NARRATIVE REPORT: (Use space below or a separate sheet to be attached to this report for comments on significant developments in the field of housing at the center during the month; explanations of apparent discrepancies in space assignment; number of persons and families living in rooms not originally constructed for evacuee housing; additional rooms made available through partitioning; reasons for increase or decrease in number of vacant rooms; suggestions and recommendations.)

The transferees from Tulelake in September consisted of many large families. This together with the fact that we received approximately 150 more persons than anticipated, made the assignment of apartments difficult.

A problem facing us today is the shortage of the 20 x 16 and 20 x 20 apartments. Families of sixes who are overcrowded in single 20 x 24 apartments desire additional 20 x 16 apartments. Single men and women dislike living in so-called "bachelor" and "single women's quarters", and request to be transferred to the small apartments in groups of two. This insufficient number of small rooms also makes the adjustment of overhoused families of twos and threes impossible.

Mr. Charles F. Ernst
Project Director
Central Utah Relocation Center
Topaz, Utah

Attention: Mr. George H. Lafabreque, Head Counselor

Dear Mr. Ernst:

We have several questions in connection with the October monthly statistical report.

In section B the total of the sub-items does not equal the total given. Apparently sub-items C & D were typed in after the first part of the report was typed. This may account for the inconsistency.

In section C under cases closed 543 are listed as closed because of service completed. However, there is nothing to indicate the type of service given in these cases. In view of the large number involved, it would be of value to us to know the services provided.

Yours very truly,

Selene Gifford
Public Welfare Consultant

LWBrown:MF
