participating without the vote."

Chairman Gruhn called on Secretary-Treasurer Henning to read the list of endorsement recommendations for the offices of State Senate.

Delegate Richard Martin (San Diego Federation of Teachers No. 370, San Diego) asked a question regarding the Executive Council's recommended endorsement of candidates but Chairman Gruhn ruled the question out of order since the appropriate time to ask would be when the recommendation for the particular district in question is read.

Chairman Gruhn noted that Delegate Angelo Chancellor (Santa Clara County Fire Fighters No. 1165, Saratoga) had delivered a message to the Chair that he wished to withdraw his earlier request to set aside Assembly District No. 25. Delegate Chancellor confirmed this to be true.

Secretary-Treasurer Henning moved adoption of the Executive Council's recommendations for State Assembly with the exceptions of Districts Nos. 1, 26, 30, 33, 34 and 75 which had been set aside upon request.

His motion was seconded and carried.

#### **DISTRICT NO. 1**

Secretary-Treasurer Henning moved adoption of the Executive Council's recommendation for Assembly District No. 1. The motion was seconded.

Delegate Alex Cellini (Operating Engineers No. 3, San Francisco) spoke in opposition to the Executive Council's recommendation.

Delegate James R. Ryan (Plumbers and Steamfitters No. 607, Chico) claimed that a letter was sent from the Butte & Glenn Counties Central Labor Council recommending a dual endorsement.

Secretary-Treasurer Henning stated in reply:

"Mr. Chairman, we have a letter all right, but it doesn't come from the Central Labor Council. The only letter we have is from the Executive-Secretary Treasurer, Butte, Glenn & Plumas Counties Building Trades Council, dated the thirty-first. We have to have the recommendation from the local Central Council, under the rules and regulations.

"On the question of the dual endorsement, our Executive Council has no objection to the suggestion the Brother made for a dual endorsement. This would require rejection of the present Executive Council's recommendation."

Delegate Leo Hartland (Five Counties Central Labor Council, Redding) sustained the comments of Delegate Alex Cellini, declaring there had been a joint meeting of the Five Counties and the Butte & Glenn Counties Central Labor Councils from which there emerged a recommendation for a dual endorsement.

Thereupon, the motion to adopt the Ex-

ecutive Council's recommendation for Assembly District No. 1 was lost.

#### **Dual Endorsement**

Requires Legislature to provide for subventions to cities, counties and districts for revenue lost by postponement of taxes. Provides for reimbursement to state for such subventions, including interest and state costs out of postponed taxes when paid. Financial impact. Legislative Constitutional Amendment**—Repeals, amends, and rennumbers various constitutional provisions relating to elections, recall, initiative and referendum, legislative rules and proceedings, municipal and justice courts, public officers and employees, water resources, homestead exemptions, labor relations and interest rates. After five years, requires derating of existing plants 10% annually unless Legislature by two-thirds vote, confirms effectiveness of safety and waste storage and disposal systems. Permits small-scale medical or experimental nuclear reactors. Appropriates \$800,000 for expenses of public hearings by advisory group and legislature. Requires Governor to publish and annually review evacuation plans specified in licensing of plants. Financial impact: Ultimate advisory group cost may exceed amount appropriated. If Legislature requires testing in addition to federal government testing, costs may be several million dollars. Utility districts may experience loss in investment. Cost of electricity may rise. Extent of state liability, if any, to compensate for public or private loss of investment is unclear. Effect on local property tax revenues indeterminable.

# REPORT OF SECRETARY-TREASURER

To the 1976 Pre-Primary COPE Endorsement Convention of the California Labor Federation, AFL-CIO.

## GREETINGS!

The Pre-Primary COPE Convention of 1976 appears to find labor and the liberal movement on the defensive as conservatives speak with new arrogance on political fronts all across the nation.

Actually the conservative agitation is largely disguise. The conservatives know that the failings of the economic policies of the Nixon-Ford years have given us the worst unemployment since the Great Depression, the highest interest rates since the Civil War and an inflationary spiral that is stealing millions from the pockets of working people.

The conservatives are blaming the poor for the political and economic crimes of the rich. They didn't get away with it in the elections of 1974 and they shouldn't get away with it in 1976.

We want government programs of action at both the federal and state level that will put America back to work. We want the fiscal and monetary policies of growth and not those of restriction.

We want social insurance and compensation programs that will honor the purposes of a civilized community. We want collective bargaining rights extended to public employees and an immediate end to the assault on their rights by turncoat politicians.

However, we will get nothing if we choose to remain neutral or indifferent to reactionary threats in the political year of 1976. Only liberals can save us from the economic devastation of the times. Only a liberal America can put our people back to work.

## IMPACT OF PROP. 9

Since the enactment of Proposition 9, the California Political Reform Act of 1974 in the wake of the Watergate scandal, educational and political efforts of organized labor have been under a cloud of uncertainty compounded by delays in the bureaucratic arrogance assumed by the Fair Political Practices Commission established by that act.

Despite the popularity of "political reform" as a rallying cry in 1974, the Cali-

fornia AFL-CIO vigorously opposed Proposition 9, a position which is now being vindicated as the courts find one section after another of it to be unconstitutional.

Earlier this month the California AFL-CIO called on the legislature to enact controls that would reduce the worst of the Commission's abuses. Specifically it suggested that Commission appointees should require Senate confirmation and the Commission chairman should be divested of full-time administrative employment. Instead, the chairman, like other commissioners, should serve as a non-salaried citizen member. A full-time salaried executive secretary should administer the daily staff functions.

The California AFL-CIO has also called for the resignation of FPPC Chairman Daniel Lowenstein because of his prejudiced actions against labor union freedom.

After nearly a year of fruitless efforts to get clear, definitive decisions from the FPPC, the California AFL-CIO was obliged to file a petition with the State Supreme Court last November to require the Commission to act affirmatively on a proposal made by the Federation to the Commission to permit the Labor Federation to comply with the Act in ways allowing for the constitutional freedom of union labor.

The Federation's suit charged that the opinions issued by the FPPC go "far beyond the language and purposes" of the Act and violate the free speech rights of the California Labor Federation and its officers and members under Article I, Section 283 of the California Constitution and under the First Amendment to the U.S. Constitution.

## A LOOK AT '74 ELECTIONS

Thanks to united action by the State AFL-CIO, local unions and local central bodies, the election of Governor Edmund G. Brown, Jr., and the reelection of Senator Alan Cranston along with the addition of six new liberals to California's Congressional delegation and increased liberal majorities in the State Legislature in 1974 proved the value of the prevailing labor-liberal coalition in California.

Absolutely essential to this victory—as it will be again this year—was the voluntary investment of time and energy by trade unionists throughout the state in conduct-

ing the voter registration, education and get-out-the-vote campaigns in local communities throughout the state.

This effort, aided by the dedication of local unions and central body officials, also resulted in boosting the liberal majority in the State Senate from 22 to 18 before the election to 25 to 15 after it.

In the Assembly, the sweep by COPE-endorsed candidates boosted the liberal majority to 55 to 25, the highest number of Democrats in the Assembly since 1883.

On an overall basis in the 1974 general election, California Labor COPE endorsed 145 candidates and 115 won. This provided an overall victory of 79.3 percent for COPE-endorsed candidates.

The results in both Congressional and State legislative contests confirmed the wisdom of the State Federation's policy of concentrating on marginal districts rather than diminishing its impact by entering all races.

A special feature of the 1974 elections was the State Federation's use of its supportive services in the Black, Brown and Youth communities through its field coordinators for the A. Philip Randolph Institute, the Labor Council for Latin American Advancement, and Frontlash. As of January 1976, a Women's Activities Director was added to the Federation's COPE structure.

In Congressional races, where State COPE endorsed 43 candidates, 30 won, or 69.7 percent.

In the State Senate 20 candidates were endorsed and 18 elected, spelling victory for 90 percent of COPE-endorsed candidates for the upper house.

In the Assembly California Labor COPE endorsed 71 candidates, left eight races open and designated one as "no endorsement." In these races 56 endorsed candidates were elected, representing victories for 78.8 percent of COPE-endorsed candidates.

## **FEDERAL AND STATE ISSUES GUIDES**

As an aid to county, district and area COPE organizations throughout the state in interviewing candidates for the 1976 primary election, the California Labor Federation published and distributed extensive Issues Guides for candidates for both federal and state offices.

As mentioned in the cover letter sent out accompanying the Issues Guides, the questions suggested are not intended to be exhaustive and local COPE interviewing committees are encouraged to direct specific questions dealing with local conditions to candidates within their jurisdictions as they see fit.

The State Issues Guide for the 1976 elections included questions relating to: Prop-

osition 15; public employee bargaining; student observers; Right - to - Work Clause; farm labor; state labor law; unemployment insurance; workers' compensation; disability insurance; taxes; safety and occupational health; housing; women workers; health care; water resources; and civil rights.

The Federal Issues Guide for 1976 included questions on: economic policy and full employment; national health insurance; the energy crisis; tax reform; the environment; workers' compensation; housing; Situs picketing; resources; multinational corporations; civil rights; consumer protection; education; federal unemployment insurance standards; the Occupational Safety and Health Act; social security; maritime policy; and labor-management relations.

## **OTHER SERVICES TO LOCAL COPEs**

The State Federation also provided funds to local central bodies for non-partisan voter registration, education and get-out-the vote campaigns.

In an effort to assist local and district COPEs keep abreast of changes in the election code and fluctuations in registration in the various congressional, state senate and assembly districts within their jurisdictions, the California Labor Federation has also made a point of acquiring state publications such as the various reports on voter registration and the election calendar and distributing these to COPE jurisdictions throughout the state.

In addition, it has continued to service local COPE requests for research and information and, as in the past, has maintained a library of films available to COPE units throughout the state.

## **CONCLUSION**

In conclusion, it should be emphasized that both as citizens and trade unionists we share not just the problems of our state and nation but the responsibility to help solve them. Bitter lessons in the past have demonstrated to us repeatedly that we can only do this through unity.

The unprecedented legislative accomplishments of the 1975 session at the state level demonstrate what can be attained on behalf of the workers of this state when we succeed in electing a Governor and a majority of state legislators who put the needs of the people — working people —

ahead of the demands for private profit sought by various special interest groups.

We need a full employment law. We need the Kennedy-Corman National Health Security law. We need a fairer tax system. We need fiscal and monetary policies to stimulate economic growth and curb the present disastrous levels of unemployment.

Let us now pledge to elect liberals to the Presidency, to Congress and the State legislature, liberals who will fight to enlarge—rather than restrict—the promise of our economic system.

Fraternally submitted,

John F. Henning,

Executive Secretary-Treasurer
