

CALIFORNIA STATE RAILROAD MUSEUM MANUSCRIPT COLLECTIONS

MS 31 LOUIS LORENZ STEIN, JR. COLLECTION

1873-1970s. [50 boxes + 1 oversize box]

The collection represents the railroad-related papers and documents accumulated by Berkeley, California pharmacist and historian Louis, Lorenz Stein, Jr. (1902-1996).

HISTORICAL INFORMATION Louis Lorenz Stein was born August 21, 1902, in Berkeley. In 1924 he earned a degree from the University of California's School of Pharmacy. In 1928, a year after his marriage, he opened a pharmacy in Kensington. Although he had followed his father's advice to go into business, Mr. Stein had a lifelong passion for history. He collected everything he could find relating to local history, including letter, diaries, manuscripts, photographs, maps, newspapers, artifacts, often rescuing materials destined for destruction. On a grander scale, in 1955, he bought the Martinez Adobe to save it from being razed. Throughout his life, he shared his knowledge and his collections with anyone seeking information about local history. In 1956, he established the Pharmacy Museum at Columbia State Park. In the early 1980s Mildred and Louis Stein donated their considerable materials relating to Contra Costa County to the Contra Costa County Historical Society. Louis L. Stein, Jr. passed way in Berkeley, on November 11, 1996. [Adapted from Contra Costa County Historical Society website.]

Reports, reminiscences and business documents from the Atchison, Topeka & Santa Fe, Southern Pacific, and Virginia & Truckee Railroads are also included in this series.

The second series is composed of legal case files from the Contra Costa County Superior Court, mostly involving the San Francisco & San Joaquin Valley, Atchison, Topeka & Santa Fe, and the Southern Pacific. These files contain primarily personal injury suits, proceedings for condemnations of land and right of way encroachment suits.

The third series, consists of records of the Western Pacific Railway (prior to 1916). These records include correspondence of Western Pacific Railway Vice President and Chief Engineer Virgil Bogue, General Auditor, J. F. Evans, and division engineers concerning construction of the line. Other construction-related documents, including vouchers from the principal contactors, are present as are records concerning equipment.

The fourth series consists of documents from the Western Pacific Railroad (after 1916). These records include information relating to the company's physical plant, steam and diesel locomotives acquired and retired, acquisition and retirement of other equipment, and records relating to the Deep Creek Railroad, a Western Pacific subsidiary in Utah.

The sixth series contains legal documents, financial records, correspondence and minutes of meeting of the Roberts Lumber Company, which was incorporated in January, 1903 by J.H.
