*This inventory reproduces the original envelope labels. In some cases, the handwriting is difficult to read. This inventory notes this and the original envelopes can be viewed in the MVC Reading Room. Some envelopes have been replaced due to being severely damaged; however, we have maintained the original labels as they were written. All labels are original unless they appear in brackets []. Description in brackets was created by the archivist in order to clarify or better describe the materials. The inventory listed envelopes that appear to be missing. These are noted in the both the boxes and this inventory.

Meryll Carr Allyn collection of Negatives - MVC085
