Dear Bob and Pam,

Thank you for your letter. I especially agree with the argument that containment of China is not the real issue.

I'll be glad to be a reference for Bob. The Sugar decision says that any belief which plays the part of a religion in a person's life is legally acceptable. Further, the CCGO advises that refusal to participate in any foreseeable US war constitutes a valid rejection of war under the law.

Fraternally,

Staughton
