VIII. MANAGER'S NOTES

At first, we used to have lots of misunderstanding between steward and Block Manager. We had Mr. Burdick come to Block Managers meeting clear the matter between steward the Block Manager.

I know most of the Blocks are giving trouble with Garbage and Rubbish Crew, which are under C. Nakamura's Department.

Mr. Nakamura seems to have told this crew to pick up only Garbages for Garbage crew, Rubbishes for Rubbish crew, and if rubbish was inside of Garbage just leave it there or dump at Block Manager's office.

Block Manager's are doing their best to educate his people to throw these things in separate container, but just a little mistake the crew won't touch the box.

Does Nakamura has to educate his crew the way he has?

From standpoints from Sanitary and Appearance of Camp #3, small matter should be overlooked and work harmonized.

This damn Poston dust gets in my eye and I can't keep mine open. Now my ears filled up with dust and I need spoon to dig the dust out of my ears, so I can hear what these isseis are saying. Some of the speakers saide that Block Manager's and councilman were voted in blindly.

I was seated in this office by the "Block Opener" from Camp I. The councilmen are voted by the people of the respective block. They are doing all they can to do good for the people, but they have not reported the work. Before the council was elected the Block Manager was doing the work of the councilman too.

Friday morning was cold as it chilled thru my skin to bone. So I stayed in bed till everyone had gone to answer the usual early dawn call for breakfast. When I reached the Mess Hall, everyone had finished his or her breakfast and was gathered around the bulletin like "flys on the honey". They opened the room for me "as Block Manager". And so I stood in front of the Bulletin with my mouth wide open, because it was written in Japanese. But the good residents of my good Block people told me that the Bulletin says that:

The Camp "2" had decided to on "Strike" this morning 6:00 a.m. and signed by Kusunase.

Last week, all the block manager were busy because of Uchida's Case in Camp #1. The secretary had to stay in the office all the time (except on her days off if they have any)

I heard that the secretary will receive only \$12.00 per month. I don't mind the \$12.00 if she doesn't work so hard, but she works just as hard as Block Manager when Block Manager is absent from his office. She slaves hard as slaves. VIII. MANAGER'S NOTES

In Camp #3 when there are any mistake or wrong doing (small or bit) they would always says "like Santa Anita".

Another work "Santa Anita" means bad crowd, but I mingled with the roku 3 and they seem to be BETTER boys and girls there than other rokus.

I heard "Bad" huys from Santa Anita had come to Colorado.

So let us not compare "Santa Anita" as bad eggs. (This includes myself). Thank you.

VIII. MANAGER'S NOTES

Our block was rough and I had some of the resident shovels and wheelbarrow and smooth it down. Before this block was worse block in Camp #3. Now it is better than some of the blocks. I don't want to tell the people to do any more of this manpower work after I assured them that the tractors are coming in, to level this block. Many of the leveled blocks have planted the Victory Garden and made improvement toward the block. Such as Block Shade, Block Fish Ponds, Block Rec. Garden, and Cactus Garden and etc. But this lumpy 309 Block is same as before.

Now that we received our oil heaters, we have fire hazards. Block 3-6 has good system of fire brigades. Same time couldn't W.R.A provide 2 1/2" or 3" cotton water hose. Folded up in cage. So when fire does starts, we can stop the fire. I was expecting W.R.A. to put this up by now. But I haven't seen any improvements toward this.

on Apt. 5-C. They are from Gila, Ariz.

VIII. MANAGER'S NOTES

The people are anxious to have a little more in the way of recreation. With this very hot weather coming on they would like to be able to go to the river once in a while on Sundays. It is only right that they should be able to do so, because they are "cooped up" in a small place all the time and it is mentally as well as physically to our benefit.

There should be a way to provide such transportation as necessary for that purpose. Perhaps it will be necessary to fix the roads, so that it will be possible, it will be easier for the truck and passenger.

VIII. MANAGER'S NOTES

The weather is getting hotter and the air conditioner will be running most of the days and nights. Especially the barrack #13 and #14.

The fuse in the barrack issued by the WRA is only 15 amp. fuse. Even the 30 amp. fuse put in by the evacuee burns out. When the four coolers is running, the fuse is bound to burn out.

To avoid this, what about installing another wires and FUSE BOX in each barracks.

VIII. MANAGER'S NOTES

Camp I had fires at Block 44 and have lost a Mess Hall and #14 Barrack. Camp III has not had this misfortune yet. To keep up this good record we should have the Fire Department move to more centralized location and have fire alarm in each block. Also have (at least "2") hose handy in each kitchen mess. Because most of the fire hazard are around kitchen.

VIII. MANAGER'S NOTES

The weather is getting hotter and every family is using cooler. The fuse will start blowing out because of over loading with juice.

If every apartment had been installed with side wall and ceiling, the people will not use the cooler so much and appearance of each apartment will look better, when visitors from other center or "outsider" come for a visit.

When the wind blows the apartment is full of dust, the evacuee has a hard time cleaning the whole apartment. He or she has good chance of causing Tuberculosis or some other serious sickness.

So therefore I would like to see this Project hurry and install the ceiling and side wall because of the following reasons;

1. Economical Standpoints
2. Comfort to the Evacuee
3. Appearance to "Outside Visitors".
4. Fire Prevention
5. Health.

VIII. MANAGERS NOTES

In any individual block where there are 250 to 300 persons concerned, there are always important matters to be taken care of by the block manager's office. In case these important matters must be taken care of, it must be written in letter forms, requiring many envelopes and postage stamps. In all cases the letters written for the whole block residence benefit were usually paid for, or donated by some individual. Therefore we would greatly appreciate that the project issue to the block managers office a supply of stamped envelopes.
