Comment: "The Mayor and Town Council have expressed themselves very strongly toward keeping all Japanese in the Evacuation Centres for the duration; And under Military Guard.

They also think it would be very unwise and of great risk to the war effort, to bring any one or number of them back for agricultural work.

Jap antagonism here is very strong.

In remembrance of Pearl Harbor and in consideration of our mistreated prisoners of war, we feel that when  
back over

Japan is out of the picture and the war is all over, every Jap in America should be taken to Japan to help rebuild their own country, and be kept there, under restriction, for all time.

There are a great many of them who are American born but after all they are only Japs, who would thrive nicely in the homes of their ancesters. "

Comment: "Recently there has been considerable discussion among civic groups such as ex-service men, Kiwanis Club and others, wherein it appears that very strong anti-Japanese feeling exists. It is therefore my opinion, at this time, that the general opinion of the public will be heavily weighed by the City Council resulting in the adoption of resolutions or ordinances to suit the occasion.

Before Pearl Harbor there were quite a number of Japanese in this community, nearly all gardeners, and  
was over

while considered an asset to the community then, it is my opinion, our citizens will protest any attempt of their resettlement here. There has already been several of our boys lost in the South Pacific and this will not be forgotten through the present generation."

Comment: "only thing done by the city council  
has been the adoption of ordinances relative  
to the dim out zone setting up the legal  
machinery for punishment of violation of the  
army's regulations on dim outs."

Palk
