JAPANESE-AMERICAN EVACUATION

LEGISLATIVE ISSUES IN
CALIFORNIA

1943

CA

171

Key to Legislation of the State of California
Concerning the American-Japanese
(fifty-fifth session)

1. SENATE BILL NO.94:
limits the issuing of fishing licenses to those persons who are, or who are eligible to become citizens of the United States.
(This would affect persons of Hindu, Japanese and Chinese ancestry.)
2. ASSEMBLY BILL NO. 1881:
authorizes disciplinary proceedings against employees (on forced leaves of absence) who claim citizenship in a foreign country; hold dual citizenship; pledge allegiance to an enemy country; act disloyally and disrespectfully to the United States or its flag; or do anything to impede the war effort.
(An obstacle is thus placed on the recovery of salaries by persons employed by the state who were evacuated.)
3. SENATE JOINT RESOLUTION NO. 3:
memorializes Congress, asking that they initiate the proper action and legislation to remove United States citizenship from all those persons holding a dual citizenship in any other country. The resolution also asks that United States citizenship not be allowed to anyone holding such a dual citizenship.
(This resolution would include many countries in addition to Japan , such as Switzerland, Italy, Russia, and others.)
4. SENATE RESOLUTION NO.122:
authorizes the appointment of a Senate Fact-Finding Committee on Japanese Resettlement which shall investigate, ascertain, and appraise all facts concerning the return of Japanese people to the state after the termination of the war. The formation of this committee was felt to be necessary because:
 "Japanese people resident in the State of California have proved to be a serious menace to the peace and safety of the people of the state and of the United States as a whole....."
 "the return of the Japanese people to the State after termination of the war may conceivably constitute a serious menace to the peace and safety of the people of the state in subsequent years."
