Processing Information:

Finding Aid created by Isaac Fellman in 2021.

This finding aid uses terminology for LGBTQ people that was in current use at the time of its creation. Descriptive language for queer identities evolves quickly and some of these terms may now be dated or even offensive. Finding aids are themselves historical documents; they reflect

the moment in which they were written and often reflect the terms that subjects used for themselves. Please contact the GLBT Historical Society Archivist with questions or comments.

Biographical/Organizational History Note: The Horizons Foundation was founded in 1980 as the grantmaking arm of the Golden Gate Business Association (GGBA), and has provided grants to support the San Francisco Bay Area LGBTQIA+ community for more than forty years. Horizons took its current name in 1988, and in 1999 achieved the goal of providing a million dollars of yearly grantmaking. It was the first foundation in the United States to make a grant to an AIDS service provider -- a 1982 grant to the Kaposi's Sarcoma Research and Education Foundation, later known as the San Francisco AIDS Foundation. Horizons also sponsored the first Gay Games.

Scope and Content: The collection is broken into five series: Grant Materials, Administrative Records, Publications, Audiovisual Materials and Artifacts. Grant Materials contains documentation of the Horizons Foundation's grants, including applications, letters, and related materials from a wide variety of organizations and projects over nearly twenty years. Administrative Records contains a variety of materials, including development and communications documents, surveys and studies, board materials, subject files, grant rating materials, and a significant amount of material on Horizons' Technical Assistance Program (TAP). Publications contains miscellaneous internal and external publications, most of them apparently grant deliverables. Audiovisual Materials also consists mostly of grant deliverables, including videotapes, audio cassettes, and DVDs. Artifacts contains various artifacts, such as a parade banner and metal bookmarks.

Container Listing

Series I: Grant Materials, 1982-2001

Physical Description: 25 cartons.

Scope and Content: This series contains documentation of the Horizons Foundation's grants. Folders generally include applications, as well as formal grant letters if the applications were approved, and sometimes also other correspondence, clippings, and related material. As a result, it provides a broad picture of the queer nonprofit community in the San Francisco Bay Area between the 1980s and the 2000s, including their missions, leadership, and projects.

Arrangement: Series is arranged in order by year, generally in the original folders. This appears to largely reflect original order. Dates in this series are taken from the Foundation's folders, and reflect the year the grant was given; some materials in the folders may date from slightly sooner or later.
