Dear Sir:-

I have just listened for the second time to your informing presentation of the question of the Japanese situation in this state.

I also heard your previous broadcasts on this subject, in fact I hear most of your broadcasts and like them.

This last one seems to me vitally important. I have wondered at the apathy in regard to a matter which seems to me fraught with danger.

Your exposition of it seems so clear and comprehensive that I should like a copy of it for future reference.

Is there any way in

2.

I could procure such a copy?

I should like it for my own use and would be glad to bring it to the attention of others with whom I am associated who do not listen to the radio.

Will you kindly inform me if I can obtain it.

Thanking you in advance

I am sincerely yours.

Anne Richards Crawford.

P.S. I enclose stamped envelope for reply.

Dear Sir:

I will appreciate it very much if you will send me a copy of your radio broadcast of January 6, 1942, 12 o'clock, noon. Your biography of Chaim Salomon's life was particularly interesting as I have never heard of it detailed as thoroughly.

Thanking you very much, I am,

Dear Mr. Hughes:

Congratulations on your broadcast tonite, and last night too, (Fri. 16th) It did me much good. You have had the nerve and opportunity to tell the public the truth, what every thinking person who has lived among these "American Citizen" Japs very long knows full well. WHY can't America wake up.? They WILL wake up someday ? BUT too late. These damn Japs here have been educated for fifty years to act when this (present) crisis arrives, they have been taking peaceful, tho unlawful, possession of the Pacific Coast for the past fifty years, Most people know it, most people resent it, but as you say the officials seem to encourage it. Sure, they shout their loyalty they buy bonds, a good investment, But wait untill they get an opportunity -the old dagger will out- I do not believe there is any such a thing as a Loyal American Jap. Let us hope that you dwell on this very vital subject often in your future broadcasts.

Perhaps that terriable plane crash, near Los Vages last night was caused by a little sugar in the gas tank -by some "American" Jap or German".

At Sky Harbor Airport, Phoenix, Arizona, they have a Japanese servicing planes. I have a son there taking his final course in flying, I was greatly relieved when I learned that he did not work on the planes in my boys school. BUT he works on the planes that some of our boys (some-bodys son) has to fly. A loose nut, a drop of acid, a little sugar and many many other dirty little tricks so easily done by a dirty two faced rat -like we know the Japs to be- could cost the loss of lives and planes. WHEN WILL AMERICA WAKEUP ?

Very greatly yours.

My dear Mr. Hughes,-

In listening to your seven o'clock broadcast this evening over station K.G.B., will say that I am very much in sympathy with your views as expressed on the alien situation, and particularly the Japanese as they affect the Pacific coast, and most of all our State of California.

Because I am very sure that a large segment of all Californian citizens feel as I do I hope you will continue to expose these vexing, and at these times, dangerous practices followed in regard to the Japanese by our State and National Governments, as well as some of our large corporations and land owners.

Would it not be possible to put into circulation hundreds of petitions memorializing the proper authorities, State and National, to take the needed steps to right this situation; giving us relief from a condition that in California has been growing on us as a cankerous sore for many years, and now with our coast infested with alien and double citizen Japs, most all of whom are first for Japan, we might and possible will experience extensive sabotage, and by our present laxity are inviting it. This, I feel is a far more dangerous possibility than our being bombed or shelled by Japanese raiders.

Now I believe there are hundreds like myself in every part of the State who would at his own expense volunteer to circulate such petitions, and with our people in the mood they are now in, they would surely make themselves heard.

I hope Mr. Hughes you will keep up the good work, lets rid California of the Japs menace now and forever.

Dear Sir,

I am writing to you to inform you of my wholehearted concurrence with your news in regards to alien Japanese in California, as expressed by you over the radio. Your Newscast has been a source of information to me as to just what is going on behind the scenes in California. I did not know until your Newscast of January the seventeenth, what a small percent of Japanese did the cultivating of vegetables in California. I had thought the percentage higher than ten percent. If, as some people claim, that California's vegetable supply would be

jeopardized by the evacuation
of alien Japanese away from the
Pacific Coast, then I believe,
the state or Federal Government
should finance, by loans of money,
the loyal Filipino, Italian, and
Mexican workers of truck farms to
buy out the alien Japanese who
are owners of truck farms and
produce wholesale houses.

If you will please inform me
of the names of the Canning companies
and business houses that prefer to
do business with these alien Japanese
and who are lending support to the
pressure groups in the State Legislature,
I can promise you that Organized
Labor in Contra Costa County will do

• all in its power to change the minds and actions of these groups who are working for their own selfish interests and personal gain.

I am writing tonight to my State Senator and Assemblyman to express my ~~gains~~ news in full. Keep up the good work Mr. Hughes, every loyal Californian is behind your efforts to get something done about these enemies of ours.

Yours truly,
Palmer Lamont.

My dear Mr. Hughes:-

You have had so many letters about your recent broadcasts on the enemy within our gates that I shall only add all I have to say in one word: Congratulations!

However, I note that the sponsor and station are now disclaiming responsibility for what you say; so against the time when the handwriting portends that you will no longer be permitted to express yourself in this way, can't all of us who listen to you with approval get together to bring pressure on our elected officials, who, as you paint the picture, begin to look incredibly like certain Frenchmen?

I for one would gladly type letters which could be framed by some central group under your supervision. Surely many of us who cannot make or carry a gun can perform a very useful service by the contribution of a little time, postage and effort.

I think we are handicapped individually in trying to sound the warning by our lack of specific facts and our dislike of seeming to spread rumors. A central group or committee could sort facts from rumor and provide us with the verbal ammunition we need to make ourselves worth listening to.

The map on the attached card, if you happen to recognize the locality, indicates that I am adjacent to several Japanese fields and homes, and various odd little things I have noticed have made me perhaps peculiarly alert to the meaning of your broadcasts.

If such an organization as I have suggested has been or can be started, will you please let me do some of the work?

Sincerely yours,

Helen I. James

Mr John B Hughes - Dear Sir

I just want to express my self on the stand you have taken in regards to the Saps. I have lived from Los Angeles to Sacramento for fifty two years and can remember when there were no Sap farmers. The Chinamen and Mexicans did the truck gardening and we all had vegetables. The old Chink with his Que would go all over town with two huge basket on a yoke around his neck and bring them to your door. To day the Saps have them in the markets. but worse yet is the way they have obtained control of the orchards around Auburn in Placer Co. 95-percent of the orchards are Saps. So keep up the good work till you get results. and I think you will. Lots of Luck.

My dear Mr Hughes—

You broadcast this evening
(Saturday) was indeed in lightening
and horrifying to say the least—
In speaking of the firms who uphold
the rights of the Japanese fishermen—
the public should know exactly who they
are. They would be black listed by every
honest citizen and rightly so. Please
state the names of these firms. Otherwise
what can we do, if you shield them

by not revealing their names?

My husband and I are writing to
an representative in Sacramento.

Why don't you suggest this to other
citizens who listen to your broadcast.

We need action. We ordinary citizens
who represent no interests except those
of people of the state of California —
are the only ones who can do anything.
Please explain over the radio how we
should assert ourselves. This is
an emergency, and no time to lose.

Dear Mr. Hughes:

I have just listened to your seven o'clock Saturday night broadcast, in which you made remarks which you said were a repetition of a previous broadcast. You added that these remarks had been objected to by some government officials, but not by any member of the general public, and you concluded that the absence of objection from the general public indicated its complete and unanimous accord with your views.

I did not hear the original broadcast, but if I had I also should not have objected. However, I see now that such a lack of response is misleading to you.

In fact, I agree with you only slightly. I must admit the probability that there are a few Japanese in the United States, both citizens and non-citizens, who are engaged in espionage or sabotage, or who would do so if given the opportunity. However, there are objections to the wholesale condemnation, without individual trials, of all the members of any race. I need not state these objections, since they are based upon Christian and democratic principles which any American can explain to you.

There are also specific objections to the indiscriminate persecution of persons of Japanese ancestry while this country is at war with Japan. Most of these people are trying to be loyal Americans, although it must be difficult. You do not help them.

Finally, there are agencies of government for the prevention, or detection and punishment, of espionage and sabotage. You do not say that you are better informed than are these agencies regarding what should be done about dangerous individual Japanese, nor do you say that they are not taking such steps.

There are so many objections to what you said that I do not know why you said it. The only reasons I can think of are not praiseworthy, so I shall say no more about them without further evidence.

Sincerely,

John K. Frieborn

Dear Mr. Frieborn:

Thankyou for writing me your opinion in regard to the Japanese residents of the United States.

To explain why there is great danger at the present time and why a policy of control of these aliens, as well as their American born descendents, is necessary, would require more time than I can afford or you would be willing to give.

I do wish to point out, however, that Christian and Democratic principles to which you refer, have been the subject of much Japanese ridicule directed toward this country. I too object to "indiscriminate persecution", which is what we will have by mob action if an official policy of control and protection is not speedily adopted.

Some American born Japanese who have been aiding our government authorities admit that in more than twenty-five percent of the American citizens of Japanese ancestry could be counted on for loyalty to the United States.

Thankyou for your interest.

Dear Mr. Hughes:

I wish to congratulate you for seemingly being one of the few men in the public eye who understands the Japanese menace on the Pacific coast.

Until six months ago I held a position in California's Santa Clara Valley, and daily was in contact with many Japanese, some of whom I would trust but most of whom I would not, in the present crisis.

I sincerely hope you continue to hammer away

on this problem and that you keep after it until those in authority realize what danger this alien group creates.

I would especially like to commend two recent broadcasts: First your statements as to what has been done in Mexico and in British Columbia to eliminate to a great degree the effectiveness of Japanese Fifth Column activity; and second, your reading of the letter you received from James L. Young relative to Japanese treatment of foreigners who have been jailed by them. If it is in any ^{way} possible, I would like to have a copy of that letter. I realize that it is a personal letter but since it was made public, I feel it may be all

right to request a copy which would be most appreciated.

Since you have today brought out that Japanese language newspapers should be eliminated, may I suggest that there is also no need for Japanese-language schools, fruit and vegetable growers associations, and other organizations made up of Japanese. It might also be investigated why many Japanese, past middle age to be sure but certainly not old and feeble, recently took trips to Japan explaining that they wanted one last look at their native land before they died.

This is my first and probably my last letter to a noted person in any field, but having held a firm conviction that most of our Japanese population are not loyal, I was most gratified to find someone whose voice reaches many with the same conviction and with a willingness to voice it again and again.

Thank you for your clear headed and unhysterical daily analysis. Best wishes for continued success.

My dear Mr. Hughes:

After listening to your
broadcast for several mornings
I am voicing several friends
and many acquaintances when
I say that we heartily agree
with you that something
should be done immediately
about the Calif Aliens near
our coast, especially the Japs.
We hope you will continue
to try to drive home to the
authorities and citizens the
necessity of eliminating all
this menace - Why those
people who have relatives

in U. S. A. Service do not
wake up until some dis-
aster happens, is beyond
me.

About two blocks from my
home is a cleaning & dining
estb. owned by Japs. They
do big enough business to
own about six of very mod-
ern model light trucks or
delivery wagons - Certainly
Japs themselves do not
support such a business,
therefore it must be white
customers - In this place
was found a short wave
sending set - several radios
yet they are open for business.

Finishing this equipment -
I should convince the author-
ities that they are not to
be trusted - The large sums
coming from a tricky alien

should not blind authorities
of the real purpose behind
such a move by Japs.

I wish I could find a
way to make the citizens
see the necessity of re-
moving all Japs from the
coast. No white person
in Japan has such freedom.

Please keep on making
every effort to awaken
the people that something
should be done about this
menace at once.

Thank you for your very
interesting broadcast -

It draws up the comparison of interdecency treatment against inhumane treatment accorded us. Dear Mr. Hughes:

Last night, January 17, I came into the room where the radio was on for your seven o'clock broadcast. You had been speaking, however, for about five minutes so I did not hear the first of the broadcast. What I did hear made me gasp. It seems incredible that after Pearl Harbor even selfish interests would be willing to turn the vulnerable State of California over to Japanese treachery, for that is what it would amount to in a very short while if these interests have their way.

The people of this state should rise in protest, and I believe they will if they know how to go about it. Can you tell me to whom the protests should be directed?

Also, I should greatly appreciate a copy of your broadcast of January 17 if you can send me one. I enclose a stamped envelope for the purpose. I should like to show the copy to people who may not have heard you.

I shall write to our state representative in Sacramento regarding their refusal to vote funds for the State Defense Guard.

Thank you for your courage in bringing out the danger to which we are exposed.

Yours sincerely,

(Mrs) Marie Louise Guthrie

Dear Sir:

May we have printed copies of your broadcast of Saturday evening in which you pointed out the facts regarding the Japanese here on the west coast? You surely hit the nail squarely on the head. We citizens seem so helpless — the only recourse we seem to have is through letters of protest or petitions. Would it be possible or permissible for you to suggest over the radio that citizens who agree on this point write letters to governor, president, senators asking that all Japanese be removed at once from all three Pacific Coast states to internment far inland. Your interest in this subject is appreciated by many citizens.

Very truly yours,

Dear Mr. Hughes:

We have always enjoyed your broadcasts, but last Friday morning I was so pleased and gratified to hear you express the opinions and views I have had for years about the Japanese.

We Westerners for years have watched any attempt to curb them through legislation, sacrificed for the benefit of our politicians. Would appreciate if possible a copy of your Friday morning's broadcast or Saturday evening. Copies of those two broadcasts should be made available to the public. Naturally, with a charge for same. There are hundreds of us who feel the same about Japanese ownership of land and civil service privileges.

Even a war will not awaken some people to the dangers of the future, but I know a successful movement could be made in the West Coast states to annihilate all Japanese and their origin even if the government will do nothing at present.

Hoping that your broadcasts will carry more information on this subject, I remain

Yours sincerely,

I heard your broadcast today at 12 o'clock entitled News and Views by commentator Hughes.

If Mr. Hughes has well grounded data upon which he based his remarks, I most strongly urge you to see that a transcript is brought to the attention of the proper authorities in Washington or the West Coast, or both. It is high time, in my opinion, that more people in authority rub the sleep from their eyes, take a cold shower, roll up their sleeves and GET TO WORK, WITH NO FOOLING ABOUT IT.

My dear Mr Hughes;

You have spoken of the plan, or possibility, of the government moving vital air plane and other defense work farther inland than San Diego etc.

I am interested, not for myself, but because of a most interesting situation, very tragic, now in New Mexico.

The so called "natives" there, that is the descendants of the early Spanish conquerors, are a much neglected element in the population, in fact there is a sort of Carpet-bagger administration, with no relief or chance for work for thousands of Spanish Americans living in remote mountain villages. They are literally starving.

Now they hear of high wages in San Diego and my friends at Taos write that there is likely to be a mass migration to California. Perhaps they would indeed find work. Most of them are intelligent, energetic, honest people. But I want to ask how likely it is that defense work may be started in their own region. And how soon. These people own their own homes, have built them solidly out of adobe, and they love their mountain homes. Should they be encouraged to wait for industry to come to them or is it better to let them make this painful effort to reach San Diego believing they will soon be able to repay the expense from the high wages?

I know you are busy, but have you just a moment for this question? I shall be most happy to forward advise to Taos, and other towns about there.

Yours with appreciation,

Dear Miss Hale:

Thankyou for your letter and your inquiry, however I do not know of any plans for general movement of defense industries away from the Pacific Coast. Although there have been other plants built away from this area, I do not know about their distribution. My guess would be that there is little likelihood of any such establishment in the vicinity of Taos, or anywhere where there are not already established industrial facilities.

You are surely covering the whole ground truthfully, except, you have not stated, at least I have not heard, about land being put into new born babies names,

We do applaud your stand & I hope, the 'certain interests' we all know of - do not stop your broadcasts -

that the Jap vegetables are not quality stuff.

Many times whole bunches, are so 'woody' they can not be cooked - & others thick with arsenic spray -

now why cant the Chinese take over - there are many 'old ones', still able to supervise, most of them are living in horribly unhealthy places, & as in San Francisco, it would be a god send to get them out into the country -

And people here ^{many} still trust in them because why? No better nation of people have been better trained for "lying" than they - and a nation of "hypocrites" to be able so far to do to the white race - is something horrible to think of - yes to almost beat the American and English to a chasour ^{down} Japan has been sending and keeping its people - coolies as well as better class - to the four corners of the globe to learn to watch - and report to its Government ^{by} the people at large in its homeland all they believe can be of use. At our January 19th, 1942 meeting of the American Legion, Coos Bay Post #17, Marshfield, Oregon, you were highly commended by our organization on your nation-wide broadcast, and on the stand you have taken in demanding all enemy aliens be removed from the coastal areas to the interior territory.

My dear Sir:-

WHY haven't we more On The Air like you? Just you continue your exposé as you did this A.M. regarding the three Japanese Language Newspapers on the Pacific Coast and include all of these damnable foreign language Broadcasts we hear daily thruout America and in this connection I am reminded of the typical Arkansas Hillbilly who was recognized and cornered by a crowd of "the Wise? Lads" at 42nd., & Broadway. They said to him: "There are a lot of 'SAPS' down where you come from aren't there?" "Sho'", he said: "But they don't run--in HERDS--like they do up here", and Mr. Hughes that "hick" wasn't foolin'; we are a bunch of Saps especially when, seemingly, it comes to protecting our National interests. Now let me tell you one thing; once an American, a Britisher, a German, an Italian, a Japanese ALWAYS ONE and ALL the Naturalization Papers on earth doesn't alter that fact one iota. Foreigners can claim their Americanism until they are black in the face, they are--so long as their HOME LAND is at PEACE--BUT--just let that same Homeland get into a scrap and don't you think for a moment that they aren't heart and soul for said--HOME LAND. We Americans are no different as some of our wealthy expatriated women proved when this second war broke out in Europe. Didn't they come "hiking back to that impossible U.S.A."? You just bet they did, furthermore they were darn glad to get back and reclaim their American Citizenship.

Was delighted to hear your "wonderment" just WHY a--ll this fuss was being made over Lombard death and not one poor little word about those 15 fine soldiers to whom we owe all our allegiance. There is a great deal that one could say about "Press Agenting" et cetera which is best left unsaid at this time but, to me, most any one can sell Stamps and Bonds now but how many can fly a Pursuit Ship, handle a Tank or machine gun?

You are privilege to use any part of this letter if you so desire.

Where does most of the cackling come from - if not from Washington?

First Winnie Churchill tells the whole world in his speech - that we are weak in the Pacific because we have given away our defence weapons then he informs Hitler and the japs - that we will take the offensive in 1943 - but the japs decided to visit us first. THERE IS really no head or tail to the way we are trying to run things to-day. Orders are countermanded, reversed, duplicated. Every business man who has the slightest connection with government work knows that to be a fact by bitter experience; and the average citizen now knows it too through the totally unnecessary confusion and contradictions in preparations for air raids and blackouts, a confusion which Mrs. Roosevelt said recently baffled even the White House.

Dear Mr. Hughes,

Thank you for your enlightening broadcast.

We admit that the low and inefficient manner with which the Japanese problem is being conducted is sickening - but - is it not characteristic of the manner with which all of our National affairs are handled?

Here is another example and there are plenty of others.

We are continually reminded

crowers and cacklers there.

Were it not for the fact that the whole future of our country is at stake, the whole performance would make good reading for the funnies.

The tragic side is, that we are the innocent victims.

Keep up the good work Mr.

Hughes.

Sincerely Yours

Mae West.

There's going to be much questioning of the policy that permitted American aircraft and American tanks to be diverted to other than American Armies while American forces in the Philippines were left inadequately armed.

Mrs. Roosevelt was first to reveal in a public speech, which was censored after delivery, that the White House was dissatisfied with the way William Knudsen was directing the arms program. President Roosevelt then took occasion to praise Knudsen privately, and the change in leadership soon followed.

Mr. John B. Hughes,
c/o KHJ, Don Lee Station,
5515 Melrose Avenue,
Hollywood, California.

Dear Sir:

I have heard your broadcasts regarding the alien Japanese activities in Southern California, and particularly in Los Angeles, in the fish industry and also the vegetable produce.

I am Chairman of the National Defense Committee of the Lawyers Club of Los Angeles, and my committee would like to assist in cleaning up this matter and would welcome any suggestion from you, as to the manner in which to go about it.

This committee is composed of lawyers who are anxious to aid in national defense.

Your investigations will probably show the need for further work.

Any information you give us will be strictly confidential and needless to say will be used for the benefit of national defense.

If you desire to investigate this committee, kindly call any Superior Court Judge, or the District Attorney's Office.

Sincerely yours,

Marion P. Betty

Dear Mr. Betty:

Thankyou for your letter of inquiry in regard to alien matters. I am sorry not to have answered it more promptly, but somehow in the press of activity at this time your letter was mislaid.

I think the developments of the past two weeks indicate a more thorough treatment of the situation, and that an adequate policy will soon be in force.

Again thankyou for your interest.

Cordially,

Mr Marion P Betty

Dear Sir:

May I take this opportunity to commend you very highly for your attitude and efforts reference the local Jap Alien Situation; also to lend every support and encouragement to your efforts? It seems like it is high time that the people of this community recognize the seriousness of the existing conditions and rally to some organized support which you are now determined to instigate.

It may be a matter of interest and satisfaction for you to know how keenly and intently I feel on this subject by stating that to the best of my knowledge and recollection that this is the first and only time I have ever written in to any broadcast commentator, advertiser, or such.

Assuring you of my sincerity, remain

Very truly yours,

MEMORANDUM FOR THE DIRECTOR

DATE: [Illegible]

TO: [Illegible]

FROM: [Illegible]

SUBJECT: [Illegible]

Mrs. Robert S. Hoffman
605 West Arch Street
Pottsville, Penna.

Mr. John B. Hughes
W.D.R. N.Y.C.

Dear Mr. Hughes,

I enjoy your sincere and
straight forward broadcast.
They interest me very deeply.

You mentioned a Japanese
firm, to-day, that has a con-
tract to make tooth brushes for
the U.S. Army. I wish to
express my great disapproval
of this - and would like to see
this Company stripped of its con-
tract. Would like to do something
toward this end.

Yours very truly

Mrs. Robert S. Hoffman.

Dear Mr. Hughes:

I wrote you not long ago from San Francisco, but haven't received a reply as yet, though your broadcasts have done so, completely. Thank you for the sincere and courageous stand you are taking.

Won't you send me the copy of today's broadcast, Tuesday? My interest is from a health standpoint.

Sincerely,

Jane V. Hughes
