

UCSC Feminist Studies Department Records

Digital Files

This searchable document lists the digital files in the UCSC Feminist Studies Department Records collection. The files are described in the Digital Files and Media series in the collection guide.

General note

This file directory includes file name, file type, size, and date last modified for each file.

Access information

Open for research. Digital files are available in the UCSC Special Collections and Archives reading room. Some files may require reformatting before they can be accessed. Technical limitations may hinder the Library's ability to provide access to some digital files. Access to digital files on original carriers is prohibited; users must request to view access copies. Contact Special Collections and Archives in advance to request access to digital files.

Processing information

The digital materials in this collection were processed by Alix Norton in 2020. Files were primarily transferred from physical carriers with the use of the tools DataAccessioner v1.1, Handbrake, and Exact Audio Copy. Metadata documenting transfer of digital files is available upon request. Duplicate files, system-generated files, and temporary files were removed using the tool TreeSize Pro, and files that were out of scope were manually removed. Files were not reformatted, and file names are original to the creator. Original disks were retained after file transfer and are included in the collection, with the exception of materials that were deemed to be out of scope and materials that were not able to be transferred.

See the [Collection Guide to the UCSC Feminist Studies Department Records](#) for more information.
