

# Shakespeare Santa Cruz Records

## Digital Files

---

This searchable document lists the digital files in the Shakespeare Santa Cruz Records, Series 7: Media: Digital Files.

### General note

This file directory includes date last modified, size, and file name for each file, with file type listed afterwards if available. Folders are expressed as file paths.

### Access information

Open for research. Digital files are available in the UCSC Special Collections and Archives reading room. Some files may require reformatting before they can be accessed. Technical limitations may hinder the Library's ability to provide access to some digital files. Access to digital files on original carriers is prohibited; users must request to view access copies. Contact Special Collections and Archives in advance to request access to digital files.

### Processing information

The digital materials in this collection were processed by Alix Norton and Special Collections student assistants from 2017 to 2019. Files were primarily transferred from physical carriers with the use of the tools DataAccessioner v1.1, Handbrake, and exactly by AVP.

Duplicate files, empty files and folders, system-generated files, and temporary files were removed using the tool TreeSize Pro. Files that had been partially transferred and files that were out of scope (i.e. not related to the functions of Shakespeare Santa Cruz organization) were manually removed. Original disks were retained after file transfer and are included in the collection, with the exception of materials that were deemed to be out of scope.

See the [Collection Guide to the Shakespeare Santa Cruz Records](#) for more information.
