## Additional Materials:

**Scope and Content:** This collection includes material donated by the now-defunct *West County Times* newspaper, relating to budgets and school facility planning by the West Contra Costa Unified School District in the late 1990s and early 2000s. The collection includes the school district's annual budgets for fiscal years 1998-99, 1999-2000, and 2000-01; and the district's long-range master plan for building new schools and repairing existing schools based on anticipated population growth in West Contra Costa County. Along with the master plan document is a very thick binder containing the cost analysis for the plan. The master plan identifies potential funding sources for the school facilities. The plan was adopted by the school district in October 2000.

## Arrangement of Materials
