NOTICE TO THE PUBLIC
THE U.S. AIR FORCE
HAS A PROJECT FOR THE
CONSTRUCTION OF A
NEW AIRPORT AT
COLUMBIA, MISSISSIPPI

the Farm Security Administration personnel has a friendly and rather liberal attitude, while the others are careful to do or say absolutely nothing not related to the particular transaction involved. Their attitude is that they are giving charity and what they do should be appreciated.

The Japanese won't store with the Federal Reserve because they fear that their belongings won't be sent to them when they want them at their permanent settlement.

4. Fred Farr and Spencer, Farm Security Administration, 707 S. Spring St. Los Angeles.

Spencer thinks that the evacuation was due principally to the pressure put on by various interests, chief among whom are the Associated Farmers. Spencer is something of a "wild man," and I don't believe that his opinion is based on any good information.

He thinks that the agencies other than the Farm Security Administration have done a quite poor job, and blames it on personnel. He says that the Wartime Civilian Control Administration (Eisenhower) is apt to also do a poor job, for its personnel is made up of lower employees of the other government agencies and not of the best at that.

Farr reports that something is wrong in the Imperial Valley. Much pressure was put on the Farm Security Administration agent there by the Japanese-hating farmers. Some of this pressure undoubtedly came through Small. The feeling down there has always been acute. He thinks that the Farm Security Administration agent did not intentionally favor whites as against Japanese, but that he had growers to take a position (involuntarily) similar to that of the white farmer.

Farr says that the Japanese are in for a very bad time down there, for in Imperial County, the attorney plans to claim much violation of the alien lands act. Undoubtedly the courts and every one else is somewhat of a Japanese-hater. He believes that the Japanese will never get back to this valley again.

See also the minutes of the Board of Supervisors meeting for B February 16, 1942, for discussion of no. ¹³⁴. See the District Attorney of Imperial County for file on Alien Land Act.

C. C. Small of ~~the~~ Farmers and Merchants National Bank was the Federal Reserve man who is undoubtedly at the bottom of some of the trouble. The whole situation in Imperial Valley is bad. Everyone hates Japanese. A Japanese was shot in cold blood by two Filipinos who have not yet been prosecuted. The story about this can be obtained from Ben Yoshioki at Santa Anita. He was a personal friend of the deceased.

Write
A very interesting story of the O. T. Johnson ranch and its relations with the Japanese tenants can be had from Mr. William Denon, 2106 Wilmot Street, Los Angeles. Was a 1,500-acre farm all leased to Japanese.

See
The Army has had some very interesting problems to face and solved them very well, though the solution seems obvious to the layman. They do use some common sense. In Arizona a Japanese man married a Mexican woman. They had a child, and shortly after the father died. The Mexican woman married a Chinaman. Should the baby, the baby and mother, or the baby, mother, and father(foster) go to camp. The Army, after some deliberation, exempted the baby.

The social service workers don't do much. Another example of their inefficiency is a case in Pasadena. They forced a family to leave on the first day of evacuation instead of allowing them to wait for the second day so that they could attend the funeral of the father.

All of Solano county has been evacuated and is all taken care of. Placer county has completed its registration and all ranches there have been taken care of or have leased to a Corporation. all Corporation loans are not in at this time or approved as yet. However they are all incorporated and the ones not yet in will be sent in to the R.O. very shortly. Yolo county is also taken care of. The major portion of Sacramento County is pending Corporation deals. Wayne L. Phelps
