|----|---|
| 1 | A chronology of the discovery of oil in California, development of the oil industry and in particular Standard Oil, land purchases, etc. Begins with entry for discovery of gold in Placerita Canyon by Francisco Lopez in 1842, followed by establishment of Phoenix Oil Works in San Francisco in 1850. Last entry is December 4, 1953, with Standard Oil's announcement of Rough Range no. 1, apparently the first commercial well in Australia. |
