

# Research Center for the Americas records Subseries 12.1 File Directory

This searchable document lists the digital files in:

Subseries 12.1: Files from RCA server and computer

## Access information

Open for research. Digital files are available in the UCSC Special Collections and Archives reading room. Some files may require reformatting before they can be accessed. Technical limitations may hinder the Library's ability to provide access to some digital files. Access to digital files on original carriers is prohibited; users must request to view access copies. Contact Special Collections and Archives in advance to request access to digital files.

## Processing information

Files were transferred from the Resource Center for the Americas share on the UCSC Social Sciences server in 2018 by Special Collections staff. The original order of these files, chronological by academic year, was maintained. Files from one CLRC iMac computer were subsequently added in 2018 by Special Collections staff and interfiled into the existing file arrangement according to academic year.

## Note

Note that while many files in this subseries are identified here as Unix executable files, they are most likely data files, not executables. The Mac operating system interprets unknown file formats as Unix executable files, which is transposed on this file directory document. Contact Special Collections and Archives for more information.
