NEW ACTIVITIES FOR ALUMNI ASSOCIATION PLANNED

Due to a shortage of personnel at the Institute of Industrial Relations during the past two years, activities of the Alumni Association have been curtailed. However, the Institute's staff is now in a position to offer some assistance to the Association; there have been several meetings with leaders of the Association which have resulted in the following plans:

1. Monthly publication of the Newsletter in order to keep Certificate holders aware of activities of the Institute, of developments in Industrial Relations; of Industrial Relations publications, of news of Certificate alumni, and finally, of job opportunities in Industrial Relations.
2. Re-establishment of regular monthly meetings of the Association, the first such meeting to be held in February.
3. Establishment of an informational center concerning Certificate holders and possible republication of the Certificate Directory. You will receive a questionnaire concerning this in the very near future.
4. A possible one-day seminar on current developments in Industrial Relations during the late spring.

It is hoped that we will receive a good response to the questionnaire that will be sent to you within the near future, and that we will have sufficient attendance at the first two meetings that we have planned, so that we may attract top speakers for further meetings.
