No official action was sought to be taken by the Board of Supervisors of this County with reference to the Japanese people in connection with the Pearl Harbor incident for the reason that local authorities were advised that any and all official actions or restrictions to be taken or made would more properly flow from Federal ~~and~~ State authorities, rather than local agencies."

3/2/42 -- Resolution passed by Bd. of Supervisors,  
Resolution #1

over

Hereafter Referred to Res. #

Comment: Res. at an adjourned meeting of Board held 4/1/43 Briefly as follows:

1. Protest 28,000 native born Japs being incorporated into the U.S. Army in separate combat units.
2. Protest contemplated release of from 25,000 to 40,000 Japanese from Relocation camps, with no provision for adequate surveillance or control.

Board's reasons given: (1) To permit them to return to former habitat would subject us again to the danger of serious sabotage and difficulty in defending our shore line in event of attack (2) would be detrimental to the best interests of the Japanese themselves, and require additional policing (3) Impossible to distinguish between loyal and disloyal Japanese (4) If Japanese were allowed to return to this area we could not expect the cooperation of present agricultural or industrial laborers

Carl H.

already engaged in the War Effort if they were called to work with Japanese Evacuees. (5) To allow young Japanese to leave Relocation Camps for educational purposes in our colleges would be unjust and inequitable as it affects our own American boys who have been taken out of college and are so loyally serving their country (6) Japs should be contributing to War Effort in areas removed from Pacific Coast and by group movement under full and proper control and supervision by the Army. OR should be kept in Relocation Centers.

Action: No Resolutions or Ordinances, but in 1941, Bd. of Sup. of county changed the boundaries of one judicial township, for the reason that the concentration of Japanese in that township in Guadalupe section controlled election of township officers. After evacuation, township was restored to its original boundaries.

Statewide program relative to the solution of the Japanese problem beeing carried on by the

Grand Parlor of the Native Sons of the Golden West.  
Did not originate with the local group.

Comment: "Santa Barbara County is definitely aware of the acute Japanese problem, as many thousand acres of our richest farming lands have been either leased or owned by persons of Japanese descent. The Board of Supervisors as a body does not wish to take formal action in regards to this problem, but, speaking as individual members, they feel that legislative measures should be enacted to prevent native and alien Japanese with dual citizenship from owning or leasing California land."

Command & Fourth Army, 4/1/42, urging the removal of  
22 Japs/located in Tuolumne Co. on March 29, 1942.  
who

Comment: "Prior to the settlement of the 22 Japanese referred to in the enclosed copy of telegram, we had no Japanese located in Tuolumne County. Due to a strenuous protest on the part of the majority of the people of Tuolumne County, these Japanese were obliged to leave within sixty days, and were removed to Cedar Co., Utah. You can readily see that the Japanese problem in Tuolumne County was very limited, and I believe I am safe in saying that the sentiment of the Supervisors, as well as the residents of the County, is anything but favorable to the Japanese."
