Comment: "This topic has been discussed at considerable length around the Council table, but no definite action has ever been taken.----- no immediate Japanese problem in our community, as none of them live here.

However, we feel that this Japanese problem belongs to all of us here on the West Coast, whether we have any of them living in our community or not. Furthermore, we feel that all of them, whether American born or not, should be shipped back to Japan. Failing that, they certainly should not be allowed to congregate on the West Coast as they have in  
*Gill*  
over

the past as they will always constitute a menace if they do. We feel that if a person's parents are not allowed to become American citizen's, neither should their offspring, whether born here or not. Also, a white man cannot compete with them, as their lower standards of living will not permit it.

Our sentiment today is just as it was after Pearl Harbor. In fact we have always felt that way about the Japanese. These people in the East, and Middle West who have not had to compete with them and live with them don't know anything about our problem. If they did, they'd say, "Get rid of them". Right now is the time to get this thing settled.. After this is over, people will get complacent again, and it will be the same old story. I believe resolutions could be obtained from every community in the entire Northwest at this time urging Congress to cancel all their citizenship

Continued on Card II

Card II

and also their deportation to Japan, by suitable legislation."

Comment: "To the best of my knowledge there were no Japanese, native born or otherwise, living in this County (Benton) on Dec. 7, 1941, except the students at Oregon State College which is located inside the Corporate Limits of Corvallis. On Dec 8, 1941, our Chief of Police checked at the office of the Registrar at the College and found that 35 students of Japanese origin were registered. Of these, 32 were listed as born in the States, 2 in Hawaii and 1 in Japan. They  
n over

*Ben*

were all eventually disposed of along with all the other West Coast Japanese. ~~None of these students were from this County.~~

We have never had any local Japanese problem and there has been no action of any nature taken by our City Council, neither do I recall that it has been discussed. My private, personal opinion is that if a local poll were taken there would be uncovered a rather strong feeling against permitting the return of any Japanese to the West Coast."

Comment: "The Town Council of Hammond Oregon did not have to pass resolutions for evacuation of Japanese from this district as the U.S. Government took care of that as Hammond Oregon is situated near Fort Stevens Oregon, which is in the Coast Defense Area."

Comment: "This city has not to this date passed any resolutions, ordinances or other restrictions with regard to the West Coast Japanese and the situation has not been discussed in the Council meetings, however, it has been discussed among several of the city officials and if legislation is passed in the very near future on this subject a copy of same will be mailed to your office."

(After Evac.) Res. passed by City Council (no date to the effect that: persons of Japanese ancestry should be permanently barred from citizenship; all persons of Japanese ancestry now residing in this country should be deported to Japan at the earliest opportunity; the amendment of the Constitution of the United States to limit citizenship because of birth in the United States to those who are born here to parents who are citizens of the United States; as to those Japanese who now claim full citizenship under the Fourteenth Amendment because they were born here, we deny such claim, and assert and

*H.R.*  
/over

declare that our Constitution may not be so construed as to confer citizenship upon a child born here to parents who were neither citizens nor eligible of becoming citizens.

Comment: "You will probably realize how the people of this community feel in the matter, when I tell you that the following organizations have passed similar resolutions Hood River Chamber of Commerce, Lions Clug, American Legion Post #22, Rotary International, B. B. O. Elks #1507, All Granges in the County, K. P. Lodge, Eagles Lodge, etc.

The sentiment against the Japanese in this district is very strong, and we feel that we are qualified to judge them as well as any district in the country, having had approximately six hundred Japanese living in this community

I believe I express the opinion of 99% of the people here, when I say that--WE DON'T EVER WANT TO SEE ANY JAPANESE BACK IN OUR COMMUNITY."

Mr. C. R. Duncan, Recorder  
City of Hubbard 2516

Comment: Unanimously agrees that the Japanese should be sent out of the country . . and that citizenship should be abrogated or cancelled and no Japanese granted citizenship in future.
