Processing Information:

Inventory created by Isaac Fellman in 2020, based on a preliminary survey completed by Marjorie Bryer in 2011.

This inventory uses terminology for LGBTQ people that was in current use at the time of its creation. Descriptive language for queer identities evolves quickly and some of these terms may now be dated or even offensive. Finding aids are themselves historical documents; they reflect the moment in which they were written and often reflect the terms that subjects used for themselves. Please contact the GLBT Historical Society Archivist with questions or comments.

Biographical/Organizational History Note: Matthew Bajko is a journalist with the *Bay Area Reporter*.

Scope and Content: The collection includes subject files, conference materials, a small amount of correspondence, ephemera, media kits, meeting minutes, notes, press releases, reports, and news clippings. Subjects cover a broad spectrum of LGBT life, including business and economics; elections in San Francisco, Oakland, and California; HIV/AIDS and other healthcare issues; marriage; nightlife; and sexuality. Also included in the collection is a small amount of audiovisual material and a small series of papers documenting the San Francisco State University chapter of Delta Lambda Phi, a gay fraternity, circa 2001-2002.
