to C.R. Shaw FRB Seattle : (Raymond, Wash.)

R. Murakami accompanied by Mr. Senty, operator of  
North Star Inc. sea food broker, Seattle will call in  
your office later part of week.

Interviewed M. yesterday. Numerous complications.

Briefly summarize them:

Eagle Oyster Packing Corp. operates oyster Co., grow  
oysters for fresh market. Have entered into contract  
with North Star Inc for supply of oysters of  
unidentified bed for canning.

Operation of Eagle Corp on large scale. Substantial  
payroll. Considerable turn-over of money. Co. has heavy  
financial obligations. M. has statements of these  
creditors are largely white U.S. citizen who have  
supplied merchandise, material, equip. etc. in good  
faith to this corp.

Senty is negotiating with Eagle Co. lease  
for their entire property (1) to get specific oysters on  
contract (2) continuation of entire operation of  
Eagle Co.

Some of creditors have already taken legal  
action.

Permit for operation dated 3/16/42  
terminates in 30 days. Termination date too soon  
to continue operations.

Anticipate possibility of a license permitting them the  
necessary time to liquidate marketable oysters & meet  
fully obligations. I send them to Seattle to you  
for this. I can handle the other details in our  
Raymond office.

We regret... that a representative of the bank was placed in the equivocal position of having been nominated as an agent of a woman at the time he was an employee of this bank.

Additional fact... Hamilton... represents the largest of the concern's creditors. This type of situation we had tried to avoid. We are inclined to feel that Mr. Hamilton should make arrangements for a successor to the agency which he has undertaken.

July 25 1942

W.W. Hamilton to FRB : Lyons.

at time Langenbach talked with me about the suit against Richard Murakami I was not informed that changed conditions had been made regarding a note due a D. Bard in the amt of \$1,000.00. This note was originally given by Fujii to Bard & endorsed by Eagle Oyster Co by Murakami. When the note fell due Fujii could not pay it & the endorser was called ~~to pay~~ upon for payment.... Att'y for D. Bard obtained a note signed individually by Murakami, to replace the original note... & in which suit is being instituted in face of which I can see nothing that can be done for him. This deal was originally entered into several years ago when Fujii, a brother-in-law of Murakami was trying to finance a logging deal.

Re-letter July 16 1942... requesting info as to freezing powers of Bank.

No moratorium legislation has been enacted which would prevent recovery on indebtedness owing from evaders, & the only freezing provisions are those embodied in Regulation ch...

The authority contained in this regulation is effective only in cases where there is property of evaders, which can, in effect, be held in status quo pending completion of negotiations between evaders & party or parties holding an adverse interest. It has no force in the case you present... inasmuch as there would appear to be no property involved against which the force of the Regulation

could be directed ~~we do not feel~~

~~we believe that~~ that the powers vested in this bank under the Regulation were intended for use in cases where the rights of the parties are in the course of determination thru due legal process.

This is not an appropriate case for the exercise of the powers granted under this regulation.

Dear Mr. Symms:

re your letter of 22nd to p of atty given me by Eagle Oyster Pak Co  
Nahcotta, Wa.

No basis for assumption on part of anyone that my period of employment  
by FRB was used by me either to further my interests or to protect  
my interests, either p st, present, or future. Neither can it e  
assumed that any position has in any way compromised to position of FRB

In 1931 Japanese first established in oyster industry on Willapa  
Harbor at which t me we supplied their needs in building matter.  
The following yrs as more J located on this harbor, either in oyster  
business or as workers therein we c ntinued to supply their building  
needs.

Aug '36 we commenced supplying building metter for plant & scows of  
Eagle Oyster Pak Co this being the time when this co. actually began  
plant construction etc to operate in the oyster business. Our  
sales to this co ran int thou. of \$ to EOP Co a total of \$1,744.20  
& we sold to the Murakami family, who are the major stockholders in  
this co. for improvement of their cranberry bogs a total of \$886.48  
The sale to the Oyster Co. was on a credit basis & secured by chat-  
tel mortgage on all of the scows which they owned. The sale to the  
family was to be paid from the proceeds of the 41 cranberry crop.

At start of oyster season in 41 the industry was confronted with  
"union troubles" therefore, operation was delayed for better than  
30 days before labor difficulties were settled. Shortly thereafter  
the was broke with Japan & the E O Pak Co was again tied up. Chattel  
mortgage which I'd taken from co. am'ting to \$1,744.20  
I discounted with the Seattle-First Natl Bank, Raymond Branch, the  
monthly payments on which defaulted for the reasons covered above.  
Raymond Branch also had in their bank Auto paper on sale of a new  
auto to Murakami, mgr of EOP Co therefore even before Jan 42  
representative of Raymond Branch & myself contacted Murakami to  
see what status was with Oyster Co & to assist & advise them in any  
way expedient,

When evac was 1st discussed natly a rep of Raymond Bank & I urged co.  
that they anticipate such an action & get their business in as liquid  
a position as pos. but then had no idea of heavy obligations they had  
outstanding. Discussed a capable party to represent their iterests  
in event of evacuation & at their request we made an appointment &  
attempted to get Lochrie, mgr of Ilwaco Bank, to take the job. Lochrie  
declined due to insufficient time & suggested that we contact Doupe  
of Ilwaco Oyster Co. which we did & he declined. During this same  
time I was asked by principal stockholder of Oyster Co that I  
represent gheir interests in event that they were evacuated which I  
declined & dueto the fact that operati n was too far from Raymond  
therefore would consume too much time.

I did promise to help if I could if they were unable to get anyone  
else.

March 23 I actually started to work for FRB & at no time during my

employment for FRB did the Ostry Co. actually come to me & state that they were depending on me to represent them until the day they were actually vacated for.

It was not until about June 15 or 16 that the files of the Ostry Co. were delivered to me, & was surprised on April 1 ... to find that they had ~~not~~ their attorney make up P/A naming me att'y in fact. ... this has been done to appease their creditors of which I am the largest. At one time during their negotiations on the lease with North Star Inc. they had hoped sufficient funds would be advanced by North Star to clean up all pressing obligations ... & if they had succeeded to consummate the arrangement, they would not have had occasion to call upon me to act as their att'y in fact. My only obligation is to figure how \$16,000.00 in obligations can be paid with about \$500.00 in funds, for which I receive no remuneration.

Attention Mr. Symms

Dear Mr. Symms:

Re letter from your SF office to communication from J Langenbach of Raymond re action being taken against Murakami.

At time Langenbach talked with me I wasn't informed of changed conditions re note due a Dr. Bard in amt of \$1,000.00

This note first was given by Geo Fujii to Bard in above amt & endorsed by Batle Oyster Packing Co by R Murakami, Treas. When not fell due Fujii couldn't pay & endorser was called on for Payment. This involved the legallity of endorsement (EOP Co hadn't funds with which to pay it) & it was my impression that it was on this note that suit for collection was being brot against Murakami an individual. I'M now informed, atty for Bard obtained note signed indiv. by Murakami, to replace original note signed by G Fujii & it's the note signed by Muraka i on which s it is being instituted in face of which I can see nothing that can be done for him.

This deal was originally entered into several years ago when Geo Fujii a broth-in-law of R Murakami, was trying to finance a logging deal.

Seattle Evac Prop Lept - Richard (Kenitsu) Murakami

Your letter July 31, 1942

We are enclosing the original and a copy of our letter of even date addressed to J J Langenbach, Raymond atty in response to his communication of 7/16/42 relating to above-named evacuee.

In view of remarks made by Hamilton in letter of 7/25/42, a copy of which you sent us, and the pendency of litigation, we believe that we wouldn't be justified in exercising any freezing power & have so stated in enclosed letter.

If you're in accord with its substance, we'd appreciate your sending letter to Langenbach, or f'ding a similar letter over your own signature.

Re Hamilton's situation, we share regret that a case has arisen in which a rep of this bank was placed in equivocal position of having been nominated as an agent of an evacuee at the time he was an employee of this bank.

There is an additional phase of relationship which should have Hamilton's consideration in that he seems to rep. the largest of concern's creditors, which might create additional problems, particularly in event it's necessary for that creditor to enforce its claims against the Eagle Oyster Packing Co.

This type of situation is one that we've endeavored to avoid in our dealings, both in our Foreign Funds Control operations & in operations of EPD. In former case, the Treas. Dept's policy is expressed in our Instruction Letter No. 1 to the Foreign Funds Control Examiners dated 7/22/42 a copy of which is enclosed for you info. & we believe you'll recall provisions of our EPD Inst. Letter No. 24 which clearly indicates attitude of WCCA re dealings with evacuees by persons connected with the WCCA in any capacity.

In view of these numerous undesirable features we are inclined to feel that Hamilton should make arrangements for a successor to the agency which he has undertaken.

Vice President

Dear Sir

Re you letter 7/16/42 advising us of fact a suit filed against above n med evacuee & asking info re freezing power vested in this bank re evac. operations.

We believe you're aware of fact tha no moratorium legislation has been enacted which would prevent recovery on indebtedness owing from evacuees. & the only freezing provisions are those embodied in Special Regulation No. 1 as set forth in Evac Prop Dept Circular No 1 of this bank, a copy of which is enclosed for your info.

Authority contained in Regulation is effective only in cases where there's prop of evacs which can in effect, be held in status quo pending completion of negotiations between evacs & party of Parties holding an adverse interest, looking toward a satisfactory settlement of the issue. It has no force in a case of the character presented by you, with the understanding that it's suit for recovery of unsecured indebtedness owing from an evacuee, inasmuch as there would be no prop involved against which the force of the Regulation could be directed.

We dont feel the powers vested in this bank under Regulation were intended foruse in cases where rights of parties are in the course of determination thru due legal process.

In the circumstances of the instant case, the evacuee has the benefit or your rep'tio & his interests can be protected in pending litigation

In view of the foregoing, it would seem that this isn't an appropo case for the exercise of powers granted in this Regulation.

Yours v truly

Vice pres Armstrong

4/11/42: F.N.B. of Iwaco to FRB

Enclosing copy of agreement made between  
Mr. Donpe me of our director & a Japanese American  
owner of a <sup>Wanberg</sup> log. (Richard K. Munakami)  
Will you please advise me if such an agreement  
is similar to the method you use in connection  
with supervising the property of this Japanese after  
they are evacuated.

4/16/42: FRB to F. N. B. of Iwaco.

We have not followed the practice of passing  
upon agreement forms tendered to us by persons  
dealing with evacuees, inasmuch as the evacuees  
are in position to make their own private  
arrangements regarding the disposition of their  
properties & any agreement in that connection  
which is satisfactory to the evacuee requires no  
action on our part. Up to the present time  
no properties have been accepted by us in behalf  
of evacuees, who have been encouraged to make their  
private arrangements for the handling of their affairs  
through persons & institutions of their own selection.

4/24/42. W. W. Hamilton FRB Raymond Wash, to  
FRB Seattle:

on 4/20 contacted Murakami to find out how  
he was doing in lease... Lease in house of completion

S.M. operates under special permit which  
terminated 4/15. Application for renewal made  
prior to that date but not renewed; M. Symon  
and Mr. FRB of S.F. has according to Murakami  
permitted him to continue operation  
until renewal of special permit.

7/16/42. John L. Langenbach atty at law  
represents Murakami.

A suit has been filed against M.  
W. W. Raymond has P/A to represent M. in connection  
with his local business interests. Mr. Hamilton  
also advised your Bank is examination proceedings  
locally. He suggested to me that I write to your  
bank for information & form E.P. 4 for the  
purpose of further protecting the interests of the  
bank. He was of the opinion that a proper  
presentation of M's case in court under federal  
regulation would prevent further harassment of his  
interests.

7/18/42. Everson FRB of SF to FRB Seattle.

Enclosing copy of Langenbach's letter.  
It does not appear that this is a case in which  
use should be made of the freezing power, particularly  
as the matter is now at issue in court... Would  
appreciate information on case... Also information  
as to the circumstances surrounding the appointment  
of Mr. Hamilton's attorney in fact for the examination.
