Acquisition Information

The CMS records were collected by CMS archivists, officers, and members.

Background

The California Map Society (CMS) is a non-profit statewide organization whose members include map librarians, scholars, and collectors, as well as other map enthusiasts. The mission of CMS is to preserve and disseminate historical and contemporary cartography, primarily of California, for members as well as the general public. According to their website (<http://www.californiamapsociety.org/about-us>), CMS takes the following actions to accomplish their mission:

- We (CMS) hold general membership meetings in California twice a year, once south and once north of the northern boundary of San Luis Obispo, Kern, and San Bernardino Counties.
- We compile the names and addresses of cartographers, antiquarian map historians, map libraries, aerial-photo and imagery resources, map dealers and depositories, and other organizations and agencies concerned with maps of and mapping activities in California.
- We educate the public through our conferences and by sponsoring occasional publications and media presentations on cartography.
- We support advancements in map production, utilization, and preservation in the State of California.
- We encourage research in and the teaching of cartography at all levels of public education in California.
- We promote the exchange of cartographic products, information, and ideas among members, other map societies, and other organizations both within and outside California.

The first organizational meeting of the California Map Society was held on May 20, 1978 at the Bancroft Library at the University of California, Berkeley. At the organizational meeting, 20 people gathered to discuss the possibility of forming a map society for California. This meeting was the product of a discussion in 1977 between Diane Rose (later Diane North) and Philip Hoehn regarding the lack of such an organization for map enthusiasts specific to the state of California. Two speakers presented at this meeting, and a small exhibit of maps was featured. After this meeting, a set of by-laws was drafted.

A second organizational meeting was held on March 17, 1979 at the University of San Francisco, hosted by Dr. W. Michael Mathes of USF's History Department. During this meeting the first officers were elected by acclamation: Norman J.W. Thrower, President; Robert E. Winter, Northern Vice President; Sandra Lamprecht, Southern Vice President; Richard Hansen, Treasurer; and Stuart Auchincloss, Secretary.

The California Map Society was officially founded on the occasion of its first general meeting on November 3, 1979 at California State University, Fullerton. Sixty-eight people became Charter Members, following this meeting.

Scope and Content of Collection

This collection is arranged at folder level, chronologically; it includes administrative records, meeting records, correspondence, photographs, documents related to the finances, constitution and bylaws of CMS, and works published by CMS.

Series 11: IMCoS

Physical Description: 0.3 linear ft.

Box: 5

Scope and Content Note:

IMCoS, or the International Map Collector's Society was founded in England in 1980. The Stanley Gibbons company, a stamp and map dealer, held an exhibition in Birmingham. In response to the great interest in one of their map symposiums, a Gibbons representative named Yasha Beresiner suggested the formation of a map society, and thus, IMCoS was created. IMCoS coordinates with other map groups to achieve its international spread. Included in this series is evidence of the collaboration between CMS and IMCoS, specifically a joint meeting in October 1995 marking the 14th International Symposium of IMCoS. The meeting, which was hosted by CMS, was entitled *Alaska to Panama: The Mapping of the Interior of Western North America*.

Series 12: Newsletter, 1983-2013

Physical Description: 1.25 linear ft.

Box: 6-8

Scope and Content Note:

This series includes the newsletter of the CMS, which was published between 2-4 times per year. The issues of the newsletter were sometimes numbered, but are most reliably identified by date. Though mostly dedicated to news about maps, the organization, and its members, at certain times, the newsletter doubled as a program for the general meeting.
