10/6/41

A group of local men, mostly Legionaires, were discussing your recent talks re - the Jap situation in California. We were impressed & feel that we are more sound asleep than were the Army - Navy & Civilians at Pearl Harbor. We want to talk it up. Could we get copies of your letter talk? Let's wake up the State of Calif. & the nation.

Send one or many.

I will do as you suggest in trying to interest members of a group - so far, the only success I have had is to get the promise of each member of the three Red Cross Circles I belong to, to promise to tune in on your broadcast each morning - Your statements

P.S. If our government  
 refuses to buy & feed all  
 Japs in California - they  
 could be made to earn their

Mr. John B. Hughes.

Dear Sir,

I am writing you to congratulate you on the good work you are doing by exposing the Japanese situation here on the Pacific Coast. I have been aware of the situation here abouts and down in the Santa Clara valley for some time past, and have seen how the Japs have been making inroads into the raising of flowers and the raising of fruit in these parts. I can not understand why they have been allowed to get ahead as far as they have, your exposures may wake up enough people to have something done about it, please keep hammering away until our State leads are forced to take up the matter. When the Japanese aliens were registered at San Jose <sup>some months ago</sup>, only one half the number of blanks were sent to this district as eventually were needed to be filled out by the Jap aliens in the San Jose district, this proves that those in charge have no idea of the real facts of this matter, you can verify this by writing to the Postmaster at San Jose, I have often seen how these Japs live in squalor on these ranches, and that young American boys have had to work for them picking berries and etc, it is a sad state of affairs when we have to stand for that, I offer you my assistance in any way I may help you in this locality, my own time and car and will stand my own expense to help clear the Japs out of California. I have heard my friend Geo Mcintosh at Butterfields speak well of you. Sincerely  
Philip J. Walcott. Box 3085 Redwood City.

Dear Mr. Hughes,

Just as I turned in last evening I heard you mention a new department that was to be created in Washington to facilitate easy flow of raw materials, development of South American harbors and transportation of labor for war industries.

Would you be good enough to tell me the name of this new department. I am desirous of seeking a position in its research or statistical department, or in a South American office, if such are to be maintained.

Thank you very much for your kindness in sending this information.

Mr John B. Hughes

I can't begin to tell how disappointed I was this A. M. in not being able to get your Broadcast - I particularly wanted you B.B. in the interview with Mr J. R. Young. I believe you are discussing a very important and vital topic. Why do we have to play into the hands of the enemies all the time? Isn't the lesson of Pearl Harbor enough? My radio was all right but your Broadcast for some reason was shut off the air here in Kern Co? Why?? I could get K.P.M.C. just before and right after the time schedule for you. Were they bought off or scared or what. I am reading

just now the book by Wilfrid

I learned long ago when I was a

were treacherous and now I am

Dear Sir:-

I have been listening at the noon hour each day to your broadcast with pleasure and profit; but yesterday ( Jan. 21 ) I was disgusted. Mr. J. R. Young whom you introduced as an authority on the far east, showed the same contempt of the Japanese that he has revealed in all his articles in newspaper and magazine. It is this same contempt for them that has brought to Pearl Harbor and Singapore their present plight; and instead of doing us any good it has been our worst enemy. The sooner we come to realize that the Japanese are brave hard fighters, with a great amount of brains and skill directing their affairs, the better it will be for us. The white man's scorn for all colored races has been and will be after the war is over) one of the greatest stumbling blocks to a permanent peace in that area.

Sincerely

Dear Sir:-

As a constant listener of yours, one who appreciates, understands and approves of your campaign to rid Southern California of all Japs. I would like to pass on to you a small item which I hope will be one more link in the chain you are accumulating against the Japs.

When I was retired from the Navy I lived in San Pedro Calif. for ten years. About 1938 the city of Los Angeles awarded the garbage collection contract to a Jap, from Lomita who was not an American Citizen. There was a small fuss about it locally, so the city fathers decided if the Jap would hire American Citizens to collect the garbage he could keep the contract.

As you have pointed out the Japs have a monopoly on the vegetable business I wondered if they are entrenched in the profitable garbage disposal business.

I remain,

Yours very truly

Dear Mr. Hughes:

The average man tries to do all he can for the good of the country in trying times, he also knows that all he and thousands more like him can do, can easily be voided by the stupidity or incompetency of public officials. He also feels so small and helpless, that there are plenty of evidences of inefficiency, carelessness, complacency and incompetency in public offices, before his notice. For these reasons I, as an average citizen wish to congratulate and commend you for your recent broadcasts.

You are voicing the opinions of our family and I believe of thousands more like us. We hope you will continue.

Dear Sir:-

It is my firm opinion that all Japanese on the west coast should be either under stricter surveillance than they now are, or should be deported to less vulnerable areas (concentration camps preferred) for the duration of this war. There may be a few honorable & good American citizens among them, & no doubt there are, but the great majority of these orientals I believe are beyond a doubt no better than a time bomb in our midst.

I think that you are one of our very best broadcasters on Pacific affairs, and I succeed in hearing most of your broadcasts. But I don't think you are advocating the wisest procedure about our Japanese population. Those who are loyal Americans, as many are, will be more useful to us here in detecting spies than they would inland. If we move them all inland, we shall have to support them, for a long time, at least, whereas here they can earn their own living in ways that fit in with our organized economy. Most of the alien Japanese came here for the same reason our own ancestors did, because they wanted to get away from their own country. Some, of course, were planted, and our FBI is doing a splendid job of finding out which those were. *Cordially yours.*

Dear sir:

I believe it was about Wednesday Jan. 14 that I first heard your broadcast in reference moving the Japs inland away from our coast. This is a subject that should be brought to the attention of every member of Congress and the State legislators of California, Washington and Oregon. You are the man to do this and I hope you will hammer away until some action is taken.

It is my personal opinion that there is no such thing as a Jap that is loyal to the United States. I do not believe there is a Jap, whether born in Japan or here in the U. S. that would not like to see Japan win this war and every one of them would assist to that end if they were not afraid of getting caught.

The whole outfit, should be gathered up and removed back into Arizona or New Mexico and placed in internment camps until the end of the war and then deported to Japan. We now have an opportunity to rid this country of the yellow devils once and for all times.

I note that they are trying to re-open their schools. These would make good places for them to gather and exchange information for their fifth column activities and they should by all means be prohibited from gathering in groups, or from travel of any description. We are at war and millions of fathers are asked to give their son to fight these tricky slimy creatures, while they stay here at home and plot and plan the overthrow of our people.

You have hit upon a subject that you can sink your teeth into and I hope you will not let up until every Jap in the United States is placed in a camp for the duration of the war at least.

Yours truly,

M. T. Speer.

Dear Mr. Hughes:-

As one of your constant radio fans, I am writing to find out if it would be possible to receive a copy of your broadcast of FRIDAY JAN. 16, 1942, wherein you spoke principally of the Japanese in responsible positions on the west coast. It covered so much information and my radio was acting up a little <sup>with</sup> noises and that is why I would like to have a copy. If you cannot do this, will you answer this question, CAN JAPANESE BECOME NATURALIZED CITIZENS? In our home we thought not, but a friend tells us she thinks we are wrong. I would like to know for sure, and I believe your broadcast that day covered it.

I will thank you in advance for a copy, or else an answer to my question, and at 12:00 o'clock tomorrow I expect to listen to "news and views with John B. Hughes".

Dear Sir:

I want to express my appreciation to you, for your diligence concerning the Japanese menace to our coast.

This last week I have heard of three instances, from a reliable source, in which Japanese were giving inferior service and when called about it replied - "You will be glad to take anything you can get when we take over California."

One was a case where a woman happened to have a bottle of milk with her- she beat the Jap with it so he had to go to a hospital.

Such open boasts by these Japanese should not be ignored, and it is time our Government is waking up to the fact that we in California do not want another Pearl Harbor incident, or warnings disregarded as they were concerning the Japanese menace in the Pacific.

Keep up your good work.

( To hand on to the proper authorities, if you see fit. )

My dear Mr. Hughes:

The inclosed is part of a letter just received from Laguna Beach, Calif. My reason for sending it to you is this. I have lived several winters there in the past, and I feel the citizens of this coastal town are the sort who would allow Fifth Columnists to move in, quite unaware of the fact. They are so unsuspecting, kindly, and almost all have something to rent or sell, therefore outsiders are welcomed.

I have myself heard lies told there by folk who needed to bolster themselves up, and it seemed to me that such are never doubted. I admit this trait is our glory in many ways, but NOW, such may prove our greatest weakness.

I know you are one who sees danger to our coast, and are in touch with others who are alert. This may be of no consequence, but it fills me with a sense that all is not right.

Please take it for what it is worth.

Dear Mr. Hughes:-

The occasion of your recent discussions of the Japanese, citizens and American Born, in the United States, and especially in the Western part, is evidently approached from a high degree of understanding.

It must be apparent to students of the situation that this country cannot in justice, foster and encourage participation of a people in our every day affairs, who, for one reason or another do not intermarry or otherwise become assimilated, and it seems reasonably certain the Japanese will continue in that category.

It is not possible to intelligently argue that a man or group of people, who by the very nature of things are not acceptable into our social order can be loyal to that order. Putting it another way, unless they become an integral part of our American society, mingling with our Church congregations, our fraternities, our clubs and in our homes as blood relatives, all of which must of necessity be by common consent, they are not rightfully to be expected to share our worries, perhaps the greatest of which is War.

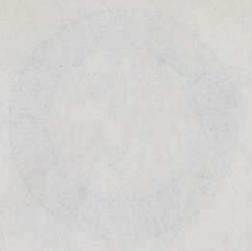

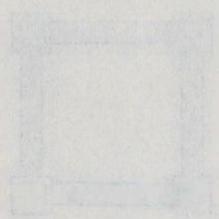

While many of us have Japanese friends and are loathe to hurt them we must at the same time weigh the matter in the light of judgement and thus face the fact it might be more unkind to evade an issue which we know will have to be met squarely at some future time.

If your remarks in this connection can start the American people toward a humane solution of this gigantic problem certainly I feel your efforts will not have been in vain.

Truly yours,

Robert J. Lloyd

Mr John B Hughes

Dear Sir

I wish to thank you and express our appreciation for your persistence in expressing the views of the West Coast, and trying to convince the East & Middle West that there is a West Coast; very important & very vulnerable.

The East has never been West Coast conscious - they traveled to Europe rather than West and I feel have never got over their narrow point of view. Some years ago, I

was at a dinner dance at a New York Yacht Club + three gentlemen (who had evidently never met anyone from Seattle before) came to me to settle on an argument, as to whether one could get to Seattle by rail; some of them contending that one must pass thru a long water-way to arrive in Seattle.

I told them it depended on whether they were arriving in Seattle from China or N. Y.

We felt so personally grateful to you for your dogged mention of ships sailing to Japan loaded with our scrap iron + oil, as it was a sickening sight 2 years ago to see freighters so loaded setting out from L. A. + Seattle.

I never heard this wicked traffic mentioned by another Commentator. I have heard that the Seattle streetcars + rails were sold to Japan (I cannot verify it) and now our own materials will find their end in the flesh of our sons; tho I have agonized equally over the Chinese, we deserve it - they did not.

I was glad to hear you say that 25% of younger generation Japanese are loyal. I knew that many must be, but you are right that we they cannot divide loyalty between 2 nations + we are most

94  
dilatatory & stupid in not removing them from the Coast. Some innocent may suffer, but, so also are innocent Americans suffering in seeing their young with their futures destroyed and facing torn lives, if they live. Thank God, the tragedy at Pearl Harbor, tore away

the sentimentalism of America which barred common sense.

We do thank you for your sane well balanced comments and especially for insisting that the West Coast is a part of America. What do you think of the Senators trying to get pensions for themselves? Is it not tragic that our present & future lies in such greedy hands?

Sincerely yours

Arthur & Harding Gow.

Dear Sir, We sent you a card commending you on your attitude toward removing all alibis and decendants from vital Coastal areas and we believe thru your calling attention constantly to the inadequate protection, maybe we will get results and something be done about it.

Now the critics are calling on punishment for those responsible for carelessness in Pearl Harbor.

I can't help feeling they should get as much as was dealt the Great General William (Billy) Mitchell.

His crime did not take thousands of lives and cost the Government millions in dollars.

His mistake if it could possibly be called that was trying to make the billiwigs in Congress Navy and Army realize and try to understand and prevent - just what is happening today.

Why would it be a good idea to make

those leaders read again the  
Books of Billy Mitchell -

The famous predictions, besides  
where he tried with all the energy  
of a famous man and leader to  
tell his people the truth.

He was crucified if ever a man  
was since Christ.

I heard you give a very nice talk  
of General Mitchell's treatment.  
So it again.

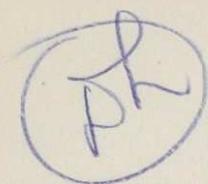

If ever a man needs vindication  
he does.

We would not be where we are to-  
day if we had heeded his warnings.

American people have to be prodded.  
I know. I have been working in Civilian  
Defense 9 months getting nowhere.  
I hope you read this. Thank you anyway.

Dear Mr Hughes,

I admire you efforts in this Jap situation, it is the finest time in the world to break up this hold they have on farming and control of the markets.

Here is a case that investigation will show complete control of fruit and vegetable growing and marketing in the San Joaquin Valley.

Head of the concern is Jap by the name of Kono, home being in Livingston and his business location as well.

Is head of many companies, is hooked up with wineries as buyer and is in everything connected with fruit and vegetables.

Holds hundreds of acres of the best vineyards in that section under names of U.S. born Japs.

Wishing you the best of luck

I wish to compliment you on  
what you have been doing on this

TIME SAVING MEMORANDUM

Jan. 28, 1942.

Mr. J. B. Hughes,

Many thanks for the copy of your Jan. 16th speech. Will see that it gets around.

Here is an incident that proves how right you are:

I have a Japanese customer, a garage run by a Jap and his wife. She was born in Marysville and educated in the local public schools. She is quite bright, acts and professes strong Americanism.

About eight months ago, long before Pearl Harbor, we had a friendly conversation during which I mentioned how lucky "we" were living away from dictator nations in freedom and security. She agreed but admonished in effect: "Yes, but if we don't watch out we'll get in trouble. We should keep our nose out of Japanese business. After all, our Monroe Doctrine keeps others away from this continent so why do we meddle in Asia?"

That shows how these native born Jap citizens think. Of course, no Jap would make a remark like that now but THEY STILL THINK THAT WAY.

Dear Mr. Hughes:-

You are a real patriot and have the interests of we coast inhabitants near your heart. Whatever is done about the Japs living in the Coast states being moved is due to your untiring efforts. More power to you and don't give up until you get action aplenty. Instead of "Remember Pearl Harbor" it will be "Pity the Pacific Coast."

One of my neighbors said she should think you would be afraid someone would kill you for what you are doing against the Japs. I told her you no doubt would gladly give your life the same as any

soldier does for the good of the country. But I hope that doesn't happen as I know you are doing many other good things for your country that we don't know about.

Please excuse this letter but I just wanted you to know how I feel and want you to have the credit due you in this very serious business of putting the Japs where they belong - and that isn't any where in this good old U.S.A. Japs in Japan is my slogan.

Dear Mr. Hughes:-

I think the people of the west coast owe you a vote of thanks for your aggressive stand in the matter of the removal of aliens from the coast.

However, I notice, with disappointment in today's news that the best we are apparently going to get is certain restricted zones. This maybe better than nothing, but there is certainly going to be no way to determine whether German, Italian + Japs that remain within the restricted zones are aliens or not without actually branding them.

This arrangement, however, I hope will lead to the complete expulsion of all aliens from the coast.

The present zone plan looks like just a feeble gesture on the part of the Attorney General to stop the hue + cry that has gone up from the people of this area.

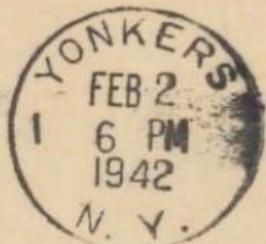

Hoping you will continue to pound away for complete evacuation of all aliens in this territory, and thanking you for your determined stand, I remain

Very sincerely,

Dear Mr. Hughes:

I know you are happy, "Aren't we all". With the late round up of the Japanese aliens at Terminal Island this morning, I have wanted to write and thank you for your broadcasts on the danger here on the coast of that alien menace, and the vegetable situation, being controlled but not worked by the Japanese, that was news to me, I thought more of them worked in the fields, and many others thought likewise.

I believe your broadcasts has done a great deal of good in bringing that information to the people, about the fishing industry many of us have known how the politicians in Sacramento voted to keep them operating, or voted to keep the bill in committee, which was the same thing as it was sure of passage if it had got to the floor at that session, as the Naval Reserve, the American Legion and many patriotic groups were back of the bill, after the session ended Benjamin Harrison now U.S. attorney, came to our district and told how our assemblyman voted to keep the Japs in the fishing industry, here on the coast.

He was asked to explain it at a group meeting where I was present, he said he couldn't vote against the bill, because it didn't get to the floor, then I found out it was his vote kept it in committee, when he was up for reelection in 40 we brought that out in the campaign, but he was elected by a big majority, because the people didn't care what he did, he was a democrat, and they were democrats, and that was all that mattered. He is now a municipal judge appointed by governor Olson last year.

We think you are doing very good work, and you are one of the commentators we seldom miss, with Fulton Lewis Jr. from Washington.

Hoping you will continue that good work, we will be listening.

Feb. 5, 1945,

Dear Mr. Hughes,

We listened recently with great interest to your illuminating discussion on the Japanese situation, and agree with you that the present area restrictions merely put them "across the street." We were so impressed with your thorough investigation and understanding of this whole problem that we look to you as one whose authority will, we hope, help to hasten the dreadfully slow procedures now taking place. We want you to know that we feel

there is too much laxness  
 about our enemy claims  
 and we applaud every  
 strong word you say in  
 this respect. It seems the  
 most an ordinary citizen can  
 do is assure a man of your  
 forthrightness and clear thinking  
 that he does express the  
 public opinion too and that  
 that public is with him in  
 his fight to see sensible  
 action taken in this state of  
 emergency. We hear all your  
 broadcasts with genuine  
 appreciation.

Sincerely,  
 Meraka Vijay

My dear Mr Hughes,

Your courteous  
reply to my remarks  
quite surprised me  
realizing how busy you  
must be.

Recovering from an  
illness I have had the  
opportunity to hear more  
radio programs than usual.

I was first interested  
in your Ship Bees in-  
troduction. A sailor's  
wife reacts to "Four Bees",  
my late husband's old ship  
clock chimes on in our  
home. He had it during  
H. H. No. 1 -

However I soon learned  
you were saying worth  
while things, deserving  
attention.

Re. the Japanese  
question you must feel  
a certain satisfaction  
in the awakening of the  
Pacific Coast to its peril,

remembering you were long hammering at the subject while we slept. I believe your constant repetition of our dangers has aroused many of us to add our voice.

Sen. Johnson replied to a letter of mine saying the situation is serious, and that something is being done. I hear from many quarters the wheels are turning and I hope a continuous alert will be exercised over Japanese, and other enemies here.

I thank you for those splendid remarks on our late President Woodrow Wilson. When he visited S. F., as president of a group at the time, I was among those invited to meet him. He looked weary and disappointed. He said "I expected them (Congress) to discuss it thoroughly, but I did not expect them to take so long about it." I did not hear any other reference to

him on his sad anniversary than yours.

I thank you again. I was born and educated in England - all my relatives are still there, doing their bit for freedom and England. A sad circumstance brought me here. I am so thankful to be an American no words of mine can express it. There is something sacred about being an American.

I hope the Darymen of California work out a plan to economize. It would be interesting to know the strain on the price of a qt. of milk, from the cost of parasitic agencies, to the container at the door. -

I wish to say, re. your sponsor's products. We have tried most of them, and believe them worthy a place in our lives.

Last July my son bought a Studebaker at the factory. He and his bride went back to get it. The Studebaker <sup>people</sup> treated them royally. They enjoy, and care for their car.

81

Have you read Wells Drury's  
account of John Studabaker  
"on the Comstock Lode" in  
the appendix captioned "Old  
Houghton" - But of course you  
will have read it.

Re: The Beechmont Journal  
I believe you will make it  
a good round up of the week's  
news touching the high  
spots with the master  
hand you possess.

My best wishes for  
your success. This  
Pacific Coast needs you  
and I hope the Eastern  
Stations will not  
whisk you away from  
us.

Very truly yours  
F. L. Koughan.

## American Japanese Are Championed Strongly

Editor of The Bee—Sir: E. R. J., as well as The Bee, knows America is not only for the white race, but for all those who love peace and freedom. America is the country made up of different peoples from every country in the world—that is what makes America the best.

Many years before the Japanese came to American shores, our European forefathers came to America for economic security and other freedom, taking the land away from the Indians.

The Japanese came to this unsettled land and worked courageously, efficiently and patiently until their crops produced the best and more per acre than other farms. They did not take their land away from anybody.

It seems when any minority group are successful in obtaining a goal, some intolerant persons get jealous of those who also are striving for economic security or perhaps such persons are afraid to admit they have not the courage to work hard and patiently.

Being prejudiced and pessimistic are the signs of being ignorant. Of course there are few well educated people who are intolerant, but we know all those who are intolerant and prejudiced are so because of ignorance.

Americans of Japanese ancestry and their parents are good citizens. The average person knows there are some bad people in any group, but the Japanese in our prisons are very, very few in number, and a Japanese on a relief roll is a rarity.

I have many Japanese friends and I can sincerely say they are the most honest, unselfish, and kindest of friends a person can have. And I know that when persons talk badly about them, they do not mean it deep down in their hearts.

There are thousands and thousands of acres of good American soil lying wasted anywhere you look ready to be cultivated by anyone who has the fortitude to do it.

T. K.

Delano.

and keeping in the best shape physically that they possibly can. If they do come in contact with the enemy forces they will be well trained, physically fit and in no mood to play "drop the handkerchief." On the contrary, they will be out to kill or be killed. Therefore, the advantage lies in being in better shape and better trained.

Too many people here in America recoil in horror at the bare mention of bloodshed but they had better get over being squeamish about these things just in case.

• If there is an outstanding characteristic of the American people in recent years it is a definite unwillingness to face realism and that is bad, very bad, for the future of America.

How about a bit of "thumbs up" here in the U. S. A.?

## Result Of Hard Work

Editor of The Bee—Sir: E. R. J. writes that the Japanese occupy much of the good land on the Pacific Coast. The reason is very simple, the Japanese have gotten to this position only through hard work.

E. R. J. says the Japanese in the United States are only good for Japan. Where is there a man whose thought does not turn a little to the land of his ancestors? But the heart and soul of every Japanese-American citizen lies in America and each is 100 per cent American.

A JAPANESE.

Mr. John B. Hughes

Dear John:-

I enclose two clippings taken from the Fresno Bee sometime in the spring 1941. The clippings will explain themselves. The two are two only of some 16 to 20 comebacks that I received from two from me "ERJ" placed in the "Letters from the people" column.

For twenty years I have watched the trend in Japanese land holdings and the transition from American operators or owners and from raw land into Jap hands, and I have watched this with alarm. Too, I watched the transition of vegetable stand operators and found out only a few years ago thru a Jap boy and girl (born and raised in Oklahoma) that the Jap combine of retail Jap vegetable counters in the Los Angeles city district alone numbered over 1600 stands- controlled by one man.

Many times have I stuck the neck out and talked with politicians with alarm only to be sidetracked that such talk or any action was unthinkable. It has been untouchable, conspicuously for many years. Even my old and I thot faithful friend Tom Connally turned a deaf and somewhat disgusted ear to my inquiries.

Any time that I can be of any service of any kind to any agency working in any way against even the American born Japanese, please turn my name over to that agency. I am 42 plus with a world war discharge and think that I can take the consequences.

More power to your exposition of the yellow peril within our borders.

Sincerely yours,

of your Radio Audience  
I wish to thank you for  
your very enlightening  
talks on the Jap situation  
in California. We owe  
you much credit for  
opening the eyes of some  
men of authority who have  
been blinded to the Jap menace.

About three years ago  
a Jap said to a certain  
man "In ten years we  
will have California."

This Jap was perhaps loyal  
and felt a word to the  
wise was sufficient or

he was boasting of  
a sure thing.

Just south of  
Pescadero in San Mateo  
County, there is a very  
lonely wind-swept stretch  
of coast-line, miles of  
wave-washed cliffs broken  
here and there by small  
sandy beaches and inland  
lagoons. One point along  
the cliffs is known as  
Pebble Beach. At low  
tide a beach is exposed.  
A beach of agates and  
moonstones and beautiful  
pebbles of every size and  
shape.

Along this beach, several  
yards back from the cliff's  
edge, was an old two-story  
mansion, that looked like  
a good-sized hotel.

On one of our drives to Pebble Beach, we found the place alive with Japs, crowds of them swarming in and out of this old mansion like bees around a hive. We were told it was a meeting of a Jap organization. As the years passed, Jap farmers took over all the coast land there and put up signs forbidding public use of the roads to the beach. On my last drive there, I was determined to get to the beach, so I followed a road that bordered an inlet lagoon, passed a hunting lodge and on to the cliffs. I discovered that the old mansion had burned to the ground. Close to the cliffs edge, had been erected a squat shanty. Do you think this place has been checked on a Jap map? This shanty could well replace the mansion that was destroyed

in as far as showing  
lights from windows.

Yours truly

Helen A. Long.

Dear Mr. Hughes:-

Your program this morning -  
Monday, February 16<sup>th</sup>, - seemed, to me, to hit a new  
high in your already fine record as one of our  
Nation's most intelligent commentators. Is there  
any way I can obtain a copy of it? It isn't so  
much the news, as your own comments I want.

In any event, please keep up  
the good work.

Yours sincerely,

Frances Grave.

Mr. John B. Hughes,

My dear Sir:-

May I say to you, & for many here in San Diego, if the views expressed by you on radio at 9 A.M. today, are your views & not the views of Spenser or Radio Station, then there is something radically wrong with the shore, for I assure you your views express the views of Colony No. 5. New England Women of San Diego!

We thank you for your firm stand in regard to this great menace to California, the "Jap" situation & agree with you & all right minded citizens, with the interest of our State & our safety we advocate immediate action & no further delay, before it is too late!

Sincerely yours

Olivia N. Sawyer

To, John B. Hughes:

Dear Sir:

I am inclosing a letter  
(to you) which was printed  
in the Eugene Register  
Guard.

Can it passably be true  
about the Japs receiving  
\$20 per. week in concentr  
ation, Camps?

I listen to as many of  
your broadcasts that I  
passably can and am  
very interested in the Jap  
situation and have written  
several letters to others

Hope I may hear you  
make an answer some-  
time about my wondering

Yours Resp.

about them -

I've never heard of any Americans in foreign concentration camps being treated or fed decent, let alone being paid wages for nothing.

If it's true about the 20 per. week for the Japs I think Uncle Sam is altogether out of his place taking money from our Government (of the people) why do they need so much money if everything is supplied?

My husband works hard 40 hrs. per. week and net earnings is \$27.20 per.

3  
week, which has to cover  
every thing and we are  
saving here and doing  
with out there, so we

can buy defense bonds  
and stamps, besides caring  
for two small children.

The small wage earner  
will be the bond buyer as  
those who really have the  
dough, will put it out at  
a large per. Cent they  
cant afford to loan their  
dirty money to save  
our land - but Im an  
American and glad I  
can buy and will do  
it gladly -

In closing, will say (if  
the Japs. are rec. money)  
that U. S. is Mr. Spredon  
showing off at our expense
