## Subseries 2.5 File Directory

This searchable document lists the digital files in:

Subseries 2.5: I Hotel Digital Files

### Access information

Open for research. Digital files are available in the UCSC Special Collections and Archives reading room. Some files may require reformatting before they can be accessed. Technical limitations may hinder the Library's ability to provide access to some digital files. Access to digital files on original carriers is prohibited; users must request to view access copies. Contact Special Collections and Archives in advance to request access to digital files.

### Processing information

Files were originally stored on 23 CDs, which have been retained and are stored in box 60.

### Note

Note that while many files in this subseries are identified here as Unix executable files, they are most likely data files, not executables. The Mac operating system interprets unknown file formats as Unix executable files, which is transposed on this file directory document. Contact Special Collections and Archives for more information.

See the [Collection Guide to the Karen Tei Yamashita papers](#) for more information.
