3174. Microfilm. Where clearly indicated, original order and
 numbering has been retained: President's office reels
 1-31 and Engineering reels 54-90 were originally
 numbered as such; the number of remaining 16mm reels
 containing cipher messages (cryptos) was equivalent
 to the gap (i.e. reels 32-53). Earlier cryptos on
 35mm film have been added at the end: the first four
 reels of these also bear original numbers 1-4, with
 the remainder added in chronological order.
