

**Denise Scott Brown Collection
of 35mm slides
AVRL 1965-1**

This collection of 2,253 slides was duplicated and given to the UC Berkeley Department of City & Regional Planning in 1965 by Denise Scott Brown. The collection was subsequently given to the Architecture Visual Resources Library in the 1980s. At AVRL, some of the slides were digitized, cataloged, and integrated in to the circulating collection while the rest were kept separate. When the AVRL became the CED VRC in the late 2000s, the Denise Scott Brown Collection of 35mm slides was re-integrated and the slides were sleeved, foldered, and boxed for archival storage. Some of the slides in the collection are missing, due to having been used in a circulating library for many years. Because of the inventory provided, blank spaces have been left in the slide sheets where missing slides should be, in case they turn up at a future time.

The scans in this document consist of 52 pages of a hand-written inventory of the slides in the collection, and 108 pages of digital contact sheets of the slides in their archival sleeves.

This document is only intended to serve as a visual reference guide to the collection. Any desire for full-resolution scans of any particular image should be directed to the staff of the CED Visual Resources Center.
