The Presidential Historical materials of William E. Timmons, Assistant to the President for Legislative Affairs, are in the custody of the National Archives and Records Administration under the provisions of Title I of the Presidential Recordings and Materials Preservation Act of 1974 (P.L. 93-526, 88 Stat. 1695) and implementing regulations. In accordance with the Act and agency regulations, archivists reviewed the file group to identify personal and private materials and non-historical items. These items have been returned.

Materials covered by the Act have been archivally processed and are described in this register. Items that are security classified or otherwise restricted under the Act and regulations have been removed and placed in a closed file. A Document Withdrawal Record (GSA Form 7279) with a description of each restricted document has been inserted at the beginning of each folder from which materials have been removed. A Document Control Record marks the original position of the withdrawn item.

Employees of the National Archives will review periodically the unclassified portions of closed materials for the purpose of opening those which no longer require restriction. Certain classified documents may be declassified under authority of Executive Order 13526 in response to a Mandatory Review Request (NA Form 14020) submitted by the researcher.

Scope and Content Note

The materials of the William E. Timmons collection cover the period from January 1969 to August 1974. During this period Mr. Timmons served first as Deputy Assistant to the President for Legislative Affairs (1969-1970) under Bryce Harlow and then as Assistant to the President for Legislative Affairs (1970-1974). Mr. Timmons served in this position until President Nixon's resignation on August 9, 1974. The materials in this collection are arranged into seven series including Subject Files, Legislative Files, Inter-Office Memoranda, Correspondence, Chronological Files, Personnel Files and Reference and Research Files.

The Subject Files and Legislative Files series cover a wide range of foreign and domestic policy issues. Subjects in this series include: Vietnam, the environment, abortion, women's rights, 18 year old voting age, health care, energy, the economy, and Watergate to name just a few. The materials mention creating legislation and strategy on how to get particular pieces of legislation passed or defeated. The series contains vote tracking sheets for Mr. Timmons and his staff to keep track on how the administration stood on an issue and what was needed to do to gather more support. There are also materials on potential implications if the President were to veto a piece of legislation and if there was sufficient support in Congress to overturn the President's veto. Materials covering Vice-President Agnew's resignation, the appointment of Congressman Gerald Ford as Vice-President and the potential impeachment of President Nixon over the Watergate affair are included.

The Inter-Office Memoranda series includes internal correspondence between Mr. Timmons and his staff, President Nixon and other members of the White House Staff. White House staff members who have materials in this series include: Henry Kissinger, H.R. Haldeman, John Ehrlichman, John Dean and Charles Colson. The subjects of this series are on legislative strategy and political issues. Campaign strategy is discussed in these materials including which Members of Congress have been favorable to the Nixon Administration and should receive White House support in their re-election efforts. The series contains a large amount of materials on Congressman Gerald Ford, Senator Bob Dole and Senator Strom Thurmond.

The Correspondence series is the largest series in the collection. Materials in this series include correspondence to and from Mr. Timmons and the Legislative Affairs staff. Staff members include Bill Casselman, Dick Cook, Patrick O'Donnell, Ken BeLieu, Max Friederadorf, Tom Korologos, Fred Webber, and Vern Loen. Subjects of these correspondences include requests from Members of Congress for The President to review certain legislative topics as well as requests for the President to contact members of their constituency on special occasions. The series also contains correspondence from Clark MacGregor who served as Counselor to the President for Legislative Affairs and correspondence Mr. Timmons received from the general public.

The Chronological Files series contain copies of all correspondence sent by Mr. Timmons and his staff. The materials are of the same subjects as correspondence in the collections other series. The Personnel Files series contain materials on individuals seeking positions with Mr. Timmons staff or with Legislative Affairs staff in other government agencies. Correspondence in this series includes requests from Members of Congress to find positions for individuals in their

constituency and requests from Members of Congress who lost re-election seeking to find positions for themselves. Internal memoranda discuss the status of current Legislative Affairs staff and who should be kept or replaced. The Reference and Research Files series contains reports, books and articles used by Mr. Timmons and his staff to collect data to establish whether the administration support or attempt to defeat a legislative issue.

The collection includes one box of photographs and one audio tape that has been transferred to our audio-visual department. Please contact the Nixon Library audio-visual staff if you are interested in viewing these items.
