All members are cordially invited to attend the next monthly meeting of Alumni Association which is featuring Mr. Benjamin Aaron, Director of the Institute of Industrial Relations and Professor of Law at U.C.L.A.

This will be an excellent opportunity to hear Professor Aaron, who as a member of the President's Commission on Technology, Automation and Economic Progress, helped formulate the report and recommendations of this Commission. This recently released report has created much interest and attention. He also served as a U.S. delegate to an international conference on automation and technological change, sponsored by the Office of Economic Cooperation and Development, held last month in Zurich, Switzerland.

Members of the Alumni Association may be interested in some other recent development in our guest speaker's career. Last year, Secretary of Labor Wirtz appointed Mr. Aaron as Chairman of the California Farm Labor Panel. The Panel's final report was issued in December, 1965, and made specific recommendations to the Secretary regarding the wages, hours, and working conditions of domestic farm workers. In December, 1965, he was elected to the Executive Board of the Industrial Relations Research Association for a three-year term. He was also recently awarded a Fellowship at the Center for Advanced Study in the Behavioral Sciences for the year 1966-67.
