75-4 Papers, 1939-71.
6 cartons.

Papers received April 3, 1975.

Includes committee minutes, correspondence, lectures, reports, speeches, related to his research and departmental activities.

Louis Avrom Strait was born in Denver, CO, September 27, 1907. He attended local schools, receiving his A.B. (1930) and A.M. (1932) from the University of Colorado. He was granted the PhD (Physics) from the University of California, Berkeley in 1937.

Dr. Strait was an instructor, then asst. professor in physics at Colorado from 1930 to 1932. He was invited to set up a spectrographic laboratory at UCSF by the deans of Medicine, Pharmacy and Dentistry, and was its director until retirement. He was a fellow (1937-38), then moved from instructor to professor of Biophysics, and Pharmaceutical Chemistry, holding joint titles in these schools, becoming emeritus in 1971. The following year UCSF conferred upon him the honorary LL.D.

He was a civilian with the Atomic Energy Commission and in the Office of Scientific Research and Development, 1943-45, and held a Fulbright professorship in Cairo, 1950-51. Dr. Strait was a member of AAAS, the American Chemical Society, the Optical Society of America, American Physics Society, Society of Applied Spectroscopy, the American Pharmaceutical Association and the New York Academy of Science. His research interests included spectroscopy and molecular structure, chemical and biological applications; H-bonding properties of biogenic and other amines.
